Valid Braindumps 1z0-1075-25 Questions - Reliable 1z0-1075-25 Exam Simulations

Oracle 1z0-1075-25 practice test DumpsMaterials is another great way to reduce your stress level when preparing for the 1z0-1075-25 Exam Questions. With our DumpsMaterials, you can practice your excellence and improve your competence on the 1z0-1075-25 exam dumps. Each 1z0-1075-25 practice exam, composed of numerous skills, can be measured by the same model used by real examiners. DumpsMaterials 1z0-1075-25 practice test has real 1z0-1075-25 exam questions. You can change the difficulty of these questions, which will help you determine what areas appertain to more study before taking your Oracle 1z0-1075-25 exam dumps.

Oracle Manufacturing Cloud 2025 Implementation Professional Sample Questions (Q31-Q36):

NEW QUESTION # 31

A Manufacturing Engineer in a plant is creating an alternate manufacturing process for an item using its existing work definitions. After copying from the existing work definition, WD1, to the alternate work definition, WD2, the engineer finds that the operation items were not copied in the alternate manufacturing process WD2.

What is the reason for this?

- A. Item and Structure Name were changed in the new WD2 during creation.
- B. Start Date was not populated in the new WD2 during creation.
- C. Production Priority was not populated in the new WD2 during creation.
- D. Item and Structure Name in the existing WD1 were retained in the new WD2 during creation.

Answer: A

Explanation:

When creating an alternate work definition (WD2) by copying from an existing one (WD1), if the Item and Structure Name were changed during the creation of WD2, the operation items would not be copied. This is because operation items are tied to specific item structures. Changing the structure results in a disconnect between the original operation items and the new work definition.

* Item and Structure Name are critical in ensuring that the operation items (components and materials) are transferred when copying work definitions. If these names are changed, the system does not assume the same items should be used.

Oracle Manufacturing Cloud documentation explains that maintaining consistency in the Item and Structure Name is key when copying work definitions to ensure all operation items are carried over.

NEW QUESTION # 32

Your client's company is in a regulated industry and must keep detailed records of their product manufacturing processes in accordance with the United States Food and Drug Administration (FDA) regulation on electronic records and signatures called 21 Code of Federal Regulations (CFR) Part 11.

You are implementing Oracle E-Signatures and E-Records for securely capturing, storing, retrieving, and printing electronic records and signatures in manufacturing. They enable Deferred Electronic Records and Electronic Signatures for Manufacturing Work Order Release in Oracle Manufacturing Cloud.

Which statement is NOT true about using Deferred Electronic Records and Electronic Signatures for Manufacturing Work Order Release?

- A. If the e-record is rejected, you can optionally resubmit the rejected electronic records.
- B. These capabilities are supported for discrete and process work orders.
- C. It generates e-records on initial work order release through UI and sends notifications to approvers.
- **D. Using a deferred approval process with notifications, the work order is held in "Released" status until the approvals are obtained.**

Answer: D

Explanation:

When implementing Oracle E-Signatures and E-Records for compliance with 21 CFR Part 11 in regulated industries like the pharmaceutical or food industries, certain processes govern how electronic records and signatures are managed for manufacturing work orders. The statement that is not true is:

* Statement B is incorrect because when using deferred electronic records and signatures, the work order is not held in a "Released" status until approvals are obtained. Instead, the work order is placed in a "Pending Approval" state until signatures are collected and approval is granted. Only after approval does the work order move to a "Released" status.

Correct statements:

* Statement A: E-records are generated at the time of work order release, and notifications are sent to approvers for review.

* Statement C: Rejected e-records can be resubmitted for approval if necessary.

* Statement D: These capabilities are supported for both discrete and process manufacturing work orders.

Oracle Cloud documentation on "E-Signatures and E-Records" explains the approval process for electronic records, and the steps work orders go through from creation to approval.

NEW QUESTION # 33

Which statement is NOT true about cumulative lead time?

- A. It calculates cumulative manufacturing lead times by rolling up manufacturing lead times of make items.
- **B. It updates lead time percent at the operation level in the work definition.**
- C. It updates the item's lead time attributes at the end of the calculation process: cumulative manufacturing and cumulative total lead times.
- D. It calculates cumulative total lead times by rolling up lead times of make items and adding up lead time values of buy items.

Answer: B

Explanation:

Cumulative lead time is a key concept in Oracle Manufacturing Cloud, where it calculates the total time required to manufacture an item. The following points clarify the calculations:

* Statement D is incorrect because cumulative lead time does not update the lead time percent at the operation level in the work definition. Instead, cumulative lead time focuses on rolling up the lead times of both make and buy items to provide an overall lead

time for the entire production process.

