- A. Person Account
- B. Contact-Contact Relationship
- **C. Account Account Relationship**
- D. Account Contact Relationship

Answer: C

Explanation:

Explanation

To configure a custom field for reporting when relating two-person accounts to each other, the Financial Services Cloud consultant should configure the custom field on the Account Account Relationship object. The Account Account Relationship object is a junction object that links two accounts together and defines their relationship type and role. By configuring a custom field on the Account Account Relationship object, the consultant can capture additional information about how two-person accounts are related to each other and use it for reporting purposes.
