# 2026 Pass-Sure JN0-336–100% Free Valid Test Question | Knowledge Security, Specialist (JNCIS-SEC) Points

As you can see from the demos that on our website that our JN0-336 practice engine have been carefully written, each topic is the essence of the content. Only should you spend about 20 - 30 hours to study JN0-336 preparation materials carefully can you take the exam. The rest of time you can go to solve all kinds of things in life, ensuring that you don't delay both study and work. Our JN0-336 Exam Braindumps will save your time, money and efforts to success.

Many candidates find the Juniper JN0-336 exam preparation difficult. They often buy expensive study courses to start their Security, Specialist (JNCIS-SEC) (JN0-336) certification exam preparation. However, spending a huge amount on such resources is difficult for many Juniper exam applicants. The latest Juniper JN0-336 Exam Dumps are the right option for you to prepare for the JN0-336 certification test at home. Itcertmaster has launched the JN0-336 exam dumps with the collaboration of world-renowned professionals.

## JN0-336 Dumps Torrent: Security, Specialist (JNCIS-SEC) & JN0-336 Exam Bootcamp

There is an irreplaceable trend that an increasingly amount of clients are picking up JN0-336 practice materials from tremendous practice materials in the market. There are unconquerable obstacles ahead of us if you get help from our JN0-336 practice materials. So many exam candidates feel privileged to have our JN0-336 practice materials. Your aspiring wishes such as promotion chance, or higher salaries or acceptance from classmates or managers and so on. And if you want to get all benefits like that, our JN0-336 practice materials are your rudimentary steps to begin.

## Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q89-Q94):

**NEW QUESTION # 89**
On which three Hypervisors is vSRX supported? (Choose three.)

- A. KVM
- B. Citrix Hypervisor
- C. Hyper-V
- D. VMware ESXI
- E. Oracle VM

**Answer: A,C,D**

Explanation:
vSRX is a virtual firewall that runs as a software instance on a hypervisor. A hypervisor is a software layer that allows multiple virtual machines to run on a single physical host. vSRX supports three hypervisors: VMware ESXi, Hyper-V, and KVM. VMware ESXi is a hypervisor that runs on x86 servers and supports various operating systems and applications. Hyper-V is a hypervisor that runs on Windows Server and supports Windows and Linux virtual machines. KVM (Kernel-based Virtual Machine) is a hypervisor that runs on Linux and supports Linux, Windows, and other operating systems.

Reference: = vSRX Overview, VMware ESXi - Wikipedia, Hyper-V - Wikipedia, Kernel-based Virtual Machine - Wikipedia

**NEW QUESTION # 90**
While working on an SRX firewall, you execute the show security policies policy-name <name> detail command.
Which function does this command accomplish?

- A. It displays details about the default security policy.
- B. It shows the system log files for the local SRX Series device.
- C. It identifies the different custom policies enabled.
- D. It shows policy counters for a configured policy.

**Answer: D**

Explanation:
The function that the show security policies policy-name <name> detail command accomplishes is showing policy counters for a configured policy. Policy counters are statistics that indicate how many times a policy has been matched by traffic and what actions have been taken by the policy. Policy counters can help you monitor and troubleshoot the performance and effectiveness of your security policies. The show security policies policy-name <name> detail command displays detailed information about a specific policy, such as its source zone, destination zone, description, state, hit count, byte count, packet count, action count, and session count.
Reference: = show security policies, show security policies information, [SRX] How to troubleshoot a security policy that is not passing data

**NEW QUESTION # 91**
Exhibit

You are trying to create a security policy on your SRX Series device that permits HTTP traffic from your private 172 25.11.0/24 subnet to the Internet You create a policy named permit-http between the trust and untrust zones that permits HTTP traffic. When you issue a commit command to apply the configuration changes, the commit fails with the error shown in the exhibit.
Which two actions would correct the error? (Choose two.)

- A. Execute the Junos commit full command to override the error and apply the configuration.
- B. Issue the rollback 1 command from the top of the configuration hierarchy and attempt the commit again.
- C. Create a custom application named http at the [edit applications] hierarchy.
- D. Modify the security policy to use the built-in Junos-http applications.

**Answer: C,D**

Explanation:
The error message indicates that the Junos-http application is not defined, so you need to either create a custom application or modify the security policy to use the built-in Junos-http application. Doing either of these will allow you to successfully commit the configuration.

```

You just finished setting up your command-and-control (C&C) category with Juniper ATP Cloud. You notice that all of the feeds have zero objects in them.
Which statement is correct in this scenario?

- A. The security intelligence policy must be configured; on a unified security policy
- B. Use the commit full command to start the download.
- C. No action is required, the feeds take a few minutes to download.
- D. Set the maximum C&C entries within the Juniper ATP Cloud GUI.

**Answer: C**

Explanation:
According to the Juniper Networks JNCIS-SEC Study Guide, when you set up your command-and- control (C&C) category with Juniper ATP Cloud, all of the feeds will initially have zero objects in them.

This is normal, as it can take a few minutes for the feeds to download. No action is required in this scenario and you will notice the feeds start to populate with objects once the download is complete.

**NEW QUESTION # 93**

Which two statements are correct when considering IPS rule base evaluation? (Choose two.)

- A. IPS applies the least severe action to traffic matching multiple rules.
- B. IPS evaluates rules sequentially
- C. IPS evaluates rules concurrently.
- D. IPS applies the most severe action to traffic matching multiple rules,

**Answer: B,D**

**NEW QUESTION # 94**

......

We know that JN0-336 exam is very important for you working in the IT industry, so we developed the JN0-336 test software that will bring you a great help. All exam materials you you need are provided by our team, and we have carried out the scientific arrangement and analysis only to relieve your pressure and burden in preparation for JN0-336 Exam.

**Knowledge JN0-336 Points**: https://www.itcertmaster.com/JN0-336.html

Every user of our JN0-336 VCE dumps: Security, Specialist (JNCIS-SEC) has his or her priority in experiencing our all-round and considered services that not only come from our Security, Specialist (JNCIS-SEC) test prep but also come from our customer service center, With the VCE, you can practice the questions as if you were sitting in the real JN0-336 exam, In order to improve the JN0-336 passing score of our candidates, we take every step to improve our profession and check the updating of JN0-336 pass guide.

Ethernet Performance Monitoring, Everyone knows who specializes in what, JN0-336 thereby eliminating the long delays in other companies when people flit from one product to another while customers fret, fume, and age.

# Useful and reliable JN0-336 training dumps & high-quality Juniper JN0-336 training material

Every user of our JN0-336 VCE dumps: Security, Specialist (JNCIS-SEC) has his or her priority in experiencing our all-round and considered services that not only come from our Security, Specialist (JNCIS-SEC) test prep but also come from our customer service center.
