MD-102日本語サンプル、MD-102合格問題

Pass4Testを通してMicrosoft MD-102試験に合格することがやすく、Microsoft MD-102試験をはじめて受ける方はPass4Testの商品を選んで無料なサンプル（例年の試験問題集と解析）をダウンロードしてから、楽に試験の現場の雰囲気を体験することができます。オンラインにいろいろなMicrosoft MD-102試験集があるですが、弊社の商品は一番高品質で低価額で、試験の問題が絶えず切れない更新でテストの内容ともっとも真実と近づいてお客様の合格が保証いたします。それほかに、弊社の商品を選んで、勉強の時間も長くではありません。

できるだけ早く Microsoft MD-102 認定試験「Endpoint Administrator」をしよう。

Microsoft Endpoint Administrator 認定 MD-102 試験問題 (Q86-Q91):

質問 # 86

Case Study 1 - Litware inc

General Overview

Litware, Inc. is an international manufacturing company that has 3,000 employees. The company has sales, marketing, research, human resources (HR), development, and IT departments.

Litware has two main offices in New York and Los Angeles. Litware has five branch offices in Asia.

Existing Environment

Current Business Model

The Los Angeles office has 500 developers. The developers work flexible hours ranging from 11 AM to 10 PM.

Litware has a Microsoft Endpoint Configuration Manager deployment.

During discovery, the company discovers a process where users are emailing bank account information of its customers to internal and external recipients.

Current Environment

The network contains an Active Directory domain that is synced to Microsoft Azure Active Directory (Azure AD). The functional level of the forest and the domain is Windows Server 2012 R2. All domain controllers run Windows Server 2012 R2.

Litware has the computers shown in the following table.

Department	Windows version	Management platform	Domain-joined
Marketing	8.1	Endpoint Configuration Manager	Hybrid Azure-AD joined
Research	10	Endpoint Configuration Manager	Hybrid Azure-AD joined
HR	8.1	Endpoint Configuration Manager	Hybrid Azure-AD joined
Developers	10	Microsoft Intune	Azure AD-joined
Sales	10	Microsoft Intune	Azure AD-joined

The development department uses projects in Azure DevOps to build applications. Most of the employees in the sales department are contractors. Each contractor is assigned a computer that runs Windows 10. At the end of each contract, the computer is assigned to different contractor.

Currently, the computers are re-provisioned manually by the IT department.

Problem Statements

Litware identifies the following issues on the network:

- Employees in the Los Angeles office report slow Internet performance when updates are downloading. The employees also report that the updates frequently consume considerable resources when they are installed. The Update settings are configured as shown in the Updates exhibit. (Click the Updates button.)
- Management suspects that the source code for the proprietary applications in Azure DevOps is being shared externally.
- Re-provisioning the sales department computers is too time consuming.

Requirements

Business Goals

Litware plans to transition to co-management for all the company-owned Windows 10 computers.

Whenever possible, Litware wants to minimize hardware and software costs.

Device Management Requirements

Litware identifies the following device management requirements:

- Prevent the sales department employees from forwarding email that contains bank account information.
- Ensure that Microsoft Edge Favorites are accessible from all computers to which the developers sign in.
- Prevent employees in the research department from copying patented information from trusted applications to untrusted applications.

Technical Requirements

Litware identifies the following technical requirements for the planned deployment:

- Re-provision the sales department computers by using Windows AutoPilot.
- Ensure that the projects in Azure DevOps can be accessed from the corporate network only.
- Ensure that users can sign in to the Azure AD-joined computers by using a PIN. The PIN must expire every 30 days.
- Ensure that the company name and logo appears during the Out of Box Experience (OOBE) when using Windows AutoPilot.

