Snowflake DAA-C01 PDF Questions - Ensure Your Success In Exam

You will feel comfortable and pleasant to shop on such a good website. All the contents of our DAA-C01 training dumps are organized logically. Each small part contains a specific module. You can clearly get all the information about our DAA-C01 study

Snowflake SnowPro Advanced: Data Analyst Certification Exam Sample Questions (Q31-Q36):

NEW QUESTION # 31

A telecommunications company wants to identify customers whose service addresses fall within a specific service area polygon defined as a Well-Known Text (WKT) string. The customer addresses are stored in a table 'CUSTOMER ADDRESSES' with a 'ADDRESS POINT column of type GEOGRAPHY. You have the WKT representation of the service area polygon stored in a variable '@service area_wkt'. Which of the following statements will correctly identify the customers within the service area? (Select all that apply)

- A.

- B.

- C.

- D.

- E.

Answer: C,E

Explanation:
TO_GEOGRAPHY(@service_area_wkt))' correctly identifies points that fall within the service area polygon. converts the WKT string into a GEOGRAPHY object. 'ST_COVERS(TO_GEOGRAPHY(@service_area_wkt), ADDRESS_POINT)' checks if the polygon covers the point.

NEW QUESTION # 32

How do Snowsight dashboards enable effective data presentation for business use analyses?

- A. Snowsight offers limited data representation options.
- B. Snowsight dashboards rely solely on text-based representations.
- C. They enable diverse data representation for effective analyses.
- D. Snowsight doesn't support visual data representation.

Answer: C

Explanation:
Snowsight dashboards enable diverse data representation for effective analyses in business use cases.

NEW QUESTION # 33

You are tasked with loading data from an S3 bucket into a Snowflake table named 'SALES DATA'. The data is in CSV format, compressed with gzip, and contains a header row The S3 bucket requires AWS IAM role authentication. The 'SALES DATA' table already exists, and you want to use a named stage for this ingestion process. Which of the following steps are necessary to successfully load the data, minimizing administrative overhead?

- A. Create an external function to read the data from S3 and then insert it into the table, as Snowflake cannot directly read gzipped CSV files from S3.
- B. Create a Snowflake stage object that references the storage integration, the S3 bucket URL, and specifies the file format (CSV with gzip compression and header skip). Use the 'COPY INTO' command referencing the stage.
- C. Ensure the S3 bucket has public read access; Snowflake's COPY INTO command will handle decompression and data loading without further configuration.
- D. Grant usage privilege on the storage integration to the role performing the data load. Ensure the user loading data has access to the Snowflake stage and the ' INSERT privilege on the table.

- E. Create a new IAM role in AWS with access to the S3 bucket, then create a Snowflake storage integration object referencing that role's ARN and the S3 bucket's URL.

Answer: B,D,E

Explanation:
Options A, B, and D are correct. Option A: Snowflake needs an IAM role and storage integration to access the S3 bucket securely. Option B: A stage object simplifies the COPY INTO command and handles file format details. Option D: Correct permissions are required for the data load to succeed. Option C is incorrect because Snowflake can directly read gzipped CSV files from S3 when configured correctly. Option E is incorrect because granting public read access to the S3 bucket is a security risk and is not the best practice; using IAM roles provides controlled and secure access.

NEW QUESTION # 34
How does enriching data through Snowflake Marketplace benefit data analysis? (Select all that apply)

- A. Facilitates better data quality
- B. Expands data sources for correlation
- C. Increases data redundancy
- D. Supports better data normalization

Answer: A,B

Explanation:
Enriching data through the marketplace expands data sources for correlation and enhances overall data quality.

NEW QUESTION # 35
Configuring subscriptions and updates in a dashboard tool primarily helps in:

- A. Ensuring users receive the latest data
- B. Reducing the size of the data
- C. Changing the dashboard layout
- D. Enhancing the security of the data

Answer: A

NEW QUESTION # 36
......

By concluding quintessential points into SnowPro Advanced: Data Analyst Certification Exam practice materials, you can pass the exam with the least time while huge progress. Our experts are responsible to make in-depth research on the exams who contribute to growth of our DAA-C01 practice materials. Their highly accurate exam point can help you detect flaws on the review process and trigger your enthusiasm about the exam. What is more, DAA-C01 practice materials can fuel your speed and the professional backup can relieve you of stress of the challenge.

DAA-C01 Valid Braindumps Questions: https://www.actualpdf.com/DAA-C01_exam-dumps.html

By getting the Snowflake DAA-C01 certification, you can avoid thinking about negative things, instead, you can focus on the positive and bright side of taking this step and find a new skill set to improve your chances of getting your dream job, A: ActualPDF DAA-C01 Valid Braindumps Questions has earned the enormous credibility from its customers from all corners of the world who have already been benefitted by its remarkable products, Expert team can provide the high quality for the DAA-C01 quiz guide consulting for you to pass the DAA-C01 exam.

Capitalize on Change, DAA-C01 is a 150-minute long exam for Azure Solution Architects that tests them for deploying & configuring infrastructure, implementing workloads & security, creating & deploying DAA-C01 apps, implementing authentication & securing data, and developing for the cloud & Azure storage.
