When you attend MS-700 exam, it is easy for you to keep good mood and control your finishing time.

Microsoft Managing Microsoft Teams Sample Questions (Q396-Q401):

NEW QUESTION # 396

Your company uses Microsoft Teams and a Microsoft calling plan.

The company has a main office in Chicago.

The company opens a new office in Toronto that has 500 users.

You need to ensure that the correct address is available to emergency responders.

What should you do?

- A. Create a configuration profile and assign the profile to the device of each user.
- B. Add an emergency address, and then modify the location for each phone number.**
- C. Add an emergency address, and then modify the outbound calling setting for each user.
- D. Create a calling policy and assign the policy to each user.

Answer: B

Explanation:

According to the Microsoft documentation¹, you need to add an emergency address for each location where your users make and receive phone calls. An emergency address is a civic address—the physical or street address of a place of business for your organization. It is used to route emergency calls to the appropriate dispatch authorities and to assist in locating the emergency caller. After you add an emergency address, you need to assign a phone number to it. You can assign either a user number or a service number. A user number is assigned to a specific user in your organization who makes and receives phone calls. A service number is used for services such as Audio Conferencing (for dial-in numbers), auto attendants, or call queues.

To assign a phone number to an emergency address, you need to modify the location for each phone number.

You can do this by using the Microsoft Teams admin center or PowerShell. For example, to modify the location for a user number

by using PowerShell, you can use the Set-CsOnlineVoiceUser cmdlet with the

-LocationID parameter².

NEW QUESTION # 397

Your company has a custom Microsoft Teams app named App1.

You need to deploy App1. The solution must ensure that App1 appears as the first item on the app bar of the Microsoft Teams client.

Which four actions should you perform in sequence? To answer, move the actions from the list of actions to the answer area and arrange them in the correct order.

| Actions | Answer Area |
|---|-------------|
| From the Microsoft Teams client, upload App1. | |
| From the Microsoft Teams admin center, set Allow interaction with custom apps to On . | |
| From the Microsoft Teams admin center, modify the list of pinned apps. | |
| From the app setup policy in the Microsoft Teams admin center, add App1 as a pinned app. | |
| From the app permission policy in the Microsoft Teams admin center set the Microsoft apps setting to Allow all apps . | |
| From the app permission policy in the Microsoft Teams admin center, set the Third-party apps setting to Allow all apps . | |

Answer:

Explanation:

| Actions | Answer Area |
|---|--|
| From the Microsoft Teams client,upload App1. | From the Microsoft Teams admin center, set Allow interaction with custom apps to On . |
| From the Microsoft Teams admin center, set Allow interaction with custom apps to On . | From the Microsoft Teams client,upload App1. |
| From the Microsoft Teams admin center, modify the list of pinned apps. | From the app setup policy in the Microsoft Teams admin center, add App1 as a pinned app. |
| From the app setup policy in the Microsoft Teams admin center, add App1 as a pinned app. | From the Microsoft Teams admin center, modify the list of pinned apps. |
| From the app permission policy in the Microsoft Teams admin center set the Microsoft apps setting to Allow all apps . | |
| From the app permission policy in the Microsoft Teams admin center, set the Third-party apps setting to Allow all apps . | |
| From the Microsoft Teams admin center, set Allow interaction with custom apps to On. | |
| From the Microsoft Teams client,upload App1. | |
| From the app setup policy in the Microsoft Teams admin center, add App1 as a pinned app. | |
| From the Microsoft Teams admin center, modify the list of pinned apps. | |

NEW QUESTION # 398

You have a Microsoft 365 E5 subscription that uses Microsoft Teams. The subscription contains a group named Group 1. You need to prevent the members of Group1 from recording meetings.

How should you complete the PowerShell script? To answer, select the appropriate options in the answer area. Each correct selection is worth one point.

Grant-CsTeamsAppPermissionPolicy
Set-CsTeamsMeetingConfiguration
Set-CsTeamsMeetingPolicy
Set-CsTeamsMessagingPolicy

-Identity Group1

\$false

AllowCloudRecording
AllowCloudRecordingForCalls
AllowIPVideo
ChannelRecordingDownload

Answer:

Explanation:

The screenshot shows a PowerShell command being run:

```
Set-CsTeamsMeetingConfiguration -Identity Group1 -AllowCloudRecordingForCalls $false
```

The command is enclosed in a light blue box. The parameter `-AllowCloudRecordingForCalls` is highlighted with a red dashed box and has a value of `$false`.

Explanation

The screenshot shows a PowerShell command being run:

```
Set-CsTeamsMeetingConfiguration -Identity Group1 -AllowCloudRecordingForCalls $false
```

The command is enclosed in a light blue box. The parameter `-AllowCloudRecordingForCalls` is highlighted with a red dashed box and has a value of `$false`.

NEW QUESTION # 399

Your company has a Microsoft 365 subscription that uses Phone System.

You need to configure Microsoft Teams to meet the following requirements:

Ensure that calls to the company's sales department are routed to multiple users in the sales department.

Ensure that calls to the company's marketing department are routed to multiple users in the marketing department.

Outside of business hours, ensure that calls from PSTN users receive a custom greeting.

During business hours, ensure that calls from PSTN users can be received by the sales and marketing department users.

What is the minimum number of auto attendants and call queues you should configure to meet the requirements? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Auto attendants:

| |
|---|
| 0 |
| 1 |
| 2 |
| 3 |

Call queues:

| |
|---|
| 0 |
| 1 |
| 2 |
| 3 |

Answer:

Explanation:

Auto attendants:

| | |
|---|---|
| | ▼ |
| 0 | |
| 1 | |
| 2 | |
| 3 | |

Call queues:

| | |
|---|-----------|
| | ▼ |
| 0 | Microsoft |
| 1 | |
| 2 | |
| 3 | |

NEW QUESTION # 400

Your company uses Microsoft Teams.

You are planning the compliance strategy for Microsoft Teams. All compliance tasks must be performed by a user in the compliance department who will be assigned the Global admin role and will not be a team owner.

You need to identify which tools to use for the following tasks:

*Archive a team

*Restore a deleted team

*Permanently delete a team

Which tool should you identify for each task? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools

The Microsoft Teams admin center

The Azure Active Directory admin center

The Microsoft Teams desktop client

Administration tasks

Restore a deleted team:

Tool

Archive a team:

Tool

Permanently delete a team

Answer:

Explanation:

Tools

The Microsoft Teams admin center

The Azure Active Directory admin center

The Microsoft Teams desktop client

Administration tasks

Restore a deleted team:

The Azure Active Directory admin center

Archive a team:

The Microsoft Teams admin center

Permanently delete a team:

The Microsoft Teams admin center

NEW QUESTION # 401

.....

There are a lot of experts and professors in our company in the field. In order to meet the demands of all people, these excellent experts and professors from our company have been working day and night. They tried their best to design the best MS-700 Study Materials from our company for all people. By our study materials, all people can prepare for their MS-700 exam in the more efficient method.
