Free PDF Quiz MB-820 - Microsoft Dynamics 365 Business Central Developer Perfect Pass Test Guide

If you are anxious about whether you can pass your exam and get the certificate, we think you need to buy our MB-820 study materials as your study tool, our product will lend you a good helping hand. If you are willing to take our MB-820 study materials into more consideration, it must be very easy for you to pass your exam in a short time. 99% people who have used our MB-820 Study Materials passed their exam and got their certificate successfully, it is no doubt that it means our MB-820 study materials have a 99% pass rate. So our product will be a very good choice for you.

Microsoft MB-820 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> Describe Business Central: Describing the components and capabilities of Business Central, and describing the core solution and extensions approach for Business Central are focal points of this topic. It also explains the difference between Business Central Online and Business Central on-premises features.
Topic 2	<ul style="list-style-type: none"> Install, develop, and deploy for Business Central: It delves into the installation and configuration of a Business Central development environment. Moreover, it discusses creating, debugging, and deploying an extension in Business Central.
Topic 3	<ul style="list-style-type: none"> Integrate Business Central with other applications: Accessing Representational State Transfer (REST) services is discussed in this topic. It also explains implementation of APIs.
Topic 4	<ul style="list-style-type: none"> Develop by using AL objects: Building and extending tables and reports is discussed in this topic. It also explains Designing and creating an XMLport. Lastly, it discusses how to work with entitlement and permission set objects.
Topic 5	<ul style="list-style-type: none"> Develop by using AL: How to Customize the UI experience and Use AL for business central extension is discussed here. It also delves into explaining the essential development standards.

Microsoft Dynamics 365 Business Central Developer Sample Questions (Q77-Q82):

NEW QUESTION # 77

You develop a table named Contoso Setup and a page.

You plan to use No. Series to automatically assign a unique number to data entries. You set up No. Series on the Vendor Nos. field of the Contoso Setup table.

You need to apply the No. Series Design Pattern to the trigger OnInsert().

Which four code segments should you use to develop the solution? To answer, move the appropriate code segments from the list of code segments to the answer area and arrange them in the correct order.

Code Blocks

```
## if "No." <> '' then begin
```

```
  NoseriesManagement.InitSeries(ContosoSetup."No. Series",
  ## xRec."Vendor Nos.", 00, "No.", "No. Series");
  end;
```

```
  ContosoSetup.SetRange(ContosoSetup."Vendor Nos.", xRec."No.
  Series");
```

```
## if "No." = '' then begin
```

```
  ContosoSetup.TestField("Vendor Nos.");
```

```
  NoseriesManagement.InitSeries(ContosoSetup."Vendor Nos.",
  ## xRec."No. Series", 00, "No.", "No. Series");
  end;
```

```
  ContosoSetup.Get();
```

Trigger design pattern

Answer:

Explanation:

Code blocks

```

    if "No." <> '' then begin
        NoSeriesManagement.InitSeries(ContosoSetup."No. Series",
        xRec."Vendor Nos.", 00, "No.", "No. Series");
    end;

    ContosoSetup.SetRange(ContosoSetup."Vendor Nos.", xRec."No.
        Series");

    if "No." = '' then begin
        ContosoSetup.TestField("Vendor Nos.");
        NoSeriesManagement.InitSeries(ContosoSetup."Vendor Nos.",
        xRec."No. Series", 00, "No.", "No. Series");
    end;

    ContosoSetup.Get();

```

Trigger design pattern

```

    ContosoSetup.Get();

    if "No." <> '' then begin
        NoSeriesManagement.InitSeries(ContosoSetup."Vendor Nos.",
        xRec."No. Series", 00, "No.", "No. Series");
        ContosoSetup.TestField("Vendor Nos.");
    end;

```

NEW QUESTION # 78

You are developing an XMLport to export data from the parent Item table and a related child 'Item Unit of Measure' table. The XMLport configuration must provide the following:

- * Link the child table to its parent.
- * Display a confirmation message after the XMLport runs.

You need to generate the XMLport.

What should you do? To answer, move the appropriate triggers to the correct requirements. You may use each trigger once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 79

A company uses Business Central.

The company has sales orders that have a different location in the header than in the customer's card. You plan to add a check on sales order posting.

The check must meet the following requirements.

- * Sales Order must have the same Location Code as the Location Code set up on the customer's card.
- * Must not be run in preview mode.
- * Must be run even if the user is only shipping items and not invoicing.

You create an event subscription for codeunit 80 "Sales-Post". You need to identify which event to subscribe to. Which event should you identify?

- A. `OnBeforePostSalesDoc(SalesHeader2, SuppressComment, PreviewMode, HideProgressWindow, IsHandled);`
- B. `OnBeforePostSalesDoc(SalesHeader2, SuppressComment, PreviewMode, HideProgressWindow, IsHandled);`

- C.

```
OnBeforePostInvoice(SalesHeader, CustLedgEntry, SuppressCommit, PreviewMode, GenJnlLine, IsHandled, GenJnlLineDocNo, GenJnlLineExtDocNo, GenJnlLineDocType, SrcCode);
```

- D.

