SAP C-P2W10-2504 Prep Guide | C-P2W10-2504 Valid Test Pattern

The pass rate of the C-P2W10-2504 training materials is 99%, we pass guarantee, and if you can't pass, money guarantee for your failure, that is money will return to your account. You just need to send the participation and the failure scanned, money will be returned. We can ensure that your money will be returned, either the certification or the money back. Besides the C-P2W10-2504 Training Materials include the question and answers with high-quality, you will get enough practice.

SAP Certified Associate - Business Process Integration with SAP S/4HANA Sample Questions (Q38-Q43):

NEW QUESTION # 38

What action assigns actual costs to a project?

- A. Material availability check
- **B. Material withdrawal from stock**
- C. Saving a purchase order
- D. Releasing a project budget

Answer: B

Explanation:

In SAP Project Systems, actual costs are recorded when resources are consumed and physically leave the warehouse or when services are performed.

Material withdrawal from stock: This action (also known as a Goods Issue) triggers the posting of actual costs because it represents the actual consumption of inventory for the project's use.

Financial Impact: At the moment of withdrawal, the system generates a controlling document that updates the project's actual cost totals.

Why other options are incorrect

- B. Saving a purchase order: This only creates a commitment (planned future cost). Actual costs are not assigned until a goods receipt or vendor invoice is posted against that order.
- C. Material availability check: This is a planning and scheduling step to ensure materials are available. It does not involve any financial transactions or cost postings.
- D. Releasing a project budget: This action makes funds available for use but does not represent an actual expenditure or resource consumption.

NEW QUESTION # 39
