PECB Certified ISO/IEC 27001 Lead Implementer Exam Sample Questions (Q133-Q138):

NEW QUESTION # 133
Based on scenario 5. after migrating to cloud. Operaze's IT team changed the ISMS scope and implemented all the required modifications Is this acceptable?

- A. No, because any change in ISMS scope should be accepted by the management
- B. Yes, because the ISMS scope should be changed when there are changes to the external environment
- C. No, because the company has already defined the ISMS scope

Answer: A

NEW QUESTION # 134
Scenario 7: InfoSec is a multinational corporation headquartered in Boston, MA, which provides professional electronics, gaming, and entertainment services. After facing numerous information security incidents, InfoSec has decided to establish teams and implement measures to prevent potential incidents in the future Emma, Bob. and Anna were hired as the new members of InfoSec's information security team, which consists of a security architecture team, an incident response team (IRT) and a forensics team Emma's job is to create information security plans, policies, protocols, and training to prepare InfoSec to respond to incidents

effectively Emma and Bob would be full-time employees of InfoSec, whereas Anna was contracted as an external consultant. Bob, a network expert, will deploy a screened subnet network architecture This architecture will isolate the demilitarized zone (OMZ) to which hosted public services are attached and InfoSec's publicly accessible resources from their private network Thus, InfoSec will be able to block potential attackers from causing unwanted events inside the company's network. Bob is also responsible for ensuring that a thorough evaluation of the nature of an unexpected event is conducted, including the details on how the event happened and what or whom it might affect.

Anna will create records of the data, reviews, analysis, and reports in order to keep evidence for the purpose of disciplinary and legal action, and use them to prevent future incidents. To do the work accordingly, she should be aware of the company's information security incident management policy beforehand Among others, this policy specifies the type of records to be created, the place where they should be kept, and the format and content that specific record types should have.

Based on scenario 7. InfoSec contracted Anna as an external consultant. Based on her tasks, is this action compliant with ISO/IEC 27001°

- A. Yes, organizations must use external consultants for forensic investigation, as required by the standard
- B. Yes, forensic investigation may be conducted internally or by using external consultants
- C. No, the skills of incident response or forensic analysis shall be developed internally

Answer: B

NEW QUESTION # 135
Which is a legislative or regulatory act related to information security that can be imposed upon all organizations?

- A. ISO/IEC 27001:2005
- B. ISO/IEC 27002:2005
- C. Intellectual Property Rights
- D. Personal data protection legislation

Answer: D

NEW QUESTION # 136
How should the level of detail in risk identification evolve over time?

- A. It should focus on highly detailed assessments conducted on an ad-hoc basis rather than broad risk assessments
- B. It should be refined gradually through iterative assessments, increasing the level of detail over time
- C. It should be performed in full detail only when significant changes occur in the organization

Answer: B

NEW QUESTION # 137
Scenario 4: TradeB. a commercial bank that has just entered the market, accepts deposits from its clients and offers basic financial services and loans for investments.