Answer: B

Explanation:

- * This event occurs before posting a sales document.
- * PreviewMode is available in the parameters, which allows checking whether the process is being run in preview mode.
- * This event is typically used for sales order posting and can be used for both shipping and invoicing.

This event matches the requirements because:

- * You can check if PreviewMode is false.
- * It can run for both shipping and invoicing.

NEW QUESTION # 80

You develop a table named Contoso Setup and a page.

You plan to use No. Series to automatically assign a unique number to data entries. You set up No. Series on the Vendor Nos. field of the Contoso Setup table.

You need to apply the No. Series Design Pattern to the trigger OnInsert().

Which four code segments should you use to develop the solution? To answer, move the appropriate code segments from the list of code segments to the answer area and arrange them in the correct order.

Code Blocks

```
## if "No." <> '' then begin
  NoSeriesManagement.InitSeries(ContosoSetup."No. Series",
  ## xRec."Vendor Nos.", 00, "No.", "No. Series");
end;

## ContosoSetup.SetRange(ContosoSetup."Vendor Nos.", xRec."No.
  Series");

## if "No." = '' then begin
  ContosoSetup.TestField("Vendor Nos.");
  NoSeriesManagement.InitSeries(ContosoSetup."Vendor Nos.",
  ## xRec."No. Series", 00, "No.", "No. Series");
end;

## ContosoSetup.Get();
```

Trigger design pattern

```
## ContosoSetup.Set();

## if "No." = '' then begin
  NoSeriesManagement.InitSeries(ContosoSetup."No. Series",
  ## xRec."Vendor Nos.", 00, "No.", "No. Series");
end;

## ContosoSetup.TestField("Vendor Nos.");
```

Answer:

Explanation:

Code Blocks

```
## if "No." <> '' then begin
  NoSeriesManagement.InitSeries(ContosoSetup."No. Series",
  ## xRec."Vendor Nos.", 00, "No.", "No. Series");
end;

## ContosoSetup.SetRange(ContosoSetup."Vendor Nos.", xRec."No.
  Series");

## if "No." = '' then begin
  ContosoSetup.TestField("Vendor Nos.");
  NoSeriesManagement.InitSeries(ContosoSetup."Vendor Nos.",
  ## xRec."No. Series", 00, "No.", "No. Series");
end;

## ContosoSetup.Get();
```

Trigger design pattern

```
## ContosoSetup.Set();

## if "No." = '' then begin
  NoSeriesManagement.InitSeries(ContosoSetup."No. Series",
  ## xRec."Vendor Nos.", 00, "No.", "No. Series");
end;

## ContosoSetup.TestField("Vendor Nos.");
```

Explanation:

To properly apply the No. Series Design Pattern in the OnInsert() trigger, the correct sequence of actions should be as follows:

- * ContosoSetup.Get();

```

* First, retrieve the Contoso Setup record using the Get method. This ensures that the necessary setup information is available, including the No. Series.
* if "No." = " then begin
* Next, check if the No. field is empty. If it is, a new number from the No. Series should be assigned.
* NoSeriesManagement.InitSeries(ContosoSetup."Vendor Nos.", "No. Series", 0D, "No.", "No.
Series");
* Call the InitSeries function to assign a new number from the No. Series. This initializes the No.
Series for the Vendor Nos. field.
* ContosoSetup.TestField("Vendor Nos.");
* Lastly, ensure that the Vendor Nos. field is populated and valid by calling TestField.

Correct Order for Code Segments:
* ContosoSetup.Get();
* if "No." = " then begin
* NoSeriesManagement.InitSeries(ContosoSetup."Vendor Nos.", "No. Series", 0D, "No.", "No.
Series");
* ContosoSetup.TestField("Vendor Nos.");

```

NEW QUESTION # 81

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result these questions will not appear in the review screen.

A company plans to optimize its permission sets.

The company has the following permission sets:

Microsoft Permission Set A	Permission Set B
Permissions = tabledata Job = RIMD;	Permissions = tabledata Job = IMD;

You need to provide the following implementation for a third permission set:

- * Create a new Permission Set C that is a composite of Permission Set A and Permission Set B.
- * Assign Permission Set C to a user.

You need to ensure that the user has only read access to the Job table.

Solution: Set the Excluded Permission Sets property to Permission Set B.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION # 82

.....

Learning at electronic devices does go against touching the actual study. Although our MB-820 exam dumps have been known as one of the world's leading providers of exam materials, you may be still suspicious of the content. For your convenience, we especially provide several demos for future reference and we promise not to charge you of any fee for those downloading.

Therefore, we welcome you to download to try our MB-820 Exam for a small part. Then you will know whether it is suitable for you to use our MB-820 test questions. There are answers and questions provided to give an explicit explanation. We are sure to be at your service if you have any downloading problems.
