We aim to provide the best service for our customers, and we demand of ourselves and our after sale service staffs to the highest ethical standard, and our C-S4PM-2504 study guide and compiling processes will be of the highest quality. We play an active role in making every country and community in which we selling our C-S4PM-2504 Practice Test a better place to live and work. That is to say, if you have any problem after C-S4PM-2504 exam materials purchasing, you can contact our after sale service staffs anywhere at any time on our C-S4PM-2504 study guide. And our staffs are only waiting for you online.

The customizable mock tests make an image of a real-based SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects (C-S4PM-2504) exam which is helpful for you to overcome the pressure of taking the final examination. Customers of ExamTorrent can take multiple SAP C-S4PM-2504 practice tests and improve their preparation to achieve the C-S4PM-2504 Certification. You can even access your previously given tests from the history, which allows you to be careful while giving the mock test next time and prepare for SAP C-S4PM-2504 certification in a better way.

**Pass Guaranteed Quiz C-S4PM-2504 - SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects –Efficient New Test Pass4sure**

Our delivery speed is also highly praised by customers. Our C-S4PM-2504 exam dumps won't let you wait for such a long time. As long as you pay at our platform, we will deliver the relevant C-S4PM-2504 test prep to your mailbox within 5-10 minutes. Our

company attaches great importance to overall services, if there is any problem about the delivery of C-S4PM-2504 Test Braindumps, please let us know, a message or an email will be available. We are pleased that you can spare some time to have a look for your reference about our C-S4PM-2504 test prep.

## SAP C-S4PM-2504 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• SAP S</li> <li>• 4HANA Cloud Public Edition Implementation: This section of the exam measures the skills of Implementation Consultants and covers the foundational aspects of deploying SAP S</li> <li>• 4HANA Cloud Public Edition in a business environment. It focuses on understanding system architecture, scope definition, and the technical and functional setup required for a successful implementation. The candidate is expected to have a strong grasp of how to execute the necessary configuration and adoption tasks that align with customer-specific requirements.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• SAP Activate Methodology: This section of the exam measures skills of Business Process Architects and covers the structure and practical application of SAP Activate. It includes understanding the phases of the methodology: Discover, Prepare, Explore, Realize, Deploy, and Run, and the use of supporting tools such as SAP Roadmap Viewer and SAP Best Practices. Candidates are expected to demonstrate the ability to apply this methodology to streamline cloud implementation processes and ensure agile delivery.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• Project Management</li> <li>• Organizational Change Management (OCM): This section of the exam measures the skills of Project Managers and covers the key principles of managing SAP cloud implementation projects, including team coordination, stakeholder communication, and change management. It evaluates the ability to lead project activities, manage expectations, and handle resistance during digital transformation. Emphasis is placed on aligning organizational goals with implementation strategies to ensure effective user adoption and project success.</li> </ul>

## SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q42-Q47):

### NEW QUESTION # 42

In which phase do you verify the SAP Best Practices content that meets the customer's business needs, and capture delta requirements? Note: There are 2 correct answers to this question.

- A. Explore
- B. Realize
- C. Discovery
- D. Prepare

**Answer: A,C**

Explanation:

Verifying SAP Best Practices content and capturing delta requirements are critical activities in the SAP Activate methodology to ensure the SAP S/4HANA Cloud Public Edition solution aligns with customer needs. These activities occur in specific phases to set the project scope and identify gaps.

\* Option A: ExploreCorrect. The Explore phase involves Fit-to-Standard workshops where SAP Best Practices are verified against customer needs, and delta requirements (gaps) are captured. TheSAP S/4HANA Cloud Implementation Guidestates, "In the Explore phase, Fit-to-Standard workshops verify SAP Best Practices content to meet customer business needs and capture delta requirements for further configuration."

\* Option B: DiscoveryCorrect. The Discovery phase uses tools like the Digital Discovery Assessment to initially verify Best Practices and identify high-level delta requirements. TheSAP Activate Methodology Guideexplains, "During the Discovery phase, customers verify SAP Best Practices content through assessments like the Digital Discovery Assessment, capturing preliminary delta requirements to define the project scope."

\* Option C: RealizeIncorrect. The Realize phase focuses on configuring the solution and addressing delta requirements, not verifying Best Practices. TheSAP S/4HANA Cloud Study Guidenotes, "Realize phase activities build on the delta requirements captured in Explore, not verifying Best Practices content."

\* Option D: PrepareIncorrect. The Prepare phase sets up the project and initiates change management, not verifies Best Practices or captures delta requirements. TheSAP Activate Methodology Guide clarifies, "The Prepare phase focuses on project setup and planning, with Best Practices verification occurring in Discovery and Explore." Extract from Official Documentation:

\* SAP S/4HANA Cloud Implementation Guide(SAP Help Portal,<https://help.sap.com>): "The Explore phase verifies SAP Best Practices content through Fit-to-Standard workshops, capturing delta requirements, while the Discovery phase initiates this process with tools like the Digital Discovery Assessment."

\* SAP Activate Methodology Guide(SAP Community,<https://community.sap.com>): "In the Discovery phase, customers use assessments to verify Best Practices and identify delta requirements, followed by detailed validation and gap capture in the Explore phase's Fit-to-Standard process." Additional Context:

The Discovery phase provides a high-level validation of Best Practices to scope the project, while the Explore phase dives deeper through Fit-to-Standard workshops, ensuring a comprehensive understanding of gaps. This two-phase approach aligns with SAP's cloud mindset, emphasizing standard processes and early identification of necessary customizations to streamline implementation.

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details phase activities.

SAP Digital Discovery Assessment Guide: Outlines Discovery phase tasks.

### NEW QUESTION # 43

What are objectives of the Executive board as opposed to the Steering Committee? Note: There are 3 correct answers to this question.

- A. To allocate project funding
- B. To approve project goals
- C. To approve the project vision
- D. To set business vision and goals
- E. To approve project results

**Answer: A,C,D**

### NEW QUESTION # 44

When applying a cloud mindset in a greenfield implementation, which of the following should you consider?

Note: There are 2 correct answers to this question.

- A. Use SAP Digital Discovery Assessment
- B. Use quality gates
- C. Ensure transparency on deviations
- D. Use supported extensibility technologies

**Answer: C,D**

Explanation:

A cloud mindset in a greenfield implementation of SAP S/4HANA Cloud Public Edition emphasizes standardization, minimal customizations, and adherence to SAP Best Practices. Specific considerations ensure alignment with this approach.

\* Option A: Use quality gatesIncorrect. While quality gates are part of the SAP Activate methodology, they are not specific to the cloud mindset; they apply to all implementations. TheSAP Activate Methodology Guidestates, "Quality gates are a standard practice in SAP Activate, not unique to the cloud mindset, which focuses on standardization and extensibility."

\* Option B: Ensure transparency on deviationsCorrect. Transparency on deviations from standard processes is critical to maintain cloud compliance and manage technical debt. TheSAP S/4HANA Cloud Implementation Guideexplains, "A cloud mindset requires transparency on deviations fromSAP Best Practices, ensuring that customizations are documented and justified to minimize future upgrade complexities."

\* Option C: Use SAP Digital Discovery AssessmentIncorrect. The Digital Discovery Assessment is a tool used in the Discover phase, not a specific consideration of the cloud mindset. TheSAP S/4HANA Cloud Study Guidenotes, "The Digital Discovery Assessment supports project planning, but the cloud mindset focuses on operational principles like standardization."

