Pass Guaranteed Oracle - 1Z0-1042-25 High Hit-Rate Test Discount Voucher
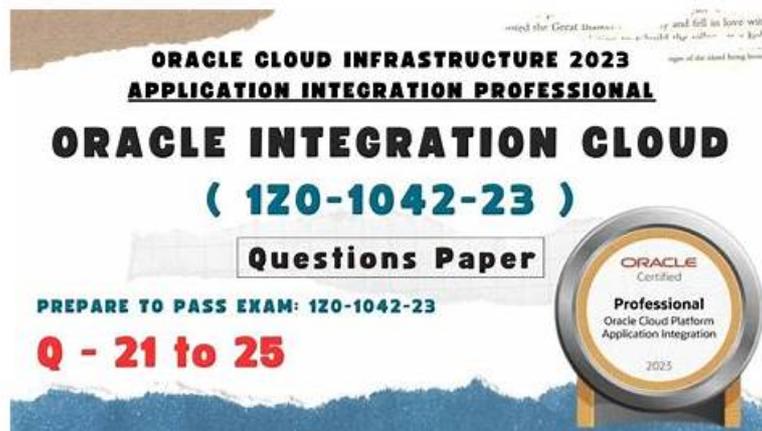

As is known to us, there are best sale and after-sale service of the 1Z0-1042-25 study materials all over the world in our company. Our company has employed a lot of excellent experts and professors in the field in the past years, in order to design the best and most suitable 1Z0-1042-25 study materials for all customers. More importantly, it is evident to all that the 1Z0-1042-25 study materials from our company have a high quality, and we can make sure that the quality of our products will be higher than other study materials in the market. If you want to pass the 1Z0-1042-25 Exam and get the related certification in the shortest time, choosing the 1Z0-1042-25 study materials from our company will be in the best interests of all people. We can make sure that it will be very easy for you to pass your exam and get the related certification in the shortest time that beyond your imagination.

Oracle 1Z0-1042-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Creating Orchestrated Integrations: This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.
Topic 2	• Creating Scheduled Integrations: This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.
Topic 3	• Testing, Monitoring, and Troubleshooting Integrations: This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.
Topic 4	• Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.
Topic 5	• Using OIC Connections & Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.

1Z0-1042-25 Actual Test & 1Z0-1042-25 Accurate Pdf & 1Z0-1042-25 Exam Vce

Our 1Z0-1042-25 practice braindumps not only apply to students, but also apply to office workers; not only apply to veterans in the workplace, but also apply to newly recruited newcomers. And our 1Z0-1042-25 study materials use a very simple and understandable language, to ensure that all people can learn and understand. Besides, our 1Z0-1042-25 Real Exam also allows you to avoid the boring of textbook reading, but let you master all the important knowledge in the process of doing exercises.

Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q77-Q82):

NEW QUESTION # 77
You will be creating and configuring a Connection resource using an Oracle Integration (OIC) File Adapter.
Which set of operations are supported in the Invoke role when leveraging access via a Connectivity agent?

- A. Read, write, list
- B. Read, write, list, move, download, delete
- C. Read, write
- D. Read, write, list, move
- E. Read, write, list, move, download

Answer: B

Explanation:
Comprehensive and Detailed Explanation:
File Adapter with Agent:
C:True-full set of operations.

NEW QUESTION # 78
You are configuring an Oracle ERP Cloud adapter connection invoke action within an Oracle Integration (OIC) integration and have selected to browse by Business (REST) resources. Once you have selected the parent resource, how many child resources can you select?

- A. 0
- B. 1
- C. 2
- D. Unlimited

Answer: D

Explanation:
Comprehensive and Detailed Explanation:
ERP Resources:
C:True-no fixed limit on child resources.

NEW QUESTION # 79
You are tasked with testing an integration that uses a REST trigger in Oracle Integration Cloud (OIC). You have successfully configured the REST adapter, and now you want to verify that the integration functions correctly. What should you do to test the integration?

- A. Perform a SQL query on the associated database to ensure that the expected data is present.
- B. Use the Test button in the integration designer to create a request, validate the response, and review the execution logs.
- C. Export the integration as a .jar file and run it in a local development environment.
- D. Manually trigger the integration by sending an email to a specified email address with the required REST parameters.

Answer: B

Explanation:
Comprehensive and Detailed Explanation:
Testing a REST-triggered integration in OIC involves:
Option C:The Test button in the integration designer allows you to simulate a REST request, view the response, and check logs- the standard testing method.
Option A:Email isn't a valid trigger mechanism for REST integrations.
Option B:OIC integrations are exported as IAR files, not .jar, and testing occurs in the cloud, not locally.

NEW QUESTION # 80
When creating integrations in Oracle Integration Cloud (OIC), a visual mapper enables you to map element nodes between applications by dragging source element nodes onto target element nodes.
Which statement is NOT true about the OIC Data Mapper functionality?

- A. All transformation mappings use eXtensible Stylesheet Language (XSL).
- B. The data structure for the target service is always displayed on the right side in the Designer view.
- C. All Source and Target data objects are represented internally as JSON structures.
- D. When you navigate to the mapper and select a target element, Expression Builder launches in a user-friendly mode by default.
- E. In the Designer view, the Sources section contains data structures of all available data objects, which includes integration metadata, tracking variables, global variables, and integration property values.

Answer: C

Explanation:
Not all Source and Target data objects are represented as JSON structures in OIC; XML and other data formats are also supported. The rest of the statements are true regarding the OIC data mapper functionality.

NEW QUESTION # 81
You are tasked with provisioning a Managed File Transfer (MFT) Cloud Service on Oracle Cloud Infrastructure (OCI).
Which statement is valid concerning MFT provisioning?

- A. Defining virtual machines (compute nodes) for the WebLogic cluster is no longer needed.
- B. MFT requires creating an Oracle SOA Cloud Service instance and choosing "MFT cluster" as the service type.
- C. You must include the B2B cluster configuration since the MFT service runs with B2B document.
- D. Because MFT requires an Oracle ATP database, the database instance must be provisioned in OIC.

Answer: B

Explanation:
MFT requires creating an Oracle SOA Cloud Service instance and choosing "MFT Cluster" as the service type. Oracle MFT is available as part of the SOA Cloud Service. During provisioning, selecting "MFT Cluster" ensures that the appropriate infrastructure is set up for the MFT functionalities.
Defining virtual machines: OCI manages the infrastructure for the SOA service, so you typically wouldn't directly manage virtual machines.
B2B cluster: B2B configurations might be used, but it's not mandatory during initial provisioning.
ATP database: MFT does not require a separate Oracle ATP database, as it utilizes an internal database managed by OCI as part of the SOA service.

NEW QUESTION # 82
