DEP-2025 Practice Exams, Latest Edition Test Engine

DEP-2025 questions & answers are valid, covering the whole chapter in the actual test and the key points. You can take DEP-2025 pdf torrent as your study reference. After you get the DEP-2025 exam dumps, do not worry about the update, because one year free update is provided to you. Please pay attention to your payment email and check if there is any DEP-2025 Updated Dumps. Dear, if you have any questions about DEP-2025 study torrent, you can contact us by email or online chat as you like. In addition, we have money back guarantee, in case of failure, we will give you full refund.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 2	<ul style="list-style-type: none"> Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 3	<ul style="list-style-type: none"> Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.

Topic 4	<ul style="list-style-type: none"> • Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 5	<ul style="list-style-type: none"> • Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 6	<ul style="list-style-type: none"> • Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 7	<ul style="list-style-type: none"> • Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 8	<ul style="list-style-type: none"> • Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.
Topic 9	<ul style="list-style-type: none"> • Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 10	<ul style="list-style-type: none"> • Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 11	<ul style="list-style-type: none"> • Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 12	<ul style="list-style-type: none"> • Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.

Apple Deployment and Management Exam Sample Questions (Q131-Q136):

NEW QUESTION # 131

What's the benefit of using configuration profiles?

- A. Improves network performance
- B. Simplifies enrollment
- C. Separates personal and managed data
- **D. Enhances device security**

Answer: D

Explanation:

Configuration profiles enhance device security by allowing IT administrators to enforce policies such as passcode requirements, app restrictions, and encryption settings. Deployed via MDM or manually, they ensure devices meet organizational security standards. Network performance (option B) is improved by content caching, not profiles. Data separation (option C) is a User Enrollment feature. Simplified enrollment (option D) aligns with ADE. The Apple Platform Deployment Guide emphasizes security as a primary benefit of configuration profiles.

Reference: Apple Platform Deployment Guide (Chapter: Configuration Profiles).

NEW QUESTION # 132

How can organizations enable and manage access to beta releases of Apple operating systems through MDM?

- **A. Enroll devices in the Apple Beta Software Program using MDM.**
- B. Enroll devices in Mac Evaluation Utility using MDM.
- C. Configure MDM to access Feedback Assistant.
- D. Configure MDM to restrict Mac Evaluation Utility.

Answer: A

Explanation:

MDM manages beta enrollment. The Mobile Device Management Protocol Reference states, "MDM can enroll devices in the Apple Beta Software Program by pushing a profile with beta update settings." References: Mobile Device Management Protocol Reference, "Software Updates" section. Apple Platform Deployment Guide, "Beta Management" section.

NEW QUESTION # 133

Which feature in Apple Business Manager or Apple School Manager allows you to assign apps to users or devices?

- A. Automated Device Enrollment
- **B. Managed Distribution**
- C. User Enrollment
- D. Volume Purchase Program

Answer: B

Explanation:

Managed Distribution in Apple Business Manager (ABM) and Apple School Manager (ASM) enables administrators to assign apps (purchased or free) to users or devices via an MDM solution. It replaced the legacy Volume Purchase Program (VPP, option D), integrating app purchasing and distribution into ABM/ASM. Automated Device Enrollment (option A) is for device enrollment, not app assignment. User Enrollment (option C) is a BYOD enrollment type, not an app distribution feature. The Apple Business Manager User Guide details Managed Distribution as the mechanism for app assignment.

NEW QUESTION # 134

What can you do with Apple Configurator for Mac in iPad deployments?

- A. Remotely control devices without requiring physical access to them
- B. Replace iCloud for backing up biometric data on iPad devices
- **C. Enroll devices in MDM**
- D. Update Apple device operating systems without using the internet

Answer: C

Explanation:

Apple Configurator for Mac is a powerful utility for provisioning and preparing iOS and iPadOS devices.

According to Apple Learning, one of its key uses is to enroll devices in MDM. This can be done by preparing devices with enrollment profiles, supervising them, and optionally assigning them to Apple Business Manager for Automated Device Enrollment. Configurator cannot remotely control devices - physical access is required. OS updates are still downloaded from Apple servers, though Configurator can facilitate the restore or update process. It also does not replace iCloud backups, especially for biometric data, which is never exportable. Its central role in deployments is enabling supervision, enrollment, and assignment of devices to MDM servers. This makes Configurator essential for environments where devices are not purchased directly from authorized resellers.

References: Apple Configurator Guide - "Use Apple Configurator for iOS and iPadOS enrollment."

NEW QUESTION # 135

Which type of enrollment requires supervision?

- A. Device Enrollment
- B. User Enrollment

- C. Automated Device Enrollment

Answer: C

Explanation:

Automated Device Enrollment (ADE), used with Apple Business Manager or Apple School Manager, automatically supervises devices during setup, enabling advanced restrictions and management. Supervision is a default outcome of ADE for organization-owned devices. Device Enrollment (option B) can include supervision if paired with tools like Apple Configurator, but it's not inherent. User Enrollment (option C) is for BYOD and doesn't support supervision to protect user privacy. The Apple Platform Deployment Guide ties supervision to ADE.

NEW QUESTION # 136

.....

This format is for candidates who do not have the time or energy to use a computer or laptop for preparation. The DEP-2025 PDF file includes real DEP-2025 questions, and they can be easily printed and studied at any time. VCEngine regularly updates its PDF file to ensure that its readers have access to the updated questions.
