## Latest HPE0-J68 Exam Preparation - Valid HPE0-J68 Exam Answers

Generally speaking, a satisfactory practice material should include the following traits. High quality and accuracy rate with reliable services from beginning to end. As the most professional group to compile the content according to the newest information, our HPE0-J68 practice materials contain them all, and in order to generate a concrete transaction between us we take pleasure in making you a detailed introduction of our HPE0-J68 practice materials. We would like to take this opportunity and offer you a best

HPE0-J68 practice material as our strongest items as follows. Here are detailed specifications of our product.

## HPE Storage Solutions Sample Questions (Q234-Q239):

### NEW QUESTION # 234

Your customer is interested in an HPE iSCSI storage solution with the highest availability guarantee. Which HPE storage model should you choose?

- A. HPE Alletra Storage MP B10000
- B. HPE Alletra Storage MP X10000
- C. HPE Solutions with Qumulo
- D. HPE SimpliVity

**Answer: A**

Explanation:

HPE Alletra Storage MP B10000 offers the highest availability guarantee for iSCSI storage solutions, providing enterprise-class resilience, redundancy, and robust failover capabilities.

### NEW QUESTION # 235

Which statement is true regarding the connection of extra drive enclosures to the HPE Alletra 9000 storage array with an HPE Alletra 9000 NVMe-oF 100 GbE 2-port host bus adapter?

- A. It offers a lower speed than built-in expansion ports and should be used with slower disks
- B. It must be installed on every node in the second H8A slot (slot 4)
- C. Alternatively, it can be used for host connectivity
- D. It can only be used if the two 100 GbE built-in ports are already populated

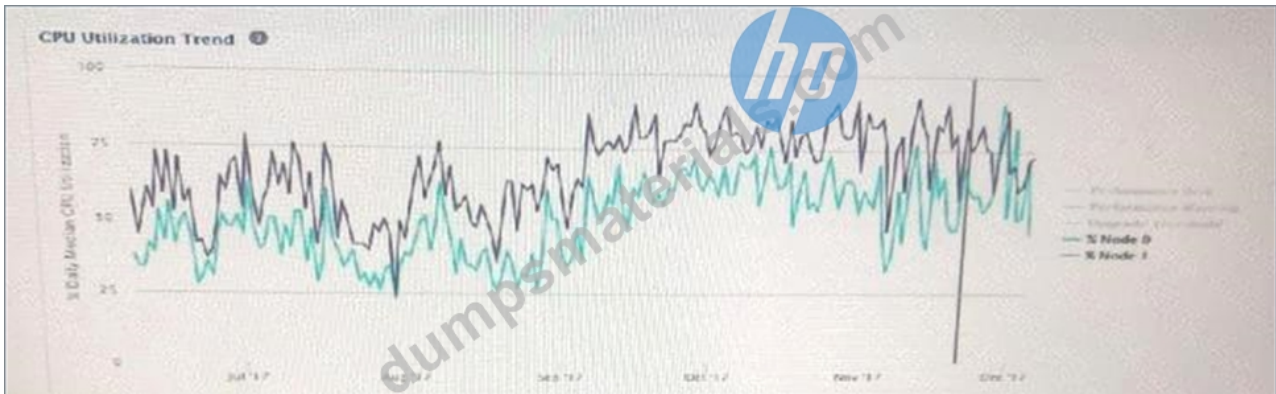

**Answer: C**

Explanation:

The HPE Alletra 9000 NVMe-oF 100 GbE 2-port host bus adapter (HBA) is a versatile component that can be used for multiple purposes. While it is primarily designed for high-speed host connectivity, it can also be used for connecting extra drive enclosures to the HPE Alletra 9000 storage array. This flexibility allows it to serve dual roles depending on the specific requirements of the deployment, either expanding storage capacity by connecting additional enclosures or providing high-speed connectivity to hosts.

### NEW QUESTION # 236

Exhibit:

The customer has upgraded the first of their two HPE StoreServ 8200 to the latest inform OS version to take the advantage of the compression feature. You have been asked to design the storage configuration to support oracle database volume to utilize HPE 3PAR compression.

Based on the analysis of the array, what would be your suggestion to implement the requested change?

