Practice tests (desktop and web-based) are simulations of actual Oracle 1Z0-1055-25 PDF Questions designed to help individuals prepare and improve their performance for the Oracle 1Z0-1055-25 certification test. TroytecDumps facilitates the customers with customizable practice tests which means they can adjust the number of questions and set the time of the test according to themselves which will help them in order to feel the real-based exam pressure and control it.

Oracle 1Z0-1055-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Implementing Supplier Invoices: This section of the exam measures skills of Financial Systems Specialists and covers the setup and processing of supplier invoices. It focuses on understanding supplier invoice processing, AI-assisted automation, and key configurations such as invoice options, distribution sets, tolerances, holds, approvals, and release procedures. Candidates also learn how to manage business rules for invoice validation and processing efficiency.
Topic 2	<ul style="list-style-type: none">Implementing Expenses: This section of the exam measures skills of Expense Management Administrators and focuses on managing and configuring employee expense processes. It includes expense report processing, approval rules, and audit policies. Candidates must understand system configurations for templates, corporate card programs, conversion rate policies, travel integration, and AI-driven automation in expense management.
Topic 3	<ul style="list-style-type: none">Implementing Payments: This section of the exam measures skills of Payments Configuration Specialists and focuses on the payment lifecycle in the Oracle Fusion Payables module. It includes understanding the supplier payment process, AI role in automation, and the configuration of payment options, methods, disbursement choices, and process profiles. The section also involves managing approval workflows and payment process templates for secure and accurate disbursement management.

Topic 4	<ul style="list-style-type: none"> Implementing Accounts Payable Balances: This section of the exam measures skills of Finance Operations Managers and covers Accounts Payable (AP) reporting, analysis, and period closing activities. It explains AP balance configurations, calendar management, and reconciliation with the General Ledger. Candidates must understand the setup of aging periods, payables calendars, and best practices for ensuring accurate financial close processes.
Topic 5	<ul style="list-style-type: none"> Setting up Common Configurations in the Supplier Invoice to Payments Process This section of the exam measures skills of Accounts Payable Analysts and focuses on understanding the core setup required for supplier invoicing and payment processes. It covers the Enterprise Structure, Financial Reporting Structure, and Data Security model. Candidates must know the purpose of Business Units and Reference Sets and be able to manage Supplier and Bank Account Master Data effectively.

The Best Accurate 1Z0-1055-25 Dumps PDF - Easy and Guaranteed 1Z0-1055-25 Exam Success

The system of our 1Z0-1055-25 latest exam file is great. It is developed and maintained by our company's professional personnel and is dedicated to provide the first-tier service to the clients. Our system updates the 1Z0-1055-25 exam questions periodically and frequently to provide more learning resources and responds to the clients' concerns promptly. Our system will supplement new 1Z0-1055-25 latest exam file and functions according to the clients' requirements and surveys the clients' satisfaction degrees about our 1Z0-1055-25 cram materials. Our system will do an all-around statistics of the sales volume of our 1Z0-1055-25 exam questions at home and abroad and our clients' positive feedback rate of our 1Z0-1055-25 latest exam file. Our system will deal with the clients' online consultation and refund issues promptly and efficiently. So our system is great.

Oracle Fusion Cloud Financials: Payables and Expenses 2025 Implementation Professional Sample Questions (Q16-Q21):

NEW QUESTION # 16

You are a consultant for a mid-sized company. They have asked you to identify Cash Management reports that can be used to gain a better understanding of the company's cash position. You found four key reports.

Which option correctly matches each report with its description?

Answer:

Explanation:

NEW QUESTION # 17

You have assisted your customer with the implementation of Oracle Intelligent document Recognition (IDR). They want to track the accuracy of the invoice line recognition for invoices processed by IDR. You introduce them to the invoice documents recognition rate report to obtain the invoice line recognition details.

In which three formats is this report available?

- A. Invoice Line Details
- B. Invoice Summary Details
- C. Invoice Header Details
- D. Invoice Header summary
- E. Invoice Header supplier summary
- F. Invoice Line Summary

Answer: C,E,F

NEW QUESTION # 18

Your organization has decided to create employee expense items by leveraging the digital assistant feature and sending expense

receipts via email.

Which is the next processing step after an email with an expense receipt is received in the expenses application?

