# NIS-2-Directive-Lead-Implementer Related Exams, NIS-2-Directive-Lead-Implementer Training Pdf

2026 Latest Pass4cram NIS-2-Directive-Lead-Implementer PDF Dumps and NIS-2-Directive-Lead-Implementer Exam Engine Free Share: https://drive.google.com/open?id=1yMdyUzoXYE5z9_1w2Do9eVRcVsZmDztX

The client can try out and download our NIS-2-Directive-Lead-Implementer training materials freely before their purchase so as to have an understanding of our product and then decide whether to buy them or not. The website pages of our product provide the details of our NIS-2-Directive-Lead-Implementer learning questions. You can see the demos which are part of the all titles selected from the test bank and the forms of the questions and answers and know the form of our software on the website pages of our NIS-2-Directive-Lead-Implementer study materials.

PECB NIS-2-Directive-Lead-Implementer Exam Syllabus Topics:

Topic	Details
Topic 1	• Cybersecurity controls, incident management, and crisis management: This domain focuses on Security Operations Managers and Incident Response Coordinators and involves implementing cybersecurity controls, managing incident response activities, and handling crisis situations. It ensures organizations are prepared to prevent, detect, respond to, and recover from cybersecurity incidents effectively.
Topic 2	• Fundamental concepts and definitions of NIS 2 Directive: This section of the exam measures the skills of Cybersecurity Professionals and IT Managers and covers the basic concepts and definitions related to the NIS 2 Directive. Candidates gain understanding of the directive's scope, objectives, key terms, and foundational requirements essential to lead implementation efforts effectively within organizations.
Topic 3	• Cybersecurity roles and responsibilities and risk management: This section measures the expertise of Security Leaders and Risk Managers in defining and managing cybersecurity roles and responsibilities. It also covers comprehensive risk management processes, including identifying, assessing, and mitigating cybersecurity risks in line with NIS 2 requirements.

Topic 4	• Planning of NIS 2 Directive requirements implementation: This domain targets Project Managers and Implementation Specialists focusing on how to initiate and plan the rollout of NIS 2 Directive requirements. It includes using best practices and methodologies to align organizational processes and cybersecurity programs with the directive's mandates.
Topic 5	• Testing and monitoring of a cybersecurity program: This domain assesses the abilities of Security Auditors and Compliance Officers in testing and monitoring the effectiveness of cybersecurity programs. Candidates learn to design and conduct audits, continuous monitoring, performance measurement, and apply continual improvement practices to maintain NIS 2 Directive compliance.

Pass Guaranteed Quiz 2026 NIS-2-Directive-Lead-Implementer: Unparalleled PECB Certified NIS 2 Directive Lead Implementer Related Exams

The high quality and high efficiency of our NIS-2-Directive-Lead-Implementer exam materials has helped many people pass exams quickly. After they get a NIS-2-Directive-Lead-Implementer certificate, they now have more job opportunities. And you can just look at the feedbacks from our worthy customrs on the website thanking for our NIS-2-Directive-Lead-Implementer learning guide. The current situation is very serious. Selecting our NIS-2-Directive-Lead-Implementer training guide is your best decision.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q63-Q68):

NEW QUESTION # 63
Scenario 7:CleanHydro is a forward-thinking company operating in the wastewater industry. Based in Stockholm, Sweden, the company is dedicated to revolutionizing wastewater treatment processes using advanced automated technology aiming to reduce environmental impact.
Recognizing the paramount importance of robust cybersecurity measures to protect its advanced technologies, CleanHydro is committed to ensuring compliance with the NIS 2 Directive. In line with this commitment, the company has initiated a comprehensive employee training program. To do so, the company adheres to Sweden's national cybersecurity strategy, which includes objectives, governance frameworks to guide strategy implementation and define roles and responsibilities at the national level, risk assessment mechanism, incident preparedness measures, a list of involved authorities and stakeholders, and coordination policies.
In addition, CleanHydro engaged GuardSecurity, an external cybersecurity consultancy firm, to evaluate and potentially improve the cybersecurity infrastructure of the company to ensure compliance with the NIS 2 Directive. GuardSecurity focused on strengthening the risk management process of the company.
The company started determining competence development needs by considering competence levels, comparing them with required competence levels, and then prioritizing actions to address competence gaps found based on risk-based thinking. Based on this determination, the company planned the competence development activities and defined the competence development program type and structure. To provide the training and awareness programs, the company contracted CyberSafe, a reputable training provider, to provide the necessary resources, such as relevant documentation or tools for effective training delivery. The company's top management convened a meeting to establish a comprehensive cybersecurity awareness training policy. It was decided that cybersecurity awareness training sessions would be conducted twice during the onboarding process for new employee to instill a culture of cybersecurity from the outset and following a cybersecurity incident.
In line with the NIS 2 compliance requirements, CleanHydro acknowledges the importance of engaging in communication with communities consisting of other essential and important entities. These communities are formed based on industry sectors, critical infrastructure sectors, or other relevant classifications. The company recognizes that this communication is vital for sharing and receiving crucial cybersecurity information that contributes to the overall security of wastewater management operations.
When developing its cybersecurity communication strategy and setting objectives, CleanHydto engaged with interested parties, including employees, suppliers, and service providers, to understand their concerns and gain insights. Additionally, the company identified potential stakeholders who has expressed interest in its activities, products, and services. These activities aimed to contribute to the achievement of the overall objectives of its cybersecurity communication strategy, ensuring that it effectively addressed the needs of all relevant parties.
Does CleanHydro's approach for conducting cybersecurity awareness training sessions at specific times align with best practices? Refer to scenario 7.

- A. No, according to best practices, cybersecurity awareness training should only be conducted annually for all employees
- B. Yes, onboarding and post-incident awareness training sessions are in alignment with best practices
- C. No, according to best practices, there are three crucial moments for delivering cybersecurity awareness training: onboarding, post-incident, and continuous training

Answer: B

NEW QUESTION # 64

Should the organization's departments be informed in advance about the internal audit?

- A. Yes, it is crucial to provide prior notification to the departments
- B. No, the audit should aim for an accurate assessment of the departments' current status; informing departments may allow them time to cover issues
- C. No, it is against audit principles to inform departments in advance about the internal audit

Answer: A

NEW QUESTION # 65

Which of the following statements regarding critical entities is correct?

- A. Critical entities must provide one or more essential services and must have their critical infrastructure within the territory of the respective Member State
- B. Critical entities are obligated to report only their names and relevant (sub)sectors to competent authorities
- C. Member States can exclusively rely on self-registration mechanisms for the identification and reporting of all critical entities, with no direct oversight from the competent authorities

Answer: A

NEW QUESTION # 66

What is the required frequency for Member States to update the register of entities?

- A. Every two years
- B. Every year
- C. Every six months

Answer: A

NEW QUESTION # 67

What does integration testing involve?

- A. Testing and analyzing the functionality of each individual module in isolation
- B. Both A and B, depending on the objectives of the organization
- C. Testing combination of modules as a group to analyze their interactions and functionality

Answer: C

NEW QUESTION # 68

......
