

312-76 100% Accuracy, Latest Test 312-76 Discount

P.S. Free & New 312-76 dumps are available on Google Drive shared by Itcertkey: <https://drive.google.com/open?id=1Ow44eYZ1Z0YO-nlkFnJHU4OU7CJ4nFfe>

New developments in the tech sector always bring new job opportunities. These new jobs have to be filled with the EC-Council Disaster Recovery Professional (EDRP) (312-76) certification holders. So to fill the space, you need to pass the EC-COUNCIL 312-76 exam. Earning the EC-Council Disaster Recovery Professional (EDRP) (312-76) certification helps you clear the obstacles you face while working in the EC-COUNCIL field. To get prepared for the EC-Council Disaster Recovery Professional (EDRP) (312-76) certification exam, applicants face a lot of trouble if the study material is not updated.

Skills That EC-Council 312-76 Exam Covers

All in all, test 312-76 comprises seven domains that cover loads of disaster recovery and business continuity topics. Take note that each objective comes with a different weightage. In particular, these exam domains will explain areas like disaster recovery & business continuity overview and trends, risk overview alongside key terminologies, data back-up overview, data recovery, system recovery, centralized backup, BCP testing, and the planning process for disaster recovery just to mention a few.

312-76 Exam topics

Candidates must know the exam topics before they start of preparation. Because it will really help them in hitting the core. Our **312-76 exam dumps** will include the following topics:

- Law and Acts
- Disaster Recovery and Business Continuity
- Emergency Management
- Nature and Causes of Disasters

>> 312-76 100% Accuracy <<

Best EC-COUNCIL 312-76 test training guide

Our company's offer of free downloading the demos of our 312-76 exam braindumps from its webpage gives you the opportunity to go through the specimen of its content. YOU will find that the content of every demo is the same according to the three versions of the 312-76 Study Guide. The characteristics of the three versions is that they own the same questions and answers but different displays. So you can have a good experience with the displays of the 312-76 simulating exam as well.

Career Prospects After Passing EC-Council 312-76 Exam

Those professionals who pass the EC-Council 312-76 exam will be awarded the EDRP certification, which can greatly enhance their career path. The individuals with this certificate can explore various job roles and earn a highly rewarding remuneration. Some of the job roles that these applicants can explore include Network Server Administrators, Security Testers, Firewall Administrators, and System Administrators. They can also work as the Risk Assessment Specialists across different organizations and industries and

earn about \$79,000 per year.

EC-COUNCIL EC-Council Disaster Recovery Professional (EDRP) Sample Questions (Q54-Q59):

NEW QUESTION # 54

To protect against a disaster or other site-specific problem, many people choose this method to back up their media. The location can be as simple as the system administrator's home office or as sophisticated as a disaster-hardened, temperature-controlled, high-security bunker that has facilities for backup media storage.

Which type of backup method is being referred to here?

- A. Onsite
- B. Online
- C. Near-line
- **D. Offsite**

Answer: D

Explanation:

Offsite Backup stores data at a separate location (e.g., home or bunker) to protect against site-specific disasters, as described.

* Option A (Near-line): Intermediate storage, not offsite-specific.

* Option B (Onsite): Local, vulnerable to site issues.

* Option C (Online): Cloud-based, not necessarily physical offsite.

* "Offsite Backup safeguards data at remote locations, from simple offices to secure bunkers, against site-specific disasters"

(Module: Data Backup and Recovery, Section: Backup Locations).

NEW QUESTION # 55

Lisa's organization has multiple servers to cater to the needs of different businesses and clients. Each of these servers runs different applications in order to keep them isolated from each other. The server room incurs a huge cost because of the number of servers owing to the massive cooling systems, server maintenance, data center footprint, and quicker server provisioning. An audit of the resources discovered that most of the servers are idle two-thirds of business hours since these servers are dedicated towards faster recovery during disasters and the isolation of applications. Lisa is looking for a solution to bring down the cost of maintaining these servers, optimize the use of resources, and save money on the energy spent to keep these servers cool. Which solution can meet all these needs of Lisa?

- A. Virtual Desktop Infrastructure
- B. Server Replication
- **C. Server Virtualization**
- D. Operating System Virtualization

Answer: C

Explanation:

Server Virtualization consolidates multiple physical servers into virtual machines on fewer hosts, reducing costs, optimizing resources, and lowering cooling needs, as Lisa requires.

* Option A (VDI): Desktop-focused, not server optimization.

* Option B (OS Virtualization): Container-based, less broad than server virtualization.

* Option C (Replication): Duplicates servers, not cost-saving.

* "Server Virtualization reduces physical server count, cutting maintenance and cooling costs while optimizing resource use"

(Module: Virtualization and Recovery, Section: Server Virtualization Benefits).

NEW QUESTION # 56

Polly was estimating the magnitude of damage that would be done to her organization if someone were to leak the specifics of the new product her team was developing. Since the information was stored on a potentially vulnerable server and the cost of upgrading the infrastructure was huge, she was assessing if the upgrade should be done. According to her estimations, her company might stand to lose over two hundred thousand dollars should such a leak occur. Since this was more than the cost of the upgrade, she decided to go for the upgrade. Which risk factor did Polly essentially estimate?

- A. Likelihood
- **B. Impact**
- C. Vulnerability
- D. Hazard

Answer: B

Explanation:

Polly estimated the Impact, which is the magnitude of damage (here, \$200,000) resulting from a risk event (data leak). This drove her decision to upgrade, comparing it to the cost.

* Option B (Hazard): A potential source of harm, not the damage estimate.

* Option C (Likelihood): Probability of occurrence, not addressed here.

* Option D (Vulnerability): Weakness (vulnerable server), not the damage itself.

* "Impact, the estimated magnitude of loss from a risk event, such as a data leak costing \$200,000, guides mitigation decisions in risk assessment" (Module: Risk Management, Section: Risk Factors).

NEW QUESTION # 57

Which of the following types of attacks occurs when an attacker successfully inserts an intermediary software or program between two communicating hosts?

- A. Denial-of-service attack
- B. Password guessing attack
- **C. Man-in-the-middle attack**
- D. Dictionary attack

Answer: C

NEW QUESTION # 58

In which scenario training phase is a debrief conducted with the participants to obtain more feedback?

- A. Planning Phase
- **B. Review Phase**
- C. Warning Phase
- D. Execution Phase

Answer: B

Explanation:

The Review Phase of scenario training occurs after execution and involves a debrief with participants to gather feedback, assess performance, and identify improvements. This aligns with the question's focus on obtaining feedback post-training.

* Option A (Execution Phase): The active running of the scenario, no debrief yet.

* Option C (Warning Phase): Not a standard phase; implies pre-event alerts.

* Option D (Planning Phase): Prepares the scenario, not for feedback collection.

* "The Review Phase follows scenario execution, involving a debrief to collect participant feedback and refine the training process" (Module: Training and Awareness, Section: Training Phases).
