The MO-210 exam software designed by our ITdumpsfree will help you master MO-210 Exam skills. Besides, abundant materials, user-friendly design and one-year free update after payment are the best favor for you to pass MO-210 exam.

Microsoft Excel (Microsoft 365 Apps) Sample Questions (Q21-Q26):

NEW QUESTION # 21

Instructions

Exam Environment

Exam Interface and Controls

The exam panel provides access to the project task(s). Each project has an associated file in which you will perform the project tasks.

☰

Overview:

Jelly Beans

A shop you manage sells gourmet jelly beans. You are tracking the amount of jelly beans sold each quarter and summarizing the information in a workbook.

Task 3:

On the Chart worksheet, include the Total Profit data on the Flavor Expenses, Income and Profit chart.

Answer:

Explanation:

See the solution in Explanation below.

Explanation:

To include the Total Profit data in your existing chart on the Chart worksheet, follow these steps:

Step 1: Navigate to the Chart

* Click on the Chart worksheet tab at the bottom of the Excel window.

* Click once on the Flavor Expenses, Income and Profit chart to select it. When selected, you will see the Chart Design and Format tabs appear on the Ribbon.

Step 2: Open the Select Data Source Window

* Go to the Chart Design tab.

* In the Data group, click on the Select Data button. This will open the Select Data Source dialog box.

Step 3: Add the Total Profit Series

* In the Legend Entries (Series) section on the left side of the dialog box, click the Add button.

* An Edit Series window will appear:

* Series name: Click on the Profits worksheet tab and select cell G3 (which contains the header "Total Profit").

* Series values: Clear any existing text in the box, then highlight the range G4:G23 on the Profits worksheet (containing the actual profit numbers).

* Click OK on the Edit Series window.

* Click OK again on the Select Data Source dialog box to apply the changes.

Final Result

The chart will now display a third set of bars (likely orange, as seen in your preview) representing the Total Profit for each flavor alongside the existing Expense and Income data.

NEW QUESTION # 22

Instructions

Exam Environment

Exam Interface and Controls

The exam panel provides access to the project task(s). Each project has an associated file in which you will perform the project tasks.

Overview:

Clearance Sale

You are the administrative assistant for a retail company that is going out of business. You've been tasked to prepare a workbook for the clearance sale.

Task 4:

On the Sold worksheet, format the table so that every other row is shaded. Use a technique that automatically updates the formatting if you insert a new row.

Answer:

Explanation:

See the solution in Explanation below.

Explanation:

To ensure every other row is shaded and that this formatting updates automatically when new rows are added, you should use the Banded Rows feature within the Table Design options.

Since your data is already formatted as a Table (indicated by the filter arrows in the header row), follow these steps:

Step-by-Step Solution

* Select the Table: Click anywhere inside the data on the Sold worksheet (for example, cell B5). This will make the contextual "Table Design" tab appear in the Ribbon.

* Go to Table Design: Click on the Table Design tab at the top of the Excel window.

* Enable Banded Rows: In the Table Style Options group, check the box labeled Banded Rows.

Why this works:

* Automatic Updating: Because this is a Table feature rather than manual cell shading, if you insert a new row between existing data, Excel will automatically re-calculate the "every other row" pattern to maintain the shading.

* Consistency: This method ensures that even if you sort or filter the data, the alternating stripes remain consistent visually.

Verification

Look at your table; you should see that rows 4, 6, 8, etc., have a different background color than rows 5, 7, 9.

Try right-clicking a row and selecting Insert to see how the shading shifts automatically to maintain the pattern.

NEW QUESTION # 23

Instructions

Exam Environment

Exam Interface and Controls

The exam panel provides access to the project task(s). Each project has an associated file in which you will perform the project tasks.

□

Overview:

Jelly Beans

A shop you manage sells gourmet jelly beans. You are tracking the amount of jelly beans sold each quarter and summarizing the information in a workbook.

Task 2:

Use a built-in Excel feature to copy all of the formatting of cell range A2:G2 located on the Profits worksheet and apply that formatting to cell A2 on the Costs worksheet.

