ISO-IEC-27001-Foundation Learning Mode - 100% Pass ISO-IEC-27001-Foundation - First-grade Test ISO/IEC 27001 (2022) Foundation Exam Practice

BraindumpsPass APMG-International ISO-IEC-27001-Foundation exam dumps are the best reference materials. BraindumpsPass test questions and answers are the training materials you have been looking for. This is a special IT exam dumps for all candidates. BraindumpsPass pdf real questions and answers will help you prepare well enough for APMG-International ISO-IEC-27001-Foundation test in the short period of time and pass your exam successfully. If you don't want to waste a lot of time and efforts on

the exam, you had better select BraindumpsPass APMG-International ISO-IEC-27001-Foundation Dumps. Using this certification training dumps can let you improve the efficiency of your studying so that it can help you save much more time.

APMG-International ISO-IEC-27001-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Framework Design: Framework design is the process of developing a reusable structural foundation that supports and guides the creation and organization of software systems.
Topic 2	<ul style="list-style-type: none">• Risk Management: Risk management is the systematic process of identifying, evaluating, and implementing strategies to reduce or control the impact of potential uncertainties on organizational goals.
Topic 3	<ul style="list-style-type: none">• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.
Topic 4	<ul style="list-style-type: none">• Data Security: Data security refers to protecting digital information—such as that stored in databases or networks—from destruction, unauthorized access, or malicious attacks, ensuring confidentiality and integrity.
Topic 5	<ul style="list-style-type: none">• Compliance: Regulatory compliance refers to an organization's commitment to understanding and adhering to applicable laws, policies, and regulations to operate within established legal and ethical standards.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q27-Q32):

NEW QUESTION # 27

To whom are the information security policies required to be communicated, according to the control in Annex A of ISO/IEC 27001?

- A. Top management
- B. Only staff with accountability for ISMS operation
- C. Employees within the scope of the ISMS
- D. Relevant personnel and relevant interested parties

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.1 (Policies for information security) clearly specifies:

"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties..." This means the communication obligation is not limited to top management (A) or only ISMS staff (B), nor does it stop at employees only (C). Instead, ISO/IEC 27001/27002 mandate a broader scope: all relevant personnel and relevant interested parties must be informed. This ensures both internal stakeholders (employees, contractors, temporary staff) and external interested parties (suppliers, partners, regulators, customers, etc.) receive the right policy communications where applicable. Therefore, the correct and verified answer is D.

NEW QUESTION # 28

Which of the following statements about the differences between an internal audit and a certification audit is true?

An internal audit is conducted at planned intervals and a certification audit is conducted annually An internal audit is known as a 1st party audit and a certification audit is known as a 3rd party audit

- A. Only 2 is true
- B. Only 1 is true
- C. Neither 1 or 2 is true
- D. Both 1 and 2 are true

Answer: A

Explanation:

ISO/IEC 27001 Clause 9.2 requires internal audits to be conducted at planned intervals, but it does not specify an annual frequency. Certification audits, under ISO/IEC 17021 rules, typically occur on a 3-year cycle with annual surveillance, not strictly "annually." This makes statement 1 inaccurate.

Audit types are defined in ISO/IEC 19011:

First-party audits: conducted internally by or on behalf of the organization (internal audits).

Third-party audits: conducted by independent external certification bodies.

Thus, statement 2 is correct. Therefore, the accurate choice is B: Only 2 is true.

NEW QUESTION # 29

Which attribute is NOT a required focus of continual ISMS improvement?

- A. Effectiveness
- B. Suitability
- C. Adequacy
- **D. Importance**

Answer: D

Explanation:

Clause 10.2 (Continual Improvement) specifies that the organization must "continually improve the suitability, adequacy and effectiveness of the information security management system." This makes it clear that three attributes are explicitly required to be addressed:

* Suitability: ensuring the ISMS continues to meet organizational needs in changing contexts.

* Adequacy: ensuring the ISMS covers the necessary scope and provides sufficient control coverage.

* Effectiveness: ensuring the ISMS achieves intended outcomes in protecting information security.

The word "importance" is not part of the continual improvement requirement. Importance is implicit in prioritization of risks and actions, but it is not a required continual improvement attribute in ISO/IEC 27001.

Therefore, option D: Importance is the correct choice as it is not specified.

This distinction reinforces that continual improvement is not about subjective importance, but about systematic enhancement of the ISMS' suitability, adequacy, and effectiveness.

NEW QUESTION # 30

Which output is a required result from risk analysis?

- **A. Determined levels of risk**
- B. Risk treatment control options
- C. Prioritized risks for treatment
- D. Risk acceptance criteria

Answer: A

Explanation:

Clause 6.1.2 (d) states that during risk analysis, the organization shall:

* "assess the potential consequences that would result if the risks identified... were to materialize;"

* "assess the realistic likelihood of the occurrence of the risks identified;"

* "determine the levels of risk."

This makes it clear that the required output of risk analysis is the determined levels of risk. Risk acceptance criteria (A) are set earlier in 6.1.2(a), treatment control options (C) belong to 6.1.3, and prioritization (D) is part of risk evaluation (6.1.2 e). Therefore, the verified correct output is B: Determined levels of risk.

NEW QUESTION # 31

What international standard provides guidance on the integration of ISO/IEC 27001 and the IT Service Management standard?

- A. None of the above
- B. ISO/IEC 27002

- C. ISO/IEC 27013
- D. ISO/IEC 20000-1

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27013 standards:

ISO/IEC 27013 is titled:

"Information technology - Security techniques - Guidance on the integrated implementation of ISO/IEC 27001 and ISO/IEC 20000-1."

This standard provides organizations with specific advice on how to integrate an Information Security Management System (ISMS) with an IT Service Management System (ITSMS). ISO/IEC 20000-1 is the IT Service Management requirements standard, but integration guidance is provided in 27013. ISO/IEC 27002 (A) is guidance for controls, not integration. Option D is incorrect since ISO/IEC 27013 explicitly exists for this purpose.

Therefore, the correct verified answer isB: ISO/IEC 27013.

NEW QUESTION # 32

.....

Some candidates say that they prepare for ISO-IEC-27001-Foundation exam using some exam materials from other site but fail. If you still do not know how to pass exam, our APMG-International ISO-IEC-27001-Foundation actual test will be a clever choice for you now. You will know both dump price and exam quantity should not take into key account. The most key consideration is the quality of ISO-IEC-27001-Foundation Actual Test. If you are afraid of failure please rest assured to purchase our exam questions, I am sure that our ISO-IEC-27001-Foundation actual test will help you pass exam.