Hotspot Question

You need to recommend a solution to meet the device management requirements.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

For the Research department employees:

☐	An app configuration policy
☐	An app protection policy
☐	Azure information Protection
☐	iOS app provisioning profiles

For the Sales department employees:

☐	An app configuration policy
☐	An app protection policy
☐	Azure information Protection
☐	iOS app provisioning profiles

正解:

解説:

Answer Area

Microsoft

For the Research department employees:

☐	An app configuration policy
☒	An app protection policy
☐	Azure information Protection
☐	iOS app provisioning profiles

For the Sales department employees:

☐	An app configuration policy
☐	An app protection policy
☒	Azure information Protection
☐	iOS app provisioning profiles

Explanation:

Box 1:

Employees in the research department must be prevented from copying patented information from trusted applications to untrusted applications. This requires an App protection policy.

App protection policies make sure that the app-layer protections are in place. For example, you can:

- Require a PIN to open an app in a work context
- Control the sharing of data between apps

Prevent the saving of company app data to a personal storage location

Box 2:

Employees in the sales department must be prevented from forwarding email that contains bank account information.

Azure Information Protection is a cloud-based solution that helps an organization to classify and optionally, protect its documents and emails by applying labels.

Labels can be applied automatically by administrators who define rules and conditions, manually by users, or a combination where users are given recommendations.

質問 # 87

Your company standardizes on Windows 10 Enterprise for all users.

Some users purchase their own computer from a retail store. The computers run Windows 10 Pro.

You need to recommend a solution to upgrade the computers to Windows 10 Enterprise, join the computers to Azure AD, and install several Microsoft Store apps. The solution must meet the following requirements:

- * Ensure that any applications installed by the users are retained.
- * Minimize user intervention.

What is the best recommendation to achieve the goal?

More than one answer choice may achieve the goal.

Select the BEST answer.

- A. Windows Autopilot
- B. a Windows Configuration Designer provisioning package
- C. Microsoft Deployment Toolkit (MDT)
- D. Windows Deployment Services (WDS)

正解: A

質問 # 88

You have an Azure Active Directory (Azure AD) tenant named contoso.com that contains a user named User1. User1 has a user principal name (UPN) of user1 @contoso.com.

You join a Windows 10 device named Client1 to contoso.com.

You need to add User1 to the local Administrators group of Client1.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

正解:

解説:

Explanation:

質問 # 89

What is the maximum number of devices that User1 and User2 can enroll in Intune? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

User1 can enroll a maximum of:

☐	5 devices
☐	10 devices
☐	15 devices
☐	1,000 devices
☐	An unlimited number of devices

User2 can enroll a maximum of:

☐	5 devices
☐	10 devices
☐	15 devices
☐	1,000 devices
☐	An unlimited number of devices

正解:

解説:

	User1 can enroll a maximum of:	☐	5 devices
		☒	10 devices
		☐	15 devices
		☐	1,000 devices
		☐	An unlimited number of devices
	User2 can enroll a maximum of:	☐	5 devices
		☐	10 devices
		☒	15 devices
		☐	1,000 devices
		☐	An unlimited number of devices

質問 #90

You have an Azure Active Directory (Azure AD) tenant that contains the users shown in the following table.

Name	Member of
User1	Group1
User2	Group2

You have devices enrolled in Microsoft Intune as shown in the following table.

Name	Platform	Member of
Device1	Windows 10	Group1
Device2	Android	Group1
Device3	iOS	Group2

From Intune, you create and send a custom notification named Notification1 to Group1.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE:Each correct selection is worth one point.

Statements

Yes No

User1 receives Notification1 on Device1.

☐☐

User2 receives Notification1 on Device2.

☐☐

User1 receives Notification1 on Device3.

☐☐

正解:

解説:

Statements	Yes	No
User1 receives Notification1 on Device1.	☐	☒
User2 receives Notification1 on Device2.	☐	☒
User1 receives Notification1 on Device3.	☒	☐

Explanation:

A screenshot of a computer Description automatically generated with medium confidence

Statements

Yes No

User1 receives Notification1 on Device1.

☐☐

User2 receives Notification1 on Device2.

☐☐

User1 receives Notification1 on Device3.

☐☐