Correct Statements:

* Statement A : The system calculates cumulative manufacturing lead time by summing up the lead times of all make items in the production process.

* Statement B : At the end of the cumulative lead time calculation process, it updates the lead time attributes of the item, specifically cumulative manufacturing and cumulative total lead times.

* Statement C : Cumulative total lead time includes both make and buy item lead times, representing the complete production cycle from procurement to manufacturing.

Oracle Cloud SCM guide on "Lead Time Calculations " explains how cumulative lead times are calculated and updated but does not mention lead time percent at the operation level.

NEW QUESTION # 34

Your customer runs production 24 x 7 x 365 and wants to track Overall Equipment Effectiveness (OEE) online.

Which key setup can they use to achieve this?

- A. Enable IoT Asset Monitoring and turn on " Enable synchronization to IoT Asset Monitoring " In Plant Parameters.
- B. Enable IoT Asset Monitoring and turn on " Enable synchronization to IoT Asset Monitoring " in Resources.
- C. Enable IoT Production Monitoring and turn on " Enable synchronization to IoT Production
- D. Enable IoT Fleet Monitoring and enable synchronization to IoT Production Monitoring in Plant Parameters.
- E. **Enable IoT Production Monitoring and turn on " Enable synchronization to IoT Production Monitoring " In Inventory Organization.**

Answer: E

NEW QUESTION # 35

Your customer needs to add additional information to their work order traveler. Which statement is NOT true about the Extensible Work Order Traveler?

- A. **You can generate the Extensible Work Order Traveler report only from the Review Dispatch List and Manage Supplier Operations pages.**
- B. Operators can invoke it by using the Generate Extensible Work Order Traveler Report task.
- C. The production operator can invoke It from the Manage Work Orders, Review Dispatch ust. and Manage Supplier Operations pages.
- D. It is a critical document that travels with the physical material during production.
- E. You use Page Composer to display only the required actions.

Answer: A

Explanation:

The Extensible Work Order Traveler is a customizable report that contains detailed information about a work order and travels with the physical material during production. The statement that is not true is:

* Statement A is incorrect because the Extensible Work Order Traveler report can be generated from multiple locations within Oracle Manufacturing Cloud, including the Manage Work Orders, Review Dispatch List , and Manage Supplier Operations pages. It is not limited to only the Review Dispatch List and Manage Supplier Operations pages.

Correct statements:

* Statement B : The Extensible Work Order Traveler is a critical document used to communicate work order details during the production process.

* Statement C : Production operators can invoke the traveler from several key pages like Manage Work Orders and Review Dispatch List.

* Statement D : Operators can use the task "Generate Extensible Work Order Traveler Report " to invoke the report.

* Statement E : You can use Page Composer to customize the Extensible Work Order Traveler and display only the required actions, allowing flexibility in what information is presented.

Oracle Cloud documentation on the Extensible Work Order Traveler explains how the report can be invoked from various areas within the application and how it can be customized using Page Composer.

NEW QUESTION # 36

.....

Our industry experts are constantly adding new content to 1z0-1075-25 test dumps based on constantly changing syllabus and industry development breakthroughs. We also hired dedicated IT staff to continuously update our question bank daily, so no matter when you buy 1z0-1075-25 Study Materials, what you learn is the most advanced. Even if you fail to pass the exam, as long as you are willing to continue to use our 1z0-1075-25 test answers, we will still provide you with the benefits of free updates within a year.

Valid Braindumps 1z0-1075-25 Questions: <https://www.dumpsmaterials.com/1z0-1075-25-real-torrent.html>

Don't miss it, Same is true for this DumpsMaterials 1z0-1075-25 exam dumps, Many people have successfully realized economic freedom after getting the 1z0-1075-25 certificate and changing a high salary job, Last but not least, you are available for our free updated version of the 1z0-1075-25 real exam, You can never fail Valid Braindumps 1z0-1075-25 Questions - Oracle Manufacturing Cloud 2025 Implementation Professional exam if you use our products, When you are hesitating whether to purchase our 1z0-1075-25 exam software, why not try our free demo of 1z0-1075-25.

Remember that you are marketing yourself, Sometimes, 1z0-1075-25 Firewalls Block the Good Stuff, Don't miss it, Same is true for this DumpsMaterials 1z0-1075-25 exam dumps, Many people have successfully realized economic freedom after getting the 1z0-1075-25 certificate and changing a high salary job.

100% Pass Oracle - 1z0-1075-25 - Professional New Oracle Manufacturing Cloud 2025 Implementation Professional Test Preparation

Last but not least, you are available for our free updated version of the 1z0-1075-25 real exam, You can never fail Oracle Manufacturing Cloud 2025 Implementation Professional exam if you use our products.