- A. The Application automatically matched receipts to corporate card charges
- B. The application assigns an expense type based on category
- **C. The application verifies the sender's email address and compares it with the employee's email addressed in HCM**
- D. The application extracts the receipt details and creates expense items
- E. The application sends the expenses team receipt notification

Answer: C

NEW QUESTION # 19

You recently processed a payment for a vendor and later discovered that the payment was made in error and needs to be voided. While voiding the payment, you selected Cancel as the Invoice Action. After performing the invoice voiding, you notice that the invoice is not cancelled; instead, it has an Invoice Cancel hold applied to it. What is the reason for this?

- A. The invoice date is not in the current open period.
- **B. The invoice has been partially paid by another payment.**
- C. The invoice is already on hold.

Answer: B

Explanation:

Comprehensive and Detailed In-Depth

In Oracle Payables, voiding a payment involves specific actions that affect the associated invoices. When a payment is voided, users have the option to select an Invoice Action, such as Cancel, Hold, or None. The chosen action determines the subsequent status of the invoice linked to the voided payment.

A . The invoice date is not in the current open period.

If an invoice's date falls outside the current open accounting period, certain actions may be restricted. However, this condition does not specifically result in an Invoice Cancel hold being applied when attempting to void a payment. Therefore, this is not the reason for the observed behavior.

B . The invoice is already on hold.

An invoice that is already on hold may have restrictions on further processing. However, the presence of an existing hold does not directly lead to the application of an Invoice Cancel hold during the voiding process. Thus, this is not the cause of the issue.

C . The invoice has been partially paid by another payment.

When an invoice has been partially paid by multiple payments, voiding one of the payments and selecting Cancel as the Invoice Action does not cancel the invoice. Instead, Oracle Payables applies an "Invoice Cancel" hold to the invoice. This hold indicates that the invoice cannot be fully canceled because it has been partially satisfied by another payment. To resolve this, the remaining payments must be addressed appropriately before the invoice can be canceled. This behavior is documented in Oracle's guidelines, which state that attempting to cancel an invoice partially paid by another payment results in an Invoice Cancel hold being applied.

docs.oracle.com

Understanding the conditions under which Invoice Actions apply is crucial for effective invoice and payment management in Oracle Payables. Recognizing that partially paid invoices cannot be canceled outright helps prevent processing errors and ensures accurate financial records.

NEW QUESTION # 20

A Payables user creates a manual invoice, and a Withholding Tax Classification Code defaults on the invoice line when the invoice is saved. Where does this Withholding Tax Classification Code default from?

- A. From the Ship-to Location selected on the invoice
- B. From the Party Tax Profile of the Third Party Site
- **C. From the Site Assignments of the Supplier Site**

Answer: C

Explanation:

A). From the Site Assignments of the Supplier Site (Correct Answer)

The Withholding Tax Classification Code can be assigned at the supplier site level in Oracle Financials Cloud.

When a supplier site has a predefined withholding tax classification, this automatically defaults onto the invoice line when an invoice is created for that supplier site.

This setup ensures that consistent withholding tax is applied to transactions related to that supplier.

According to Oracle documentation:

"For supplier sites that use withholding tax, the withholding tax classification that you define at the supplier site assignment level is used to populate the default tax classification on the invoice." (Oracle Financials Cloud Payables Guide) B). From the Party Tax Profile of the Third Party Site (Incorrect Answer) The Party Tax Profile contains tax-related settings for a supplier or third-party entity, including tax registration details.

However, it does not directly default the Withholding Tax Classification Code onto invoice lines.

Instead, the Party Tax Profile provides high-level tax configurations that may influence tax calculations but does not assign the default withholding tax classification.

C). From the Ship-to Location selected on the invoice (Incorrect Answer) The Ship-to Location on an invoice is used for logistics and sales tax calculations based on where goods are delivered.

It does not impact withholding tax, which is typically linked to the supplier or supplier site.

Therefore, the Withholding Tax Classification Code does not default from the Ship-to Location.

Final Conclusion:

The correct source of the default Withholding Tax Classification Code on an invoice line is the Supplier Site Assignment.

This ensures that withholding tax is consistently applied to transactions involving that supplier, reducing errors in tax calculations.

Reference:

Oracle Financials Cloud Documentation - Withholding Tax Classifications in Payables (Oracle Documentation Link) Explanation: Comprehensive and Detailed In-Depth

In Oracle Financials Cloud, when a Payables user creates a manual invoice, the Withholding Tax Classification Code can default onto the invoice line from various sources depending on the system configurations. The correct source for defaulting this code is from the Site Assignments of the Supplier Site.

Explanation of Each Option:

NEW QUESTION # 21
