## SAP Certified Associate - Project Manager - SAP Activate Sample Questions (Q80-Q85):

### NEW QUESTION # 80

What findings do you document in the Explore Phase workshops? Note: There are 3 correct answers to this question.

- A. Business role mapping
- B. Confirmation of scope
- C. Key business decisions
- D. Detailed design of extensions
- E. Process models

**Answer: B,C,E**

Explanation:

\* B is correct because key business decisions are one of the findings that you document in the Explore Phase workshops. Key business decisions are the choices that the customer makes regarding their business processes, such as organizational structure, master data, reporting, or integration. These decisions affect the configuration and customization of the solution, and need to be documented and approved by the customer.

\* D is correct because confirmation of scope is one of the findings that you document in the Explore Phase workshops. Confirmation of scope is the validation that the customer agrees with the scope items that are selected for their solution, and that they understand the functionality and limitations of each scope item. This helps to ensure that there are no misunderstandings or misalignments between the customer and the project team.

\* E is correct because process models are one of the findings that you document in the Explore Phase workshops. Process models are graphical representations of the business processes that show the sequence of activities, roles, and systems involved in executing the process. Process models help to visualize and communicate the business requirements and scenarios, and identify any gaps or extensions that need to be addressed. Verified References:

### NEW QUESTION # 81

Which of the following characteristics relate to the Focused Build for SAP Solution Manager Functionality? Note: There are 2 correct answers to this question.

- A. SAP delivers all knowledge required with the solution.
- B. SAP delivers a standard solution without any additional coding required.
- C. SAP delivers all configuration values within your project.
- D. SAP delivers a standard solution with its own separate license.

**Answer: A,B**

Explanation:

Focused Build for SAP Solution Manager is a standardized solution, provided by SAP with all necessary knowledge resources, requiring no additional coding for implementation. This functionality supports efficient project tracking and delivery.

#### NEW QUESTION # 82

What do you do during the sprint retrospective meeting?

- A. Document best practices guided by the Scrum Master.
- B. Plan future sprints with the customer.
- C. Define sprint activities and best practices with the customer.
- D. Discuss best practices with the Scrum Team.

**Answer: A**

Explanation:

During the sprint retrospective, the Scrum Master guides the team in reflecting on the sprint's successes and challenges. Best practices and lessons learned are documented to improve future sprints, fostering continuous improvement.

#### NEW QUESTION # 83

Which system tenant is the first to be provisioned when implementing SAP S/4HANA Cloud, public edition?

- A. SAP Cloud Identity Services
- B. SAP S/4HANA Cloud Sandbox system
- C. Central Business Configuration system
- D. SAP S/4HANA Cloud Development system

**Answer: C**

Explanation:

The Central Business Configuration system is the first tenant provisioned, allowing configuration settings for SAP S/4HANA Cloud, public edition. This system enables centralized and guided configuration of the cloud environment.

#### NEW QUESTION # 84

When working with an Agile approach, what is the minimum planning requirement expected at the beginning of the Realize phase?

- A. Realize phase scope, planning, and budget should be completed and final.
- B. Sprint planning and sprint durations should be defined for the first 2 to 3 sprints.
- C. Release plan and sprint ceremony guidelines should be finalized.
- D. User stories on product backlog should be in ready state for the first 2 to 3 sprints.

**Answer: B**

Explanation:

\* C is correct because in an Agile approach, the planning is done iteratively and incrementally, so the minimum requirement at the beginning of the Realize phase is to have sprint planning and sprint durations defined for the first 2 to 3 sprints. Verified References:
