# Fortinet FCP_FMG_AD-7.6 Questions Tips For Better Preparation 2026

What's more, part of that PrepAwayExam FCP_FMG_AD-7.6 dumps now are free: https://drive.google.com/open?id=1IewlRy-U57-JNMDgxq-C0X_8eej6t7nK

Our experts have been dedicated in this area for more than ten years. They all have a good command of exam skills to cope with the FCP_FMG_AD-7.6 preparation materials efficiently in case you have limited time to prepare for it, because all questions within them are professionally co-related with the FCP_FMG_AD-7.6exam. Our FCP_FMG_AD-7.6 practice braindumps will be worthy of purchase, and you will get manifest improvement. So you have a comfortable experience with our FCP_FMG_AD-7.6 study guide this time.

Fortinet FCP_FMG_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 2	• Administration: This section of the exam measures the skills of System Administrators and covers the essential features of FortiManager. It includes the initial configuration process and the setup of administrative domains (ADOMs), ensuring smooth system management.
Topic 3	• Advanced Configuration: This section of the exam measures the skills of Network Security Engineers and includes knowledge of high availability (HA), FortiGuard service configuration, and global database ADOM settings. These advanced functions help strengthen system reliability and streamline management at a larger scale.

Topic 4	• Device Manager: This section of the exam measures the skills of Network Security Engineers and focuses on registering devices within ADOMs and handling device configurations. Candidates also learn how to install changes through scripts and diagnose issues using the revision history.
Topic 6	• This section of the exam measures the skills of System Administrators and focuses on resolving problems at different levels of FortiManager. Candidates must troubleshoot deployment scenarios, imports, installations, and both device-level and ADOM-level issues, as well as identify and resolve system problems effectively.
Topic 7	• Policy and Objects: This section of the exam measures the skills of System Administrators and evaluates their ability to manage policies and objects within FortiManager. It involves ADOM revisions, workspace mode, and policy imports and installations, emphasizing consistent policy control across networks.

If you want to improve your career prospects then FCP_FMG_AD-7.6 certification is a step in the right direction. Whether you're just starting your career or looking to advance your career, the FCP_FMG_AD-7.6 Certification Exam is the right choice. With the FCP_FMG_AD-7.6 certification you can gain a range of career benefits which include credibility, marketability, validation of skills, and access to new job opportunities.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q65-Q70):

NEW QUESTION # 65
An administrator has enabled Service Access on FortiManager. What is the purpose of Service Access on the FortiManager interface?

- A. It allows FortiManager to respond to requests for FortiGuard services from FortiGate devices.
- B. It allows FortiManager to determine the connection status of managed devices.
- C. It allows administrative access to FortiManager.
- D. It allows third-party applications to gain read/write access to FortiManager.

Answer: A

Explanation:
Select the Fortinet services that are allowed access on this interface. These include FortiGate Updates and Web Filtering. Service access is not enabled on any port by default.

NEW QUESTION # 66
Refer to the exhibit. What can you conclude from the failed installation log shown in the exhibit?

- A. Policy ID 2 is installed in the disabled state.
- B. Policy ID 2 will not be installed.
- C. Policy ID 2 is installed without a source address.
- D. Policy ID 2 is installed without the remote user student.

Answer: D

Explanation:
Similar to the case presented here, but with different end. In the guide, the policy does not install because the element "dstintf" is not

set, and it's mandatory. So, the policy in the end is not installed.

However, the case in the exibit is different. Since "users" is not mandatory, and all the other elements are set, the policy will be created.

After the command "set users student" fails, we're still into the policy id 2 configuration as shown in the prompt: (2). And, after "next", there is no error message, so the policy id 2 was saved.

NEW QUESTION # 67

Refer to the exhibit. How does FortiManager get antivirus and IPS updates?

- A. It gets updates from the server with IP address 10.0.1.50.
- B. It connects to the public FortiGuard servers listed in the configuration.
- C. It uses all URLs in the list that contain the fds host name.
- D. It connects to all servers marked as FortiGuard Distribution Network through Internet (FDNI) sources.

Answer: A

Explanation:

The output shows that Server Override Mode is set to Strict, and the server at index 0 (IP 10.0.1.50, port 8890) is marked with an asterisk *, indicating it is the active FortiGuard server.

Since it was configured via CLI and is at the top of the list, FortiManager will exclusively use this server for antivirus and IPS updates.

NEW QUESTION # 68

Refer to the exhibit. Which two results occur if you run the script using the Device Database option? (Choose two.)

- A. The device Config Status is tagged as Modified.
- B. The script history shows the successful installation of the script on the remote FortiGate.
- C. The administrator must install these changes on a managed device using the Install Wizard.
- D. The successful execution of a script on the Device Database creates a new revision history.

Answer: A,C

Explanation:

Running a script on the Device Database marks the configuration as modified but does not immediately apply changes to the device.

The administrator must use the Install Wizard to push and install these changes from the Device Database onto the managed device.

NEW QUESTION # 69

Refer to the exhibit. Which two statements about the output are true? (Choose two.)

- A. The system template default will override device-level database configurations.
- B. Configuration changes have been installed on FortiGate, updating policy and device-level database.
- C. The latest revision history for the managed FortiGate does not match the device-level database.
- D. The latest revision history for the managed FortiGate does match the FortiManager policy database.

Answer: C,D

Explanation:

- conf. in sync - This is the sync status which shows that the latest revision history is in sync with Fortigate's configuration.

There is a new modification on FortiManager device level DB (dev-db: modified) which wasn't installed to FortiGate (cond: pending).

NEW QUESTION # 70

......

The majority of people encounter the issue of finding extraordinary Fortinet FCP_FMG_AD-7.6 exam dumps that can help them prepare for the actual FCP - FortiManager 7.6 Administrator exam. They strive to locate authentic and up-to-date Fortinet

FCP_FMG_AD-7.6 Practice Questions for the Fortinet FCP_FMG_AD-7.6 exam, which is a tough ask.
