Pass Guaranteed 2026 Cisco 300-745: Designing Cisco Security Infrastructure –Professional Free Sample Questions

If you also need to take the 300-745 exam and want to get the related certification, you can directly select our study materials. We can promise that our 300-745 study question has a higher quality than other study materials in the market. If you want to keep making progress and transcending yourself, we believe that you will harvest happiness and growth. So if you buy and use the 300-745 test dump from our company, we believe that our study materials will make study more interesting and colorful, and it will be very easy for a lot of people to pass their exam and get the related certification if they choose our 300-745 Test Dump and take it into consideration seriously. Now we are willing to introduce the 300-745 exam reference guide from our company to you in order to let you have a deep understanding of our study materials. We believe that you will benefit a lot from our 300-745 study question.

Cisco Designing Cisco Security Infrastructure Sample Questions (Q43-Q48):

NEW QUESTION # 43

A financial company uses a remote access solution that directs all traffic over a secure tunnel.

The company recently received some large ISP bills from the headcounter location. According to traffic analysis during the investigation, most of the network traffic was due to employees spending a lot of time on video conferences provided by a SaaS collaboration company. What must the company modify to reduce the cost without negatively impacting security or employee experience?

- A. Block the video conferencing app when connected on VPN.
- B. Reduce the video resolution size permitted within the SaaS application.
- C. Suggest users to disconnect from the VPN when on video calls.
- D. Split-exclude the video SaaS application from the VPN.

Answer: D

Explanation:

Split-exclusion allows trusted SaaS traffic (such as video conferencing) to bypass the VPN tunnel while keeping all other traffic secured. This reduces bandwidth costs at the headend location without degrading security or employee experience, since traffic to the SaaS provider is still encrypted natively.

NEW QUESTION # 44

A retail company is facing a series of cyberattacks targeting the web servers, which results in disruptions to the online services. Upon investigation, the security team identified that these attacks involved invalid HTTP request headers, which were used to exploit vulnerabilities in the web application. To safeguard the company websites against similar threats in the future, the security team must deploy a security solution specifically designed to detect and block such malicious web traffic. Which security product must be used to protect the websites from similar attacks?

- A. host-based firewall
- B. traditional firewall
- C. web application firewall
- D. antivirus software

Answer: C

Explanation:

A Web Application Firewall (WAF) is specifically designed to protect web servers and applications against attacks such as malformed HTTP requests, invalid headers, and injection attempts. By inspecting HTTP traffic, it blocks malicious requests before they reach the application, safeguarding the company's websites from similar disruptions.

NEW QUESTION # 45

What does watermarking AI generated content prevent?

- A. massive resource consumption
- B. scale changes
- C. deep fakes
- D. harmful content

Answer: C

Explanation:

Watermarking in AI-generated content helps detect and trace synthetic media, which directly mitigates the risk of deep fakes. By embedding hidden identifiers, organizations can verify whether content was created by AI, reducing misuse for impersonation or disinformation.

NEW QUESTION # 46

Which two approaches support secure communication in containerized microservices architectures? (Choose two.)

- A. Mutual TLS between services
- B. Shared service account credentials
- C. Service Mesh with policy enforcement
- D. Static NAT entries

Answer: A,C

Explanation:

Mutual TLS (mTLS) provides encrypted communication and mutual authentication between services. A service mesh enforces centralized security policies and automates secure communication across microservices.

NEW QUESTION # 47

A healthcare organization in the United States recently discovered that a highly confidential report name Records _____ that includes patient records name Patient_Medical_Records _____ was accessed by unauthorized personnel internally. The breach

occurred due to lack of protection measures in place for patient electronic medical records. Which regulatory compliance is directly appropriate and must be adopted?

- A. FISMA
- B. PCI DSS
- **C. HIPAA**
- D. FERPA

Answer: C

Explanation:

The Health Insurance Portability and Accountability Act (HIPAA) is the U.S. regulation that governs the protection of patient medical records and electronic health information. Since the breach involved unauthorized access to patient medical records, HIPAA compliance is directly required.

NEW QUESTION # 48

.....

After successful competition of the Cisco 300-745 certification, the certified candidates can put their career on the right track and achieve their professional career objectives in a short time period. For the recognition of skills and knowledge, more career opportunities, professional development, and higher salary potential, the Designing Cisco Security Infrastructure (300-745) certification exam is the proven way to achieve these tasks quickly.

Certification 300-745 Test Answers: <https://www.itcertmaster.com/300-745.html>

As we all know, if you want to pass the 300-745 exam, you need to have the right method of study, plenty of preparation time, and targeted test materials, Cisco 300-745 Free Sample Questions They are thirstier to success, Cisco 300-745 Free Sample Questions So our professional experts have picked out the most important knowledge for you to memorize, While it is not easy to pass the Certification 300-745 Test Answers - Designing Cisco Security Infrastructure actual test just by your own study, I think a good study material will bring twice the result with half the effort.

Skipping or Guesswork, Therefore, our affordable 300-745 study guide will definitely be gainful opportunity, As we all know, if you want to pass the 300-745 Exam, you need to have the right method of study, plenty of preparation time, and targeted test materials.

Here we listed some of the most important benefits in the 300-745 exam

They are thirstier to success, So our professional Certification 300-745 Test Answers experts have picked out the most important knowledge for you to memorize, While it is not easy to pass the Designing Cisco Security Infrastructure actual test just by your 300-745 own study, I think a good study material will bring twice the result with half the effort.

The competition in today's society is the competition of talents.
