PMI-PMOCP Online Prüfung - PMI-PMOCP Simulationsfragen

In vielen Situationen erwerben wir noch keine zufriedenstellende Wirkung, wenn wir viel Geld und Zeit ausgeben. Die richtige Methode spielt eine entscheidende Rolle. Wir ZertPruefung Team widmet sich, die beste Methode für Sie zu entwickeln, PMI PMI-PMOCP Prüfung zu bestehen. Von dem Punkt, wenn Sie unsere PMI PMI-PMOCP Prüfungsunterlagen auswählen, bieten wir Ihnen umfassende Garantien. Kostenlose Probe vor dem Kauf, Bezahlungssicherheit beim Kauf, einjährige kostenlose Aktualisierung nach dem Kauf der PMI PMI-PMOCP Unterlagen und die volle Rückerstattung für den Durchfall der PMI PMI-PMOCP Prüfung usw. Alle zusammen sind unsere Expression der Garantie für die Interesse der Kunden.

PMI Project Management Office Certified Professional PMI-PMOCP Prüfungsfragen mit Lösungen (Q11-Q16):

11. Frage

A PMO was recently established to support the organization's new strategy following a global restructuring process. Which two actions should the PMO leader take to effectively identify the expectations of PMO customers?

(Choose 2)

- A. Survey all employees to gather general feedback on the PMO's role and impact on the organization.
- **B. Establish a feedback loop with PMO customers to continuously gather insights on how the PMO can better support their needs.**
- C. Analyze past performance reports of the company's projects to create a catalog of services for the PMO.
- D. Review existing PMO guidelines and processes to ensure alignment with assumed customers' needs.
- **E. Conduct one-on-one interviews with C-suite executives to understand their strategic goals and how the PMO can support achieving them.**

Antwort: B,E

Begründung:

Effectively identifying PMO customer expectations requires direct engagement with key stakeholders.

Establishing continuous feedback loops (Option C) promotes ongoing communication and responsiveness.

Conducting one-on-one interviews with executives (Option D) ensures strategic alignment and understanding of top-level goals.

Reviewing guidelines or past reports (Options A and B) provides context but does not substitute for direct stakeholder input.

Surveying all employees (Option E) is broad and less focused on PMO customers.

PMI-PMOCP Governance emphasizes stakeholder engagement and feedback as foundational for service alignment.

12. Frage

The PMO has decided to expand its services by including project prioritization and status reporting to better visualize project execution.

Which action should the PMO professional take next?

- A. Employ new PMO team members to help provide the requested services.
- **B. Identify the PMO customers' needs and determine the most effective approach to meet expectations.**
- C. Conduct regular project audits and reviews to ensure compliance and high quality.
- D. Develop new services and frameworks to ensure they are appropriately planned for implementation.

Antwort: B

Begründung:

When expanding PMO services, the first step is to engage with PMO customers to understand their needs and expectations. PMI-PMOCP stresses that customer-centric service design ensures relevance, adoption, and value delivery. By identifying and analyzing needs, the PMO can tailor its approach to prioritization and reporting effectively.

Options B, C, and D are subsequent actions that rely on understanding customer requirements first to be effective.

13. Frage

An organization hired a new PMO professional to enhance an existing PMO that is facing several challenges.

Following an initial assessment, the PMO professional identified that the PMO is seen as overly technical and lacking alignment with the organization's business objectives.

What actions should the PMO professional take to improve the PMO's alignment with business needs?

- **A. Collect the business requirements and customer needs within the organization.**
- B. Implement accepted industry practices in portfolio, program, and project management.
- C. Simplify the current methodologies and procedures.
- D. Develop the PMO team's competencies and capabilities.

Antwort: A

Begründung:

To align the PMO with business objectives, the PMO professional must first gather and understand the organization's business

requirements and customer needs. PMI-PMOCP emphasizes that alignment begins with a clear understanding of what the business values and expects. Collecting this information ensures the PMO tailors its services, governance, and delivery to meet organizational goals effectively.

Enhancing team competencies (option B), implementing industry best practices (option C), or simplifying methodologies (option D) are important but secondary actions. Without understanding business requirements, such efforts risk misalignment. Therefore, capturing business needs provides a foundation for all subsequent PMO improvements.

14. Frage

A well-established PMO in the banking sector has decided to evolve the company's current project management practices as an element of its mandate to drive organizational project management maturity.

However, the proposed changes were received with skepticism by the leadership team due to concerns about the impact on delivery throughput. The PMO professional was asked to address these concerns.

How should the PMO professional begin to address this issue?

- **A. Demonstrate success stories of accelerated project delivery from more mature organizations to the leadership team.**
- B. Prepare a detailed communication with Q&A about streamlining the current project management practices.
- C. Develop a map of proposed changes that do not affect delivery speed and resubmit the proposal to the leadership team.
- D. Deliver training sessions, which are already within the PMO mandate, and work toward achieving higher project management maturity through them.

Antwort: A

Begründung:

When faced with resistance to change, especially from leadership concerned about impacts on project delivery, a PMO professional should build credibility and alignment by demonstrating evidence-based outcomes. PMI-PMOCP guidance emphasizes the importance of using real-world success stories from more mature organizations to show how improved project management practices can accelerate delivery, reduce risk, and enhance overall performance. This approach helps alleviate fears rooted in uncertainty and illustrates tangible benefits.

Simply redesigning proposals to avoid affecting delivery speed (option A) may not convince leadership without proof. Training sessions (option C) and communications (option D) are supportive but less persuasive initially. Demonstrating accelerated delivery through examples aligns with the strategic alignment role of the PMO, influencing leadership buy-in and fostering organizational maturity advancement.

15. Frage

A junior team member is assigned to a project that uses a unique, in-house methodology. What should the PMO professional do to ensure the junior team member is productive within the shortest possible time?

- **A. Assign a more senior team member to mentor and guide the junior team member.**
- B. Monitor the performance of the junior team member and provide training when required.
- C. Schedule a refresher training on the methodology for all project team members.
- D. Provide the junior team member with the methodology study guide for self-study.

Antwort: A

Begründung:

Assigning a mentor to a junior team member accelerates learning and integration, especially with unique or complex methodologies. PMI-PMOCP recognizes mentoring as an effective knowledge transfer and support mechanism, fostering quicker adaptation and improved performance.

While monitoring (option A) and training (option D) are useful, mentorship provides continuous, contextual guidance. Self-study (option B) alone may be insufficient for rapid proficiency.
