## CCFA-200b Valid Dumps Ppt, CCFA-200b Pass4sure Exam Prep

Since it is obvious that different people have different preferences, we have prepared three kinds of different versions of our CCFA-200b practice test, namely, PDF version, Online App version and software version. Last but not least, our customers can accumulate exam experience as well as improving their exam skills in the mock exam. There is no limitation on our software version of CCFA-200b practice materials about how many computers our customers used to download it, but it can only be operated under the Windows operation system. I strongly believe that you can find the version you want in multiple choices of our CCFA-200b practice test.

### CrowdStrike Falcon Administrator Sample Questions (Q203-Q208):

#### NEW QUESTION # 203

What will happen to a host if it is not assigned a Sensor Update policy?

- A. The host will use the Default Sensor Update policy
- B. The host will uninstall the Sensor and provide an alert to the installation team
- C. The host will automatically create a custom Sensor Update policy
- D. The host will automatically update to the newest sensor version and auto-update to future release

#### Answer: A

Explanation:

The option that describes what will happen to a host if it is not assigned a Sensor Update policy is that the host will use the Default Sensor Update policy. A Sensor Update policy is a policy that controls how and when the Falcon sensor is updated on a host. You can create and assign custom Sensor Update policies to different hosts or groups in your environment. However, if a host is not assigned to a specific Sensor Update policy, it will inherit the settings from the Default Sensor Update policy. The Default Sensor Update policy is a "catch-all" policy that is enabled by default and has the "Uninstall and Maintenance Protection" feature turned on. You can modify the settings of the Default Sensor Update policy, but you cannot delete or disable it.

#### NEW QUESTION # 204

You are tasked with creating a group for hosts running Windows 10.

What kind of group should you create to make sure all applicable hosts are included in your environment?

- A. Create a static group with the assignment rule criteria set to OS Type Workstation
- B. Create a dynamic group with the assignment rule criteria for OS Version set to Windows 10
- C. Create a static group with the assignment rule criteria for OS Version set to Windows 10
- D. Create a dynamic group with the assignment rule criteria set to OS Type Workstation

#### Answer: B

#### NEW QUESTION # 205

Which default user role will allow you to see all analyst session details?

- A. Real Time Response - Read-Only Analyst
- B. Real Time Response - Active Responder
- **C. Falcon Administrator**
- D. Real Time Response - Administrator

**Answer: C**

#### **NEW QUESTION # 206**

What impact does disabling detections on a host have on an API?

- A. Endpoints with detections disabled will not alert on anything for 24 hours (by default) or longer if that setting is changed
- B. Endpoints with detections disabled will not alert on anything until detections are enabled again
- **C. DetectionSummaryEvent stops sending to the Streaming API for that host**
- D. Endpoints cannot have their detections disabled individually

**Answer: C**

Explanation:

Disabling detections on a host will stop the DetectionSummaryEvent from sending to the Streaming API for that host. This means that the host will not send any detection events to the Streaming API, which is used to stream data from the Falcon Cloud to external applications or systems. The other options are either incorrect or not related to disabling detections on a host.

#### **NEW QUESTION # 207**

Which of the following policies allowlist network traffic even while a host is Network Contained?

- A. Containment Policy
- **B. IP Allowlist Policy**
- C. Firewall Policy
- D. Response Policy

**Answer: B**

#### **NEW QUESTION # 208**

.....

The aim of our design is to improving your learning and helping you gains your certification in the shortest time.
