There is no need to go through time-taking installations or agitating plugins to use this format. It will lead to your convenience while preparing for the Virginia Insurance Virginia-Life-Annuities-and-Health-Insurance Certification test. Above all, it operates on all browsers: Mozilla, Safari, Opera, Google Chrome, and Internet Explorer.

Virginia Insurance Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Sample Questions (Q255-Q260):

NEW QUESTION # 255

A coordination of benefits provision is included in group health insurance to reduce:

- A. Waiting periods
- **B. Overinsurance**
- C. Dependent coverage
- D. Probationary periods

Answer: B

Explanation:

Detailed Answer in Step-by-Step Solution:

* The coordination of benefits (COB) provision prevents overinsurance (B) by ensuring that total payments from multiple group plans don't exceed 100% of covered expenses, avoiding duplication.

* It doesn't affect dependent coverage (A), probationary periods (C), or waiting periods (D), which are unrelated to claim payments.

The Virginia study guide describes COB as a mechanism to coordinate payments among multiple insurers, reducing overinsurance and ensuring fair claim distribution. Reference: Virginia Life, Annuities, and Health Insurance study guide, section on "Group Health Insurance Provisions."

NEW QUESTION # 256

If a patient with a preferred provider plan chooses to use a non-preferred provider, the patient usually can expect:

- A. To pay the full cost of care
- **B. To have higher out-of-pocket expenses**
- C. A one-year waiting period before re-enrolling in the preferred provider plan
- D. 100% reimbursement for the service provided

Answer: B

Explanation:

Detailed Answer in Step-by-Step Solution:

* In a PPO, using a non-preferred (out-of-network) provider typically results in higher out-of-pocket expenses (A) due to lower reimbursement rates (e.g., 60% vs. 80% in-network) and potential excess charges.

* Option B (full cost) may apply to HMOs, not PPOs, which still offer some coverage. Option C (100% reimbursement) is false. Option D (waiting period) is unrelated to provider choice.

The Virginia study guide explains that PPOs offer flexibility to use out-of-network providers, but at a higher cost to the insured due to reduced coinsurance or additional charges. Reference: Virginia Life, Annuities, and Health Insurance study guide, section on "Managed Care Plans."

NEW QUESTION # 257

A spendthrift clause in a life insurance policy would have NO effect if the beneficiary receives the proceeds as:

- A. Fixed period installments
- B. Fixed amount installments
- **C. One lump sum payment**
- D. Interest-only payments

Answer: C

Explanation:

A spendthrift clause, permitted under Virginia Code § 38.2-3122, protects life insurance proceeds from creditors or the beneficiary's mismanagement by restricting access to the funds. It's effective when proceeds are paid in controlled installments (e.g., options A, B, C), as the insurer retains and distributes the money over time, preventing lump-sum dissipation. Option A (fixed amount installments) pays a set dollar amount periodically, option B (fixed period installments) pays over a set time, and option C (interest-only payments) holds the principal while paying interest-all compatible with spendthrift protection. Option D (one lump sum payment) delivers the full proceeds at once, bypassing the clause's control mechanism, rendering it ineffective since the beneficiary gains unrestricted access. The study guide likely explains this clause as a safeguard for structured payouts, noting that lump-sum elections nullify its purpose, as seen in Virginia case law and NAIC guidelines, making D the correct choice.

NEW QUESTION # 258

Which term in a disability income contract refers to two separate periods of disability that may be counted as one?

- **A. Recurrent**
- B. Renewable
- C. Elimination
- D. Presumptive

Answer: A

Explanation:

The recurrent disability provision allows a relapse of the same disability within a specified time (usually 6 months) to be treated as a continuation of the prior disability, avoiding a new elimination period. Exact extract: "Recurrent disability is one which results from the same cause as a prior disability and occurs within a stated period; it is considered a continuation of the prior claim." Reference:

NEW QUESTION # 259

A disability income insurance policy typically provides coverage for disabilities resulting from:

- A. Sickness only
- B. Occupational accidents only
- **C. Both accidents and sickness**
- D. Accidents only

Answer: C

Explanation:

Individual disability income insurance policies are designed to provide coverage for both accident-related disabilities and sickness-related disabilities, unless otherwise excluded.

Exact Extract (Virginia Disability Insurance Study Guide): "Disability income insurance provides benefits for loss of income due to both accident and sickness." Reference (Virginia Documents / Study Guide):

- Virginia Health Insurance Examination Outline, Disability Income Insurance

NEW QUESTION # 260

.....

We have professional technicians examine the website every day, and if you purchase Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Virginia-Life-Annuities-and-Health-Insurance Learning Materials from us, we can offer you a clean and safe online shopping environment, and if you indeed meet any questions in the process of buying, you can contact us, our technicians will solve the problem for you.
