The HPE Aruba Networking Switching Professional Exam (HPE7-A08) certification exam is a valuable credential that is designed to validate the candidates' skills and knowledge level. The HPE7-A08 certification exam is one of the high in demand industrial recognized credentials to prove your skills and knowledge level. With the HP HPE7-A08 Certification Exam everyone can upgrade their skills and become competitive and updated in the market.

## HP HPE7-A08 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Install and Configure the Wired Network Solution: This domain evaluates the abilities of Network Engineers to provision and configure HPE Aruba Networking switches both via Aruba Networking Central and command-line interface. It covers physical switch setup, Layer 2 and Layer 3 configuration and validation, multicast features, security implementations, quality of service (QoS) settings, and integration of Aruba Networking solutions into existing environments.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• <b>Manage, Maintain, Optimize, and Monitor the Wired Network Solution:</b> This part measures the skills of Network Operations Engineers in managing and maintaining wired network infrastructures. It includes developing configuration management strategies, interpreting network operational data to make informed decisions, and programmatically auditing or configuring Aruba Networking switches to optimize performance and reliability.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Create the Implementation Plan for the Wired Network Solution:</b> This section measures the skills of Network Designers who focus on understanding the HPE switching portfolio and selecting the right products to match various customer requirements. Candidates must also demonstrate the ability to create detailed and effective implementation plans based on given designs or customer scenarios to ensure successful wired network deployments.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Troubleshoot the Wired Network Solution:</b> Candidates in this section, typically Network Support Specialists, are tested on identifying common wired network failures such as IP or VLAN mismatches, hardware issues, or port misconfigurations. It also involves analyzing performance problems caused by QoS or configuration errors and formulating effective remediation plans to restore correct network operations.</li> </ul>

The simplified information in HPE7-A08 certification dumps makes your exam preparation immensely easier for you. All the HPE7-A08 exam questions answers are self-explanatory and provide the best relevant and authentic information checked and approved by the industry experts. No key point of the HPE7-A08 Exam is left unaddressed. The complex portions have been explained with the help of real life based examples. In case, you don't follow and HPE7-A08 dumps, you can contact our customer's service that is operational 24/7 for your convenience.

### HPE Aruba Networking Switching Professional Exam Sample Questions (Q32-Q37):

#### NEW QUESTION # 32

Which two commands are required to enable and configure a switch port for access mode? (Select two)

- A. **switchport mode access**
- B. enable port-security
- C. set vlan access 10
- D. **interface 1/1/1**

**Answer: A,D**

Explanation:

The interface command selects the port, while switchport mode access ensures it functions as an access port for a specific VLAN.

#### NEW QUESTION # 33

How would you describe the firmware upgrade process for an HPE Aruba Networking VSX cluster?

- A. **During the upgrade, the vsx-syned process will stop synchronization while the software versions are mismatched**
- B. After the upgrade, the vsx-syned process can resume synchronization even if the switches are in a different firmware version
- C. After the upgrade, the vsx-syned process will continue synchronization, once vsx-upgrade commit is issued
- D. During the upgrade, the vsx-syned process will continue synchronization while the software versions are mismatched

**Answer: A**

### NEW QUESTION # 34

Which factors should be checked when diagnosing a slow wired network connection?  
(Select two.)

Response:

- A. Duplex mismatch
- B. Incorrect VLAN assignment
- C. MAC address filtering
- D. DNS server failure

**Answer: A,B**

### NEW QUESTION # 35

A network engineer is setting up BGP on AOS-CX switches. The engineer is establishing two different eBGP peering's to two different service providers. The engineer has dozens of contiguous C-class public networks that need to be advertised to the two service providers. The engineer manually defines the networks to be advertised individually with the "network" command. How can an administrator advertise only a summarized route to the two service providers?

- A. Enable auto-summarization in the IPv4 address family of the BGP configuration
- B. Summarize the networks with the "aggregate-address" BGP command
- C. Create a summarized static route and redistribute this into OSPF
- D. Create a summarized route in OSPF

**Answer: B**

### NEW QUESTION # 36

Refer to the exhibit for an HPE Aruba Networking CX 6300M VSF:

What VSF configuration is required for the stack configuration to work and avoid split-brain?

- A. vsf start-auto-stacking
- B. vsf conductor-member 2
- C. vsf secondary-member 2
- D. vsf split-detect mgmt

**Answer: C**

Explanation:

Designating a secondary member provides a standby control plane that can take over if the conductor fails, preventing the stack from forming multiple independent control planes and thereby avoiding split-brain conditions.

### NEW QUESTION # 37

.....

We provide free update to the clients within one year. The clients can get more HPE7-A08 study materials to learn and understand the latest industry trend. We boost the specialized expert team to take charge for the update of HPE7-A08 study materials timely and periodically. They refer to the excellent published authors' thesis and the latest emerging knowledge points among the industry to update our HPE7-A08 Study Materials. After one year, the clients can enjoy 50 percent discounts and the old clients enjoy some certain discounts when purchasing. So the clients can enjoy more benefits after they buy our HPE7-A08 study materials.
