Exam C-ACDET-2506 Overview | Lab C-ACDET-2506 Questions

As we all know, for candidates all they do is to pass the exam. If you choose us, we will help you pass the exam successfully. With the pass rate is 98.65% for C-ACDET-2506 study materials, we can ensure you pass the exam, and we also pass guarantee and money back guarantee if you fail to pass the exam. Besides, we have the skilled professionals to compile and verify the C-ACDET-2506 Exam Brindumps, they have covered most knowledge points of the exam. C-ACDET-2506 study materials contain both questions and answers, and you can have a quickly check after practicing.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q56-Q61):

NEW QUESTION # 56

What is the key role of the SAP Deployment Lead assigned to the project?

- A. To advise the customer and partner in solution configurations
- B. To perform configuration changes required to the SAP Ariba Strategic Sourcing suite solutions
- C. To act as the liaison between the customer and SAP Support in resolving technical issues and manage customer escalations
- D. To Test and Validate the solution prior to go-live

Answer: C

NEW QUESTION # 57

The customer wants to have a field to hold Contract Storage Locations and the address. Those locations are loaded from an external system, and the user should be able to search for storage locations. What should be used to hold the valid storage locations?

- **A. You should create a new FI ex Master Data (FMD) Template with appropriate attributes and call it Storage Location. Once the template is published and sample data loaded, you can create a custom field and select the type Storage Location**
- B. Create a new field of type Text, with a custom Validation where the available Storage Locations are listed.
- C. You should load a new Enumeration Type and call it Storage Location and load the location addresses. Create a new field of type Enumeration with a custom filter to only Enumerations of type show Storage Locations.
- D. Create a new field of type Date, where each date entry is tied to a unique Storage Location and its corresponding address, allowing users to select locations based on historical data entries.

Answer: A

NEW QUESTION # 58

Which of the following data elements must be manually loaded into the Production environment after full configuration migration is completed using the Intelligent Configuration Manager (ICM)? Note: There are 2 correct answers to this question.

- A. Units of Measure
- **B. Relation and Relation Entries**
- **C. Enumerations**
- D. User to Group Mapping

Answer: B,C

NEW QUESTION # 59

When performing migration to production for a greenfield customer, which item needs to be made available in production prior to creating the migration in ICM?

- A. Approval Rules
- B. Translations
- **C. Users**
- D. Locations

Answer: C

NEW QUESTION # 60

You need to revise a published form template. What steps do you follow?

- A. Delete and recreate
- **B. Create a new version, edit, test, and publish**
- C. Edit directly in production
- D. Clone and change ID

Answer: B

Explanation:

SAP Ariba requires that revisions to published form templates be handled through creating a new version of the template, then editing and testing the draft version before publishing it. The system maintains the prior published version active while you work on the new draft, ensuring no disruption. Cloning and changing IDs is unnecessary and not best practice. Direct edits on published templates are not permitted, and deleting and recreating loses version history and control. This versioning mechanism supports safe, auditable template changes.
