D-PE-OE-01 Test Torrent - D-PE-OE-01 Test Voucher

Our services before, during and after the clients use our D-PE-OE-01 certification material are considerate. Before the purchase, the clients can download and try out our D-PE-OE-01 learning file freely. During the clients use our products they can contact our online customer service staff to consult the problems about our products. After the clients use our D-PE-OE-01 Prep Guide dump if they can't pass the test smoothly they can contact us to require us to refund them in full and if only they provide the failure proof we will refund them at once. Our company gives priority to the satisfaction degree of the clients and puts the quality of the service in the

first place.

EMC Dell PowerEdge Operate v2 Exam Sample Questions (Q250-Q255):

NEW QUESTION # 250

SIMULATION

Due to recent security breaches and to avoid accidental changes made by the junior IT staff, an administrator would like to prevent unwanted configuration changes in the iDRAC UI.

The screenshot displays the iDRAC9 Enterprise web interface. The top navigation bar includes 'Dashboard', 'System', 'Storage', 'Configuration', 'Maintenance', and 'iDRAC Settings'. The main content area is divided into several sections:

- Health Information:** A green banner indicates 'SYSTEM IS HEALTHY'. Below it, 'System Health' and 'Storage Health' are both shown as 'Healthy'.
- System Information:** A table lists system details:

Power State	ON
Model	PowerEdge R540
Host Name	
Operating System	
Operating System Version	
Service Tag	P8TC123
BIOS Version	2.5.4
iDRAC Firmware Version	4.40.20.00
IP Address(es)	123.123.123.123
iDRAC MAC Address	847b:12:34:56:78
License	Enterprise
- Task Summary:** A summary of tasks with three categories: 'Pending Jobs: 0', 'In-Progress Jobs: 0', and 'Completed Jobs: 0', each with 'No [Category] Jobs' below it.
- Recent Logs:** A table with columns 'Severity', 'Description', and 'Date and Time'. One entry is visible: 'Log cleared' on 'Mon 30 Mar 2020 16:22:53'.
- Virtual Console:** A blacked-out area with a 'Settings' link.

Answer:

Explanation:

Answer in Explanation

Explanation:

To prevent unwanted configuration changes in the iDRAC UI, you can adjust user roles, permissions, or enable specific security settings to restrict access for junior IT staff.

Here are the steps to secure the iDRAC configuration:

Step-by-Step Guide:

Access User Settings:

In the iDRAC interface, navigate to iDRAC Settings from the main menu. Choose User Authentication or Users to manage user accounts and permissions.

Adjust User Roles and Permissions:

Identify the accounts associated with junior IT staff.

For each user account, adjust the role to Read-Only if you want them to have view-only access without making configuration changes.

Alternatively, set their permissions to exclude configuration changes. This may involve assigning a custom role with limited access based on your needs.

Enable Configuration Lock (if available):

Some versions of iDRAC offer a Configuration Lock feature, which prevents any configuration changes until the lock is removed by an administrator.

Navigate to Configuration > System Security or User Authentication, depending on the version, and enable the Configuration Lock option.

Set Up Two-Factor Authentication (Optional):

For added security, enable Two-Factor Authentication under iDRAC Settings > Network or Security settings. This step ensures

only authorized users can access and make changes to the iDRAC UI.

Save and Apply Security Changes:

After setting up the desired restrictions and permissions, save the settings to apply the changes. Verify that junior IT staff accounts now have restricted access and cannot make configuration changes.

Log Out and Test the Changes:

Log out of the administrator account and log in with a junior IT staff account to confirm that the permissions are set correctly.

Ensure that configuration changes are disabled and that the user can only view the iDRAC interface as per the restrictions.

By following these steps, you can restrict junior IT staff from making any configuration changes within the iDRAC interface, thus preventing accidental or unauthorized modifications.

NEW QUESTION # 251