- A. Configure the source-side the compression to offload compression to the Host
- B. Consider adding another node pair for compression to work efficiently
- C. Install the catalyst agent on the oracle server to enable inline compression on the selected VV

- **D. Balance the workloads between the arrays to have enough headroom for compression**

**Answer: D**

Explanation:

When implementing HPE 3PAR compression for Oracle database volumes, it's crucial to ensure that there is sufficient processing capacity on the array. This can be achieved by balancing the workloads between the arrays to create the necessary headroom for compression tasks. Properly distributing the workloads will allow the system to efficiently manage the compression operations without negatively impacting performance.

\* HPE 3PAR StoreServ and Compression

### NEW QUESTION # 237

Which storage principle would benefit a customer who has several departments in their organization with different storage needs?

- A. Federated storage
- B. Autonomic Management
- **C. Multi-tenancy**
- D. Scale out storage

**Answer: C**

Explanation:

Multi-tenancy is a storage principle that allows multiple departments or tenants within an organization to share the same storage infrastructure while maintaining logical separation of data. This approach benefits organizations with different departments that have varying storage needs by providing isolated storage environments within a single physical system. It optimizes storage resource utilization and enhances data security, making it ideal for environments where multiple workloads coexist.

### NEW QUESTION # 238

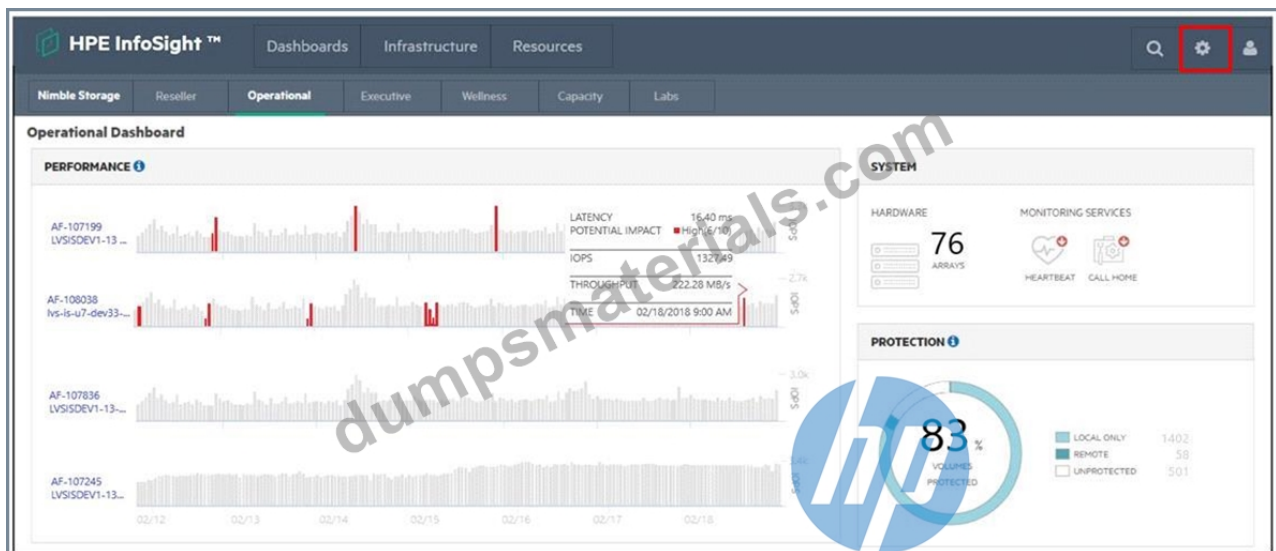

A customer has a Nimble HF40 and needs to create a support ticket.

Click the option in the InfoSight portal where the customer can perform this task.

**Answer:**

Explanation:

## NEW QUESTION # 239

.....

In every area, timing counts importantly. With the advantage of high efficiency, our HPE0-J68 practice materials help you avoid wasting time on selecting the important and precise content from the broad information. In such a way, you can confirm that you get the convenience and fast. By studying with our HPE0-J68 Real Exam for 20 to 30 hours, we can claim that you can get ready to attend the HPE0-J68 exam.
