

# Valid Dumps AI-102 Free - New AI-102 Exam Notes

2026 Latest ExamPrepAway AI-102 PDF Dumps and AI-102 Exam Engine Free Share: <https://drive.google.com/open?id=1n4obLFxeEfVJT6oXZffSXBuoyhVbjSBw>

It is a truth well-known to all around the world that no pains and no gains. There is another proverb that the more you plough the more you gain. When you pass the AI-102 exam which is well recognized wherever you are in any field, then acquire the AI-102 certificate, the door of your new career will be open for you and your future is bright and hopeful. Our AI-102 guide torrent will be your best assistant to help you gain your certificate.

The AI-102 certification exam is an advanced-level certification that requires a deep understanding of Microsoft Azure and AI technologies. Candidates who pass AI-102 exam will be able to demonstrate their expertise in designing and implementing AI solutions using Microsoft Azure. They will also be able to use their knowledge to help organizations leverage AI technologies to improve their business processes and gain a competitive edge in the market.

## Prep Options to Choose

The preparation process for the exam is a vital step on your way of passing the test, that's why you need to find the most actual and reliable resources. Microsoft offers two options for you to choose from **online free training** or **instructor-led**, which is a **paid** one. For example, the free training represents a collection of learning paths each of which contains the different number of modules, from one to five. Thus, you can choose which ones to follow: Prepare for AI engineering (1 module), Process and Translate Speech with Azure Cognitive Speech Services (2 modules), Create computer vision solutions with Azure Cognitive Services (3 modules), to name a few. The paid course is known to be Course AI-102T00: Designing and Implementing a Microsoft Azure AI Solution and lasts for 4 days. It is intended for software developers interested in developing skills to build AI infused apps that use Azure Cognitive Search and Services, and Microsoft Bot Framework.

In addition, you can check the **Amazon website** to find the books on the topics included in the exam to ace it from the first attempt. Only after the successful passing the AI-102 Exam you will earn the Microsoft Certified: Azure AI Engineer Associate certification. So, good luck!

## Microsoft Azure AI Solution Free

If you care about your certification AI-102 exams, our AI-102 test prep materials will be your best select. We provide free demo of our AI-102 training materials for your downloading before purchasing complete our products. Demo questions are the part of the complete AI-102 test prep and you can see our high quality from that. After payment you can receive our complete AI-102 Exam Guide soon in about 5 to 10 minutes. And we offer you free updates for AI-102 learning guide for one year. Stop to hesitate, just go and choose our AI-102 exam questions!

## Microsoft Designing and Implementing a Microsoft Azure AI Solution Sample Questions (Q367-Q372):

### NEW QUESTION # 367

Select the answer that correctly completes the sentence.

Answer Area

A block of code that runs in a database is called

a stored procedure.  
 a table.  
 a view.  
 an index.

Microsoft

### Answer:

Explanation:

Answer Area

A block of code that runs in a database is called

a stored procedure.  
 a table.  
 a view.  
 an index.

Microsoft

### Explanation

Answer Area

A block of code that runs in a database is called

a stored procedure.  
 a table.  
 a view.  
 an index.

Microsoft

Answer selections to complete the sentence A block of code that runs in a database is called

### NEW QUESTION # 368

You plan to use a Language Understanding application named app1 that is deployed to a container.

App1 was developed by using a Language Understanding authoring resource named lul.

App1 has the versions shown in the following table.

Version	Trained date	Published date
V1.2	None	None
V1.1	2020-10-01	None
V1.0	2020-09-01	2020-09-15

You need to create a container that uses the latest deployable version of app1.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. (Choose three.)

**Actions****Answer Area**

Run a container that has `version` set as an environment variable.

Export the model by using the Export as JSON option.

Select v1.1 of app1.

Run a container and mount the model file.

Select v1.0 of app1.

Export the model by using the Export for containers (GZIP) option.

Select v1.2 of app1.

**Answer:****Explanation:**

Actions	Answer Area
Run a container that has <code>version</code> set as an environment variable.	Export the model by using the Export for containers (GZIP) option.
Export the model by using the Export as JSON option.	
Select v1.1 of app1.	Select v1.1 of app1
Run a container and mount the model file.	Run a container and mount the model file.
Select v1.0 of app1.	
Export the model by using the Export for containers (GZIP) option.	
Select v1.2 of app1.	

**Explanation**

Actions	Answer Area
Run a container that has <code>version</code> set as an environment variable.	Export the model by using the Export for containers (GZIP) option.
Export the model by using the Export as JSON option.	Select v1.1 of app1.
Select v1.1 of app1.	Run a container and mount the model file.
Run a container and mount the model file.	
Select v1.0 of app1.	
Export the model by using the Export for containers (GZIP) option.	
Select v1.2 of app1.	

Step 1: Export the model using the Export for containers (GZIP) option.

Export versioned app's package from LUIS portal

The versioned app's package is available from the Versions list page.

Sign on to the LUIS portal.

Select the app in the list.

Select Manage in the app's navigation bar.

Select Versions in the left navigation bar.

Select the checkbox to the left of the version name in the list.

Select the Export item from the contextual toolbar above the list.

Select Export for container (GZIP).

The package is downloaded from the browser.

