# Nutanix Certified Professional - Unified Storage v6.5 Sample Questions (Q25-Q30):

**NEW QUESTION # 25**
An administrator is required to provide a summary of metrics to the Security team.
The entity information being asked for by the Security team is as follows:
* Total folders where permissions are tracked
* Size of those folders
* Total unique users
* Total unique groups
In which product and dashboard would the administrator find all the requested data?

- A. File Analytics File Operations
- B. Data Lens - Recommendations
- C. Data Lens Footprint Widget
- D. File Analytics - Top Users

**Answer: C**

**NEW QUESTION # 26**
Which two statements are true about object counts in an object store? (Choose two.)

- A. Each upload of a multipart upload is counted as a separate object until the object is finalized.
- B. upload counts are not included in the object counts at the bucket level,
- C. Upload counts are included in the object counts at the bucket level.
- D. each upload of a multipart upload is counted as a separate object.

**Answer: A,C**

Explanation:
Upload counts are a metric that shows how many objects have been uploaded to a bucket in a given time period. Multipart uploads are a way of uploading large objects by splitting them into smaller parts and uploading them separately. Each part is counted as an object until they are combined into a single object when the upload is finalized.
