## Searching The Exam ADA-C02 Flashcards, Passed Half of SnowPro Advanced Administrator ADA-C02

As long as what you are looking for is high quality and accuracy practice materials, then our ADA-C02 training guide is your indispensable choices. We are sufficiently definite of the accuracy and authority of our ADA-C02 practice materials. So lousy materials will lead you end up in failure. They cannot be trusted unlike our ADA-C02 Study Materials. Come together and our materials will serve as a doable way to strengthen your ability to solve questions on your way to success.

## Snowflake SnowPro Advanced Administrator ADA-C02 Sample Questions (Q52-Q57):

### NEW QUESTION # 52

A user with the proper role issues the following commands when setting up and activating network policies:

```
CREATE OR REPLACE NETWORK POLICY foo_policy
ALLOWED_IP_LIST = ('1.1.1.0/24', '2.2.2.0/24', '3.3.3.0/24')
BLOCKED_IP_LIST = ('1.1.1.1')
COMMENT = 'Account level policy';
ALTER ACCOUNT SET NETWORK_POLICY=foo_policy;
CREATE OR REPLACE NETWORK POLICY bar_policy
ALLOWED_IP_LIST = ('3.3.3.0/24')
BLOCKED_IP_LIST = ('3.3.3.10')
```

COMMENT = 'user level policy';  
ALTER USER user1 SET NETWORK\_POLICY=BAR\_POLICY;  
Afterwards, user1 attempts to log in to Snowflake from IP address 3.3.3.10.  
Will the login be successful?

- A. No, because 3.3.3.10 is found in the BLOCKED\_IP\_LIST of bar\_policy.
- B. No, because 3.3.3.10 is not found in the ALLOWED\_IP\_LIST of foo\_policy.
- C. Yes, because 3.3.3.10 is found in the ALLOWED\_IP\_LIST of foo\_policy.
- D. Yes, because 3.3.3.10 is found in the ALLOWED\_IP\_LIST of bar\_policy.

**Answer: A**

Explanation:

Although 3.3.3.10 is in the ALLOWED\_IP\_LIST, it is also explicitly listed in the BLOCKED\_IP\_LIST of the user-level policy (bar\_policy). Blocked IPs always take precedence over allowed IPs in Snowflake network policies, so the login attempt will fail.

### NEW QUESTION # 53

A company has implemented Snowflake replication between two Snowflake accounts, both of which are running on a Snowflake Enterprise edition. The replication is for the database APP\_DB containing only one schema, APP\_SCHEMA. The company's time Travel retention policy is currently set for 30 days for both accounts. An Administrator has been asked to extend the time Travel retention policy to 60 days on the secondary database only. How can this requirement be met?

- A. Set the data retention policy on the schemas in the secondary database to 60 days.
- B. Set the data retention policy on the primary database to 30 days and the schemas to 60 days.
- C. Set the data retention policy on the primary database to 60 days.
- D. Set the data retention policy on the secondary database to 60 days.

**Answer: C**

Explanation:

In Snowflake replication, Time Travel retention is determined by the primary database and is replicated to the secondary. The secondary cannot have a longer retention than the primary. To extend retention to 60 days on the secondary, the primary database's retention must be increased to 60 days.

### NEW QUESTION # 54

Which actions are considered breaking changes to data that is shared with consumers in the Snowflake Marketplace? (Choose two.)

- A. Dropping a column from a table
- B. Adding region availability to the listing
- C. Renaming a table
- D. Deleting data from a table
- E. Unpublishing the data listing

**Answer: A,C**

Explanation:

Dropping a column from a table or renaming a table breaks the shared schema and can cause dependent queries to fail for consumers. These are considered breaking changes to shared data in the Snowflake Marketplace.

### NEW QUESTION # 55

An Administrator receives data from a Snowflake partner. The partner is sharing a dataset that contains multiple secure views. The Administrator would like to configure the data so that only certain roles can see certain secure views. How can this be accomplished?

- A. Apply RBAC directly onto the partner's shared secure views.
- B. Individually grant imported privileges onto the schema in the share.

- C. Clone the data and insert it into a company-owned share and apply the desired RBAC on the new tables.
- **D. Create views over the incoming shared database and apply the desired RBAC onto these views.**

**Answer: D**

Explanation:

Permissions cannot be applied directly to objects in a shared database. To enforce role-based access, the Administrator must create views over the shared secure views in a local database and then apply RBAC privileges to those new views. This allows controlling which roles can see which data.

#### NEW QUESTION # 56

A company enabled replication between accounts and is ready to replicate data across regions in the same cloud service provider.

The primary database object is : PROD\_AWS\_EAST. Location : AWS\_EAST

The secondary database object is : PROD\_AWS\_WEST. Location : AWS\_WEST

What command and account location is needed to refresh the data?

- A. Location : AWS\_EAST  
Command : REFRESH DATABASE PROD\_AWS\_WEST REFRESH;
- **B. Location : AWS\_WEST  
Command : ALTER DATABASE PROD\_AWS\_WEST REFRESH;**
- C. Location : AWS\_EAST  
Command : ALTER DATABASE PROD\_AWS\_WEST REFRESH;
- D. Location : AWS\_WEST  
Command : REFRESH DATABASE PROD\_AWS\_WEST REFRESH;

**Answer: B**

Explanation:

To update a secondary database with changes from its primary, the ALTER DATABASE <secondary\_db> REFRESH; command must be executed in the secondary account/region. In this case, that means running the command on PROD\_AWS\_WEST in AWS\_WEST.

#### NEW QUESTION # 57

.....

Our ADA-C02 real dumps has received popular acceptance worldwide with tens of thousands of regular exam candidates who trust our proficiency. Up to now, the passing rate is 98 to 100 percent. What made our ADA-C02 study guide so amazing? The answer that we only supply the latest and valid ADA-C02 Exam Braindumps for our customers and first-class after-sales services come after the first-class ADA-C02 learning engine. We're also widely praised by our perfect services.

**Exam ADA-C02 Overviews:** <https://www.actualtestpdf.com/Snowflake/ADA-C02-practice-exam-dumps.html>

The newest updates, Snowflake Exam ADA-C02 Flashcards They now have the opportunity they want, So there are many people applying for ADA-C02 certification examinations every year but most of them fail, Snowflake Exam ADA-C02 Flashcards You can see from our comments that many candidates passed exams and gave good comments, they appreciate that their success benefit from our DumpExams's help, we are happy that we can help you and we do something significant, ActualtestPDF is here to resolve all of your problems with its actual and latest Snowflake ADA-C02 Questions.

We use the twelve practices to organize our data gathering, ADA-C02 This edition has been fully revised to help you consistently deliver the right content at the right time.

The newest updates, They now have the opportunity they want, So there are many people applying for ADA-C02 Certification examinations every year but most of them fail.

### Pass Guaranteed Snowflake - Fantastic Exam ADA-C02 Flashcards

You can see from our comments that many candidates passed exams and gave good Reliable ADA-C02 Test Tutorial comments, they appreciate that their success benefit from our DumpExams's help, we are happy that we can help you and we do something significant.