Versions				
<input type="checkbox"/> Rename	<input type="checkbox"/> Clone	<input type="checkbox"/> Export		
<input checked="" type="checkbox"/> Version name		<input type="checkbox"/> Export as JSON	All	Search for version(s)
<input checked="" type="checkbox"/> 0.1 (Active & Production)		<input type="checkbox"/> Export for container (GZIP)	Created	Last modified
			5/3/18	9/6/18

Step 2: Select v1.1 of app1.

A trained or published app packaged as a mounted input to the container with its associated App ID.

Step 3: Run a container and mount the model file.

Run the container, with the required input mount and billing settings.

#### NEW QUESTION # 369

You have an Azure subscription that contains an Azure AI Document Intelligence resource named Aldoc1 in the SO tier.

You have the files shown in the following table.

Name	Format	Locked	Size (MB)
File1	JPG	No	400
File2	PDF	No	250
File3	PNG	Yes	180
File4	XLSX	No	900
File5	PDF	Yes	160

You need to train a custom extraction model by using AI doc1. Which files can you upload to Document Intelligence Studio?

- A. File2, File4, and File5 only
- B. File1, File2, File3, File4, and File5
- C. File1, File2, and File4 only**
- D. File1, and File5 only
- E. File1, and File2 only

**Answer: C**

### NEW QUESTION # 370

Hotspot Question

You have a Computer Vision resource named contoso1 that is hosted in the West US Azure region. You need to use contoso1 to make a different size of a product photo by using the smart cropping feature. How should you complete the API URL? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Answer Area**

```
curl -H "Ocp-Apim-Subscription-Key: xxx" /  
-o "sample.png" -H "Content-Type: application/json" /  
"https://api.projectoxford.ai" /vision/v3.1/  
"https://contoso1.cognitiveservices.azure.com" /?width=100&height=100&smartCropping=true" /  
"https://westus.api.cognitive.microsoft.com"  
-d "{\"url\":\"https://upload.litwareinc.org/litware/bicycle.jpg\"}"
```

**Answer:**

Explanation:

**Answer Area**

```
curl -H "Ocp-Apim-Subscription-Key: xxx" /  
-o "sample.png" -H "Content-Type: application/json" /  
"https://api.projectoxford.ai" /vision/v3.1/  
"https://contoso1.cognitiveservices.azure.com" /?width=100&height=100&smartCropping=true" /  
"https://westus.api.cognitive.microsoft.com" /areaOfInterest  
areaOfInterest  
detect  
generateThumbnail
```

Explanation:

Box 1: <https://westus.api.cognitive.microsoft.com>

Box 2: generate Thumbnail

GenerateThumbnail takes in Height Width and SmartCropping = True/false and returns the actual binary image data.

Reference:

<https://docs.microsoft.com/en-us/azure/cognitive-services/computer-vision/concept-generating-thumbnails>

<https://docs.microsoft.com/en-us/rest/api/computervision/3.1/generate-thumbnail/generate-thumbnail#examples>

## NEW QUESTION # 371

You are developing an application that will use the Computer Vision client library. The application has the following code.

```
public async Task>AnalyzeImage(ComputerVisionClient client, string localImage)
{
    List<VisualFeatureTypes> features = new List<VisualFeatureTypes>()
    {
        VisualFeatureTypes.Description,
        VisualFeatureTypes.Tags,
    };
    using (Stream imageStream = File.OpenRead(localImage))
    {
        try
        {
            ImageAnalysis results = await client.AnalyzeImageInStreamAsync(imageStream, features);

            foreach (var caption in results.Description.Captions)
            {
                Console.WriteLine($"{caption.Text} with confidence {caption.Confidence}");
            }

            foreach (var tag in results.Tags)
            {
                Console.WriteLine($"{tag.Name} {tag.Confidence}");
            }
        }
        catch (Exception ex)
        {
            Console.WriteLine(ex.Message);
        }
    }
}
```

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

### Answer Area Microsoft Statements

The code will perform face recognition.

Yes	No
<input type="radio"/>	<input type="radio"/>

The code will list tags and their associated confidence.

<input type="radio"/>	<input type="radio"/>
-----------------------	-----------------------

The code will read a file from the local file system.

<input type="radio"/>	<input type="radio"/>
-----------------------	-----------------------

Answer:

Explanation:

### Answer Area

#### Statements Yes No

The code will perform face recognition.

<input type="radio"/>	<input checked="" type="radio"/>
-----------------------	----------------------------------

The code will list tags and their associated confidence.

<input checked="" type="radio"/>	<input type="radio"/>
----------------------------------	-----------------------

The code will read a file from the local file system.

<input checked="" type="radio"/>	<input type="radio"/>
----------------------------------	-----------------------

## NEW QUESTION # 372

.....

We are dedicated to help you pass the exam and gain the corresponding certificate successful. AI-102 exam cram is high-quality, and you can pass your exam by using them. In addition, AI-102 exam braindumps cover most of knowledge points for the exam, and you can also improve your ability in the process of learning. You can obtain the download link and password within ten minutes, so that you can begin your learning right away. We have free update for 365 days if you buying AI-102 Exam Materials, the update version for AI-102 exam cram will be sent to your email automatically.