Answer:

Explanation:

See the solution in Explanation below.

Explanation:

To transfer the formatting from the Profits worksheet to the Costs worksheet while maintaining consistency, follow these steps:

Step 1: Copy the Source Formatting

* Click on the Profits worksheet tab at the bottom of your Excel window.

* Select the cell range A2:G2.

* On the Home tab, in the Clipboard group, click the Format Painter button (it looks like a paintbrush).

* Tip: Your cursor will now have a small paintbrush icon next to it, indicating the formatting is "loaded" and ready to be pasted.

Step 2: Apply Formatting to the Destination

* Click on the Costs worksheet tab (the one shown in your provided image).

* Click directly on Cell A2 (the cell containing "Production Costs (per pound)").

* Excel will automatically apply the formatting across the range starting from A2 to match the original source.

Final Result

The cell range in the Costs worksheet should now match the style (font, background color, and borders) of the Profits worksheet. The grey shading currently visible in your image in range B2:G2 will be replaced by the style from the first sheet.

NEW QUESTION # 24

Instructions

Exam Environment

Exam Interface and Controls

The exam panel provides access to the project task(s). Each project has an associated file in which you will perform the project tasks.

□

Project 1

Overview:

Video Games

You are tracking video game popularity by compiling a workbook to document your findings.

Task 2:

On the Top 20 Videos worksheet, change the width of column C to 2.

Answer:

Explanation:

Here are the complete solutions below.

Explanation:

Step-by-Step Instructions

* Navigate to the Correct Worksheet:

* Click on the tab labeled Top 20 Videos at the bottom of the Excel window to ensure you are on the correct sheet.

* Select Column C:

* Click on the letter C in the column header to select the entire column.

* Open Column Width Settings:

* Method A (Ribbon): Go to the Home tab. In the Cells group (towards the right), click Format.

Select Column Width... from the dropdown menu.

* Method B (Right-click): Right-click directly on the column header "C". A context menu will appear. Click Column Width...

- * Enter the Width:
- * A small dialog box labeled "Column Width" will appear.
- * Type 2 in the box.
- * Click OK.

Visual Verification

Before: Column C (containing the "Year" data) is likely wider, fitting the four-digit years comfortably.

After: Column C will become very narrow. The "Year" header and the dates (like 2011, 1984) might display as hashes (#####) because the column is now too narrow to display the numbers, or the text will simply be cut off. This is expected behavior for the exam task; do not widen it back out unless instructed to do so.

NEW QUESTION # 25

Instructions

Exam Environment

Exam Interface and Controls

The exam panel provides access to the project task(s). Each project has an associated file in which you will perform the project tasks.

□

Farm Feeds:

You are the assistant manager for a farm pet feed store. You are creating an inventory report.

Task 1:

Remove the conditional formatting from the table on the Feed Inventory worksheet.

Answer:

Explanation:

See the solution in Explanation below.

Explanation:

To complete Task 1: Remove the conditional formatting from the table on the Feed Inventory worksheet, follow these steps:

Step 1: Select the Target Worksheet

First, ensure you are on the correct worksheet as specified in the instructions.

- * Click on the Feed Inventory tab at the bottom of your Excel workbook.

Step 2: Select the Table or Data Range

You can remove formatting from the entire sheet, but to be precise with the "table," follow these sub-steps:

- * Click anywhere inside the table (the area containing the SKU#, Brand, Description, etc.).
- * Press Ctrl + A to select the entire table range.

Step 3: Access the Conditional Formatting Menu

- * Go to the Home tab on the top Ribbon.
- * In the Styles group, click on the Conditional Formatting button.

Step 4: Clear the Rules

- * Hover your mouse over Clear Rules near the bottom of the drop-down menu.
- * A side menu will appear. Select Clear Rules from Selected Cells (if you have the table selected) or Clear Rules from Entire Sheet to ensure all formatting is removed.

Final Result

Once clicked, any data bars, color scales, or highlight rules (like the light green shading seen in your screenshot) that were applied via Conditional Formatting will be removed, leaving the standard table styling
