The Avaya 77201X PDF Questions and practice tests by PrepAwayPDF play a big role in your Avaya 77201X exam success.

Avaya IP Office™ Platform Implement Certified Exam Sample Questions (Q92-Q97):

NEW QUESTION # 92

Which license is required to enable the Avaya IP Office Receptionist feature?

- A. Power User
- B. Teleworker
- C. Office Worker
- **D. Receptionist**

Answer: D

Explanation:

The "Receptionist" license (Option C) enables the SoftConsole application for receptionist duties, such as call handling and transfers. Option A (Power User) is for mobility, Option B (Office Worker) for one-X Portal, and Option D (Teleworker) for remote deskphones-not receptionist features. References: Avaya IP Office Licensing Guide.

NEW QUESTION # 93

Which license is required for a user to use the Avaya Communicator softphone?

- A. Basic User
- B. Teleworker
- C. Office Worker
- **D. Power User**

Answer: D

Explanation:

The Avaya Communicator softphone requires the "Power User" license (Option B), which includes advanced mobility and softphone functionality. Option A (Office Worker) supports one-X Portal but not full softphone features, Option C (Teleworker) is for remote deskphones, and Option D (Basic User) lacks softphone support. References: Avaya IP Office Licensing Guide.

NEW QUESTION # 94

Which feature allows users to log in and out of multiple hunt groups?

- A. Call Pickup
- B. Hot Desking
- C. Mobile Twinning
- **D. Group Login/Logout**

Answer: D

Explanation:

"Group Login/Logout" (Option B) enables users to dynamically join or leave multiple hunt groups using feature codes or phone buttons, ideal for flexible staffing. Option A (Hot Desking) is for logging into different phones, Option C (Call Pickup) is for answering others' calls, and Option D (Mobile Twinning) is unrelated to hunt groups. References: Avaya IP Office Hunt Group Configuration Guide.

NEW QUESTION # 95

What is the maximum number of Voicemail Pro channels supported on Server Edition?

- A. 0
- B. 1
- **C. 2**
- D. 3

Answer: C

Explanation:

Voicemail Pro on Server Edition supports up to 150 simultaneous channels (Option C), allowing extensive voicemail and auto-attendant capacity. This requires sufficient licensing and server resources. Options A, B, and D represent lower or higher limits not aligned with Server Edition specs. References: Avaya IP Office Voicemail Pro Administration Guide.

NEW QUESTION # 96

Where are the backups for Voicemail Pro arranged?

- A. In the automatic backup at midnight
- B. Through the PC backup method
- C. In Voicemail Pro Preference > General options > Backup & Restore
- D. In the Manager program backup setting

Answer: C

Explanation:

Voicemail Pro, an advanced voicemail application for IP Office, includes a built-in backup and restore feature. Option D, "In Voicemail Pro Preference > General options > Backup & Restore," is correct because the Voicemail Pro client interface allows administrators to configure automatic backups under the "Preferences" menu, specifically in the "Backup & Restore" section. Here, settings like backup frequency, location, and retention can be defined. Option A (Manager program) is incorrect as Manager handles system configuration backups, not Voicemail Pro specifically. Option B (automatic backup at midnight) is a partial truth but lacks specificity, as the timing is configurable in Voicemail Pro settings. Option C (PC backup method) is vague and not a standard feature of Voicemail Pro. References: Avaya IP Office Voicemail Pro Administration Guide.

NEW QUESTION # 97

.....

People always feel fear of the unknown thing and cannot handle themselves with a sudden change. However, our 77201X exam questions can stand by your side.