\* Option D: Use supported extensibility technologiesCorrect. Using supported extensibility technologies, such as SAP BTP or in-app extensions, ensures cloud-compliant customizations. TheSAP S/4HANA Cloud Extensibility Guideconfirms, "A cloud mindset emphasizes the use of supported extensibility technologies, like SAP BTP and Fiori extensibility apps, to maintain compatibility with SAP S/4HANA Cloud upgrades." Extract from Official Documentation:

\* SAP S/4HANA Cloud Implementation Guide(SAP Help Portal,<https://help.sap.com>): "Applying a cloud mindset in a greenfield

implementation involves ensuring transparency on deviations from standard processes and using supported extensibility technologies to maintain cloud compliance."

\* SAP S/4HANA Cloud Extensibility Guide(SAP Community,<https://community.sap.com>): "The cloud mindset prioritizes supported extensibility technologies, such as SAP BTP, and transparent documentation of deviations to ensure seamless upgrades and system stability." Additional Context:

The cloud mindset is about embracing standardization to leverage SAP's continuous innovation cycles.

Transparency on deviations helps manage customizations, while supported extensibility technologies ensure that extensions are upgrade-safe, aligning with SAP's cloud-first strategy for rapid value delivery.

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP S/4HANA Cloud Extensibility Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details cloud mindset principles.

SAP Activate Methodology: Outlines greenfield implementation considerations.

#### NEW QUESTION # 45

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question.

- A. Conduct end-user training on active scope items.
- B. Determine set up instructions for customer-driven integrations.
- C. Highlight areas that require configuration or customization decisions.
- D. Demonstrate SAP Best Practice business processes in the starter system

**Answer: C,D**

#### NEW QUESTION # 46

Which of the following tools can support you in managing requirements and software development for implementation projects?

Note: There are 2 correct answers to this question.

- A. SAP Focused Run
- B. SAP Cloud ALM
- C. Focused Build for SAP Solution Manager
- D. Focused Insights for SAP Solution Manager

**Answer: B,C**

Explanation:

Managing requirements and software development in SAP S/4HANA Cloud Public Edition implementation projects requires tools that support requirement tracking, development, and delivery, aligning with the SAP Activate methodology.

\* Option A: SAP Cloud ALM Correct. SAP Cloud ALM provides requirements management and supports software development processes for cloud implementations. The SAP Cloud ALM Implementation Guide states, "SAP Cloud ALM supports implementation projects by managing requirements and facilitating software development tasks, ensuring traceability and alignment with project goals."

\* Option B: Focused Insights for SAP Solution Manager Incorrect. Focused Insights provides analytics and dashboards, not requirement or development management. The SAP Solution Manager Documentation notes, "Focused Insights for SAP Solution Manager is for reporting and analytics, not for managing requirements or software development."

\* Option C: Focused Build for SAP Solution Manager Correct. Focused Build extends SAP Solution Manager to manage requirements and software development, particularly for complex projects. The SAP Solution Manager Documentation explains, "Focused Build for SAP Solution Manager supports requirement management and software development, providing tools for agile development and delivery in SAP projects."

\* Option D: SAP Focused Run Incorrect. SAP Focused Run is for system operations and monitoring, not development or requirements. The SAP S/4HANA Cloud Study Guide clarifies, "SAP Focused Run is designed for system operations, not for managing implementation requirements or software development." Extract from Official Documentation:

\* SAP Cloud ALM Implementation Guide(SAP Help Portal,<https://help.sap.com>): "SAP Cloud ALM is a key tool for managing requirements and software development in SAP S/4HANA Cloud Public Edition projects, offering features for requirement tracking and development coordination."

\* SAP Solution Manager Documentation(SAP Community,<https://community.sap.com>): "Focused Build for SAP Solution Manager enables requirement management and software development, supporting agile methodologies for SAP implementation projects."

SAP Cloud ALM is the primary tool for cloud-focused implementations, offering a streamlined, cloud-native approach to requirement and development management. Focused Build, while more suited to on-premise or hybrid scenarios, provides robust capabilities for complex projects, complementing SAP Cloud ALM in certain contexts.

SAP Help Portal: SAP Cloud ALM Implementation Guide (<https://help.sap.com>).
