These DumpsFree C\_WME\_2506 Exam Questions formats are PDF dumps files, desktop practice test software, and web-based practice test software.

## SAP C\_WME\_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Getting Started with Building WalkMe Solutions: This section of the exam evaluates the capabilities of WalkMe implementers and focuses on the practical aspects of creating and configuring WalkMe solutions. It includes understanding the WalkMe Editor, planning solution flows, creating Smart Walk-Thrus, Launchers, and ShoutOuts, and managing end-user guidance effectively. Candidates should be comfortable building initial WalkMe experiences that improve SAP usability and provide contextual help for users navigating SAP applications.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Starting your Digital Adoption Journey: WalkMe Fundamentals: This section of the exam measures the skills of SAP project managers and covers the foundational concepts of digital adoption within SAP environments using WalkMe. Candidates are expected to understand the value of digital adoption platforms, the basic components of WalkMe, and how these tools align with business goals. The section emphasizes knowledge of the user experience within SAP and the ability to identify opportunities for improving digital workflows through in-app guidance and automation.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Advancing your Skills in Building WalkMe Solutions: This section of the exam tests the advanced competencies of functional and business analysts in designing more complex and customized WalkMe solutions within SAP platforms. It requires a deeper understanding of user segmentation, advanced rules and triggers, performance optimization, and the use of analytics to refine user experiences. Candidates are expected to demonstrate their ability to design scalable and impactful guidance that aligns with SAP business processes and drives user adoption across the enterprise.</li> </ul>

By obtaining SAP C\_WME\_2506 certification, you can demonstrate to employers your expertise and knowledge. The SAP world is constantly changing its dynamics. With the SAP C\_WME\_2506 Certification Exam you can learn these changes and stay updated with the latest technologies and trends.

### SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q22-Q27):

#### NEW QUESTION # 22

Which is the syntax that you type into the developer console to check your jQuery selectors using WalkMe?

- A. WMjquery InsertSelectorHere
- B. jQuery("InsertSelectorHere")
- C. **wmjQuery("InsertSelectorHere")**
- D. walkmejQuery("InsertSelectorHere")

**Answer: C**

#### NEW QUESTION # 23

What is the correct order of operations for determining if WalkMe content should appear on the page?

- A. Individual item conditions > Segmentation > Web page loads
- B. **Web page loads > Segmentation > Individual item conditions**
- C. Start Points > Web page loads > Segmentation
- D. Segmentation > Web page loads > Individual item conditions

**Answer: B**

#### NEW QUESTION # 24

In the Editor, a Shuttle has a full green circle next to it when looking at the Production environment. How would you describe the status of this Shuttle?

- A. Draft mode in Test
- B. **Published to Production**
- C. Published to Production but has been modified
- D. Archived in Production

**Answer: B**

**Explanation:**

In the WalkMe Editor, a full green circle next to a content item, such as a Shuttle, in the Production environment indicates that the item is Published to Production and is live for end users. This status confirms that the Shuttle has been successfully deployed without subsequent modifications or archiving.

The other options are incorrect:

- \* Draft mode in Test(A) would show a different icon (e.g., gray or yellow) in the Test environment.
- \* Archived in Production(B) would show an archived status, not a green circle.
- \* Published but modified(C) would display a modified indicator, not a full green circle.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.10: Publishing and Status):

"A full green circle in the Production environment indicates that the content item, such as a Shuttle, is published and active for end users." The course Getting Started with Building WalkMe Solutions states:

"Check the status icon in the Editor: a full green circle in Production means the content is live and published without pending changes." Option D correctly describes the Shuttle's status.

Course: Getting Started with Building WalkMe Solutions, Module 12: Managing Content Status.

**NEW QUESTION # 25**

There is a new process on your site that is crucial for all employees to complete. Users need to navigate to the time submission page, log their time for the quarter, and submit it in the platform. You have created a Smart Walk-Thru for this process. What should be the Goal?

- A. User inputs time into input fields
- B. User is on the site and clicks a submit button
- **C. User is on the time submission page and clicks the submit button**
- D. User navigates to the time submission page

**Answer: C**

**Explanation:**

The Goal of a Smart Walk-Thru defines the successful completion of the intended process, which in this case is employees submitting their quarterly time. The most precise Goal is User is on the time submission page and clicks the submit button, as it confirms both that the user has reached the correct page and completed the submission action, ensuring the process is fully executed. This Goal is measurable in WalkMe Insights and directly aligns with the process's objective.

The other options are less accurate:

- \* User inputs time into input fields(A) is a partial step, not the final outcome.
- \* User clicks a submit button(B) lacks context about the page, risking false positives.
- \* User navigates to the time submission page(C) is incomplete, as navigation alone doesn't ensure submission.

Extract from Official WalkMe Documentation:

Per the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.2:

Smart Walk-Thrus):

"Set Goals to reflect the completion of the process, such as a user reaching a specific page and performing a key action, like clicking a submit button, to track success accurately." The course Getting Started with Building WalkMe Solutions explains:

"For a process like time submission, define the Goal as the user being on the target page and clicking the submit button, capturing the full completion of the task." Option D is the correct Goal for the Smart Walk-Thru.

References:

SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.2: Smart Walk-Thrus.

WalkMe Editor User Guide, "Setting Smart Walk-Thru Goals" Section.

Course: Getting Started with Building WalkMe Solutions, Module 6: Defining Goals.

**NEW QUESTION # 26**

You have just created a few new pieces of content. Now, you are ready to view how they work together and see how they will look from the end user experience before you publish. Which feature will be best to do this?

- A. Play multiple items
- B. Publish Settings
- C. Play
- D. Preview

**Answer: D**

Explanation:

The Preview feature in the WalkMe Editor allows Builders to simulate the end-user experience for multiple pieces of content before publishing. It shows how content (e.g., Smart Walk-Thrus, SmartTips, ShoutOuts) appears and interacts on the page, ensuring they work together seamlessly and look as intended from the user's perspective.

The other options are incorrect:

- \* Play multiple items(A) is not a standard WalkMe feature.
- \* Play(C) typically refers to testing a single Smart Walk-Thru, not multiple content types.
- \* Publish Settings(D) configure deployment options, not preview functionality.

Extract from Official WalkMe Documentation:

Per the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.4: Quality Assurance):

"The Preview feature enables Builders to test multiple pieces of content together, simulating the end-user experience to verify appearance and interactions before publishing." The course Getting Started with Building WalkMe Solution explains:

"Use Preview in the Editor to see how new content will look and function for end users, allowing you to test combinations of content without publishing." Option B, Preview, is the best feature for this purpose.
