## Fantastic Certification 1z0-1073-25 Book Torrent & Free PDF 1z0-1073-25 Valid Learning Materials & Top Oracle Oracle Inventory Cloud 2025 Implementation Professional

We have installed the most advanced operation system in our company which can assure you the fastest delivery speed on our 1z0-1073-25 learning guide, you can get immediately our 1z0-1073-25 training materials only within five to ten minutes after purchase after payment. At the same time, there is really no need for you to worry about your personal information if you choose to buy the 1z0-1073-25 Exam Practice from our company.

### Oracle Inventory Cloud 2025 Implementation Professional Sample Questions (Q88-Q93):

#### NEW QUESTION # 88

You created a consigned agreement with a supplier. The supplier shipped the goods, which you received in your receiving area. After two days, you transferred the goods from receiving into your inventory and used it for your interorganization transfer order. Where is the ownership of the goods?

- A. The ownership is with the supplier because the goods are not yet consumed.
- B. The ownership changes from the supplier to the buyer as soon as the goods are received in the receiving area.
- C. The ownership is with the supplier because the supplier has not sent the consumption advice.
- **D. The ownership is with the buyer due to interorganization consigned inventory movement.**

**Answer: D**

#### NEW QUESTION # 89

Which functionalities are part of Supply Chain Orchestration? (Choose four)

- **A. launching and managing complex business processes**
- **B. receiving supply requests from several sources operating in Oracle Cloud**
- **C. performing automated change management to match supply to demand**
- **D. providing a 360-degree view of the supply-creation process**
- E. providing supply requests to Fusion Planning Central

**Answer: A,B,C,D**

#### NEW QUESTION # 90

##### SIMULATION

##### Back-to-Back Supply Creation On-Hand Flow

The back-to-back on-hand available (ATP) flow is the simplest in terms of the number of steps that constitute the flow. This flow occurs where on hand supply is available in the fulfillment warehouse for the ordered back-to-back item at the time of order promising. Because on-hand goods already exist in the form of on hand, Oracle Supply Chain Orchestration directly sends a request

to reserve the on hand quantity against the back-to-back sales order. You can ship the sales order immediately after the reservation is created.

The following figure shows the back-to-back supply creation on-hand flow.

**Answer:**

Explanation:

See the Explanation for the complete solution

Explanation:

Back-to-Back Supply Creation: On-Hand Flow in Oracle Cloud

1. Overview of Back-to-Back On-Hand Flow

The Back-to-Back On-Hand Flow is the simplest and fastest fulfillment method in Oracle Cloud because the required stock is already available in the fulfillment warehouse at the time of sales order entry.

Unlike Buy, Make, or Transfer Flows, no additional supply is created. Instead, Oracle Supply Chain Orchestration (SCO) directly reserves the available inventory against the sales order, making it ready for immediate shipment.

2. Step-by-Step Back-to-Back On-Hand Flow Process

Below is a detailed step-by-step breakdown of the Back-to-Back On-Hand Flow using Oracle Fusion Cloud applications.

Step 1: Enter & Schedule Sales Order

The customer places a sales order in Oracle Order Management.

The system checks inventory availability in Oracle Inventory Cloud.

Oracle Global Order Promising (GOP) determines that the required stock is already available in the fulfillment warehouse.

No procurement, manufacturing, or warehouse transfers are needed.

The sales order is scheduled immediately for fulfillment.

System Action: The system identifies that on-hand stock is available and proceeds to reservation.

Step 2: Reserve Available Inventory

Oracle Supply Chain Orchestration (SCO) reserves the available stock against the back-to-back sales order.

The system ensures that this stock is allocated only to this order, preventing other orders from using it.

System Action: The system reserves the required quantity for the sales order.

Step 3: Ship the Sales Order

The order moves directly to shipping in Oracle Inventory Cloud.

The warehouse team picks, packs, and ships the goods using Oracle Shipping Execution.

An invoice is generated in Oracle Receivables.

The sales order is closed after shipment.

Final Action: The system completes the order and ships it to the customer.

3. Oracle Fusion Cloud Modules Involved in On-Hand Flow

4. Benefits of Back-to-Back On-Hand Flow

- ✓ Fastest Fulfillment Process - No need for procurement, manufacturing, or transfers.
- ✓ Minimizes Order Processing Time - Orders can be shipped immediately after reservation.
- ✓ Eliminates Additional Costs - No purchase orders, work orders, or transfers required.
- ✓ Ensures Inventory Optimization - Uses available stock efficiently.
- ✓ Improves Customer Satisfaction - Quick shipping and fulfillment.

5. Real-World Use Case

Scenario: Electronics Retailer Fulfilling a Popular Smartphone Order

A retailer sells Smartphone XYZ and has 100 units in stock at its fulfillment warehouse.

Process Flow:

A customer places an order for 10 units of Smartphone XYZ.

Oracle Global Order Promising (GOP) identifies that stock is available.

Oracle Supply Chain Orchestration (SCO) reserves 10 units against the sales order.

The warehouse team picks, packs, and ships the smartphones.

The customer receives the order, and the system closes the sales order.

Result: The order is fulfilled immediately without additional supply creation.

**NEW QUESTION # 91**

Your supplier is using the Supplier Portal and sends you an Advance Shipment Notice (ASN) whenever they ship goods. You have already created a consignment agreement with this supplier with the following consignment terms:

Aging Onset Point: Shipment

\* Aging Period Days:3 Consumption Advice Frequency: Daily

\* Consumption Advice Summary: All Organizations

For some reason, it took five days for the goods to arrive, and you have noticed that the goods are damaged. You have now

decided to send them back.

At that point, when you return the goods, who is the owner of the goods?

- A. The goods are still under the supplier's ownership.
- **B. The goods are under the buyer's ownership.**
- C. The goods are under nobody's ownership because they were damaged in transit.
- D. The goods are under third-party ownership who is the shipping service provider.

**Answer: B**

#### NEW QUESTION # 92

You are planning to create a new transaction type, Audit Movement, to track all inventory movements planned for periodical audit in your warehouse. Which statement is true about the Audit Movement transaction type?

- A. User-defined transaction actions can be included.
- B. Material status control cannot be enabled.
- **C. User-defined transaction source can be included.**

**Answer: C**

#### NEW QUESTION # 93
