There have detailed introductions about the Sharing-and-Visibility-Architect learnign braindumps such as price, version, free demo and so on. As long as you click on it, all the information will show up right away. It is quite convenient.

Salesforce Certified Sharing and Visibility Architect Sample Questions (Q14-Q19):

NEW QUESTION # 14

A sales representative at Universal Containers needs assistance from specific product managers when selling certain deals. Product managers do not have access to opportunities they don't own, as the sharing model is Private, but need to gain access when they are assisting with a specific deal. How can an Architect accomplish the requirement?

- A. Use similar opportunities to share opportunities related to the product manager.
- B. Enable account team and allow users to add the product manager.
- C. Create a sharing rule to allow the product manager to access the opportunity.
- **D. Enable opportunity teams and allow users to add the product manager.**

Answer: D

NEW QUESTION # 15

Universal Containers has Public Read Only sharing settings on the Opportunity object. What Opportunity access options can the user see while adding account team members to the Account?

- A. Private and Read Only
- **B. Read Only and Read/Write**
- C. Private
- D. Read Only

Answer: B

NEW QUESTION # 16

Sales Operations at Universal Container (UC) wants to create the opens to fiber appropriates for center.

In which two ways can UC hide list that are not relevant to an individual use since there will be Choose 2 answers.

- **A. Share the list views with the appropriate role in the role hierarchy**
- B. Share the list views with the appropriate individual users.
- **C. Share the list views with the appropriate public group.**
- D. Share the list views with the appropriate queue.

Answer: A,C

NEW QUESTION # 17

Universal Containers (UC) delivers training and courses to students and companies. UC is implementing a Salesforce Customer Community for its students granting them a Customer Community license. As part of the community requirements, UC asked to give students access to cases that are related to their account in the UC community.

What is the optimum sharing technique to achieve these requirements?

- A. Create a sharing rule to share cases with the students.
- B. Use Apex sharing to share cases with the students.
- **C. Create a sharing set to share cases with the students.**

Answer: C

Explanation:

For Customer Community licenses, the most optimal and Salesforce-recommended method to share cases with users is through a Sharing Set. Sharing Sets allow administrators to grant access to records associated with the user's account or contact, based on their profile and account relationship.

- * Option A: Apex sharing could accomplish this, but it is unnecessary overhead and more complex compared to Sharing Sets, especially for straightforward account-related sharing.
 - * Option B: Sharing rules do not apply to community licenses such as Customer Community and are not an effective solution in this context.
 - * Option C (Correct): Sharing Sets provide a declarative solution to meet the requirement. By configuring a Sharing Set, UC can grant students access to cases linked to their account without needing custom code or complex configurations.

- * Sharing Sets for Communities

NEW QUESTION # 18

To reduce the case time resolution and improve customer satisfaction, Universal Containers (UC) wants to allow specialized marketing consultants to have edit access to Case records of VIP customers. These casts should be visible only to the support rep who owns the case and the marketing consultants.

Which recommendation should a Salesforce architect give to allow this scenario?

- **A. Case organization-wide default Private and Account Team with Read/Edit permission.**
- B. Case organization wide default Private and Case Team with Read/Edit permission.
- C. Case organization-wide default Public Read Only and Case Team with Read permission.
- D. Case organization-wide default Private, role hierarchy, and Read Only ownership-based sharing rule.

Answer: A

Explanation:

Explanation

Setting the case organization-wide default to Private and adding the specialized marketing consultants to the account team with Read/Edit permission are the best recommendations to allow this scenario. This way, only the support rep who owns the case and the marketing consultants who are related to the account can see and edit the case records of VIP customers. Option B is incorrect, since setting the case organization-wide default to Public Read Only would give access to all cases to all users. Option C is incorrect, since using a role hierarchy and a read-only ownership-based sharing rule would not give edit access to the marketing consultants. Option D is incorrect, since adding the marketing consultants to the case team would require manual configuration and maintenance.

NEW QUESTION # 19

.....

If you have time to know more about our Sharing-and-Visibility-Architect study materials, you can compare our study materials with the annual real questions of the exam.
