

300-445 Reliable Test Preparation, 300-445 Reliable Torrent

P.S. Free & New 300-445 dumps are available on Google Drive shared by Actual4dump: https://drive.google.com/open?id=1JkJTXjqoytIFvjWD7-wwjgSp4Wo_HLp0

Keeping the dynamic Designing and Implementing Enterprise Network Assurance (300-445) exam content in mind, we provide updated and reliable 300-445 test material. We also offer free Cisco Dumps updates for up to 1 year after your purchase. We only provide cost-effective Designing and Implementing Enterprise Network Assurance (300-445) exam practice material. A 24/7 customer service can also help you in case of any problem. Don't wait for your success if the best Designing and Implementing Enterprise Network Assurance (300-445) exam preparation material is available on our platform. You can get actual Designing and Implementing Enterprise Network Assurance (300-445) exam questions and prepare for your test in a short time. If you have any issue, please contact our customer support.

Cisco 300-445 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Platforms and Architecture: This domain covers understanding monitoring agent types and placement, active versus passive monitoring, and ThousandEyes WAN Insights. It addresses Cisco platform integrations, metric baselines, and selecting appropriate integration methods and assurance platforms based on business requirements.
Topic 2	<ul style="list-style-type: none">Data Collection Implementation: This domain focuses on deploying enterprise and endpoint agents across infrastructure and end-user devices. It covers configuring network, DNS, voice, web, and endpoint tests using ThousandEyes and Meraki Insights, along with implementing synthetic web tests and authentication methods.
Topic 3	<ul style="list-style-type: none">Data Analysis: This domain encompasses diagnosing network issues like packet loss, congestion, routing, and jitter, plus end-device problems. It includes analyzing web application performance and identifying security threats such as DDoS attacks, DNS hijacking, and BGP hijacking.

Topic 4	<ul style="list-style-type: none"> • Insights and Alerts: This domain addresses configuring alert rules based on network conditions and end-user experience factors. It covers selecting metrics for stakeholders, validating alerts, and recommending network optimization for capacity planning.

300-445 Reliable Torrent - Test 300-445 Pdf

You may be given the Cisco 300-445 practice exam results as soon as they have been saved in the software. Actual4dump modified Cisco 300-445 exam dumps allow students to learn effectively about the real Cisco 300-445 Certification Exam. Cisco 300-445 practice exam software allows students to review and refine skills in a preceding test setting.

Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q68-Q73):

NEW QUESTION # 68

What Meraki platform supports ThousandEyes?

- A. All of the above
- B. **Meraki MX (Security Appliances)**
- C. Meraki MV (Smart Cameras)
- D. Meraki MG (Cellular Gateways)
- E. Meraki MR Series (Wireless Access Points)
- F. Meraki MS Series (Switches)

Answer: B

Explanation:

According to the Designing and Implementing Enterprise Network Assurance (300-445 ENNA) curriculum, the native integration of ThousandEyes within the Meraki portfolio is specifically focused on the Meraki MX security and SD-WAN appliances. This integration allows users to install ThousandEyes Enterprise Agents directly on supported Meraki MX hardware, providing critical visibility into the performance of services that distributed users rely on.⁴ The Meraki MX (Option A) supports the ThousandEyes Enterprise Agent as a containerized service that can be activated with a single click within the Meraki Dashboard.⁵ This integration is designed to provide better monitoring and testing capabilities for customers interested in improving the quality of their experience and adding the appropriate SD-WAN policies to optimize network performance. By running the agent natively on the MX, administrators can monitor the performance of external applications and services directly from the SD-WAN sites, bridging the gap between local branch health and global internet performance.⁶ While Cisco continues to expand its assurance integrations across the portfolio, the MR (Wireless), MS (Switching), MV (Camera), and MG (Cellular) series do not currently support the native, "on-box" execution of the ThousandEyes Enterprise Agent. For these other platforms, visibility is typically achieved through passive monitoring via Meraki Insight (MI) or by deploying ThousandEyes agents on connected client devices (Endpoint Agents) or nearby infrastructure. Therefore, the Meraki MX is the only verified platform supporting native ThousandEyes agent deployment in this context.

NEW QUESTION # 69

Which integration type facilitates seamless data exchange between Cisco technologies and third-party applications?

- A. Alerting thresholds
- B. **API integration**
- C. Open telemetry
- D. SNMP integration

Answer: B

Explanation:

API integration facilitates seamless data exchange between Cisco technologies and third-party applications, enhancing interoperability and extensibility.

NEW QUESTION # 70

Which Cisco technology facilitates endpoint agent deployment through Secure Client?

- A. Webex Control Hub
- B. Cisco Catalyst Manager
- C. **Meraki**
- D. vManage

Answer: C

Explanation:

Meraki facilitates endpoint agent deployment through Secure Client, ensuring secure and efficient deployment across the enterprise network.

NEW QUESTION # 71

Which integration type facilitates the exchange of network data between Cisco technologies and external monitoring tools?

- A. **API**
- B. SNMP
- C. Syslog
- D. SMTP

Answer: A

Explanation:

API (Application Programming Interface) facilitates the exchange of network data between Cisco technologies and external monitoring tools by providing a standardized method for data communication and interoperability, enabling seamless integration and automation of monitoring processes to enhance network visibility and management.

NEW QUESTION # 72

Which optimization recommendation is based on network capacity planning and data interpretation?

- A. Server hardware upgrade
- B. **Topology and configuration changes**
- C. Software patching
- D. Firmware update

Answer: B

Explanation:

Topology and configuration changes are recommended for network capacity planning based on data interpretation, ensuring optimized network performance and scalability.

NEW QUESTION # 73

.....

Nowadays, there are more and more people realize the importance of 300-445, because more and more enterprise more and more attention it. If someone pass the 300-445 exam and own relevant certificates that mean he had good grasp of this field of knowledge, that is to say, he will be popular and valued by more enterprise. In order to help most candidates who want to Pass 300-445 Exam, so we compiled such a study materials to make exam simply. Our 300-445 guide torrent has gone through strict analysis and summary according to the past exam papers and the popular trend in the industry and are revised and updated according to the change of the syllabus and the latest development conditions in the theory and the practice.
