

JN0-105 Web-Based Practice Exam Questions

P.S. Free 2026 Juniper JN0-105 dumps are available on Google Drive shared by VerifiedDumps: https://drive.google.com/open?id=1pUbwY_HmPPy6dpWJD1d6zV0BErNIWsh7

Junos, Associate (JNCIA-Junos) exam tests are a high-quality product recognized by hundreds of industry experts. Over the years, JN0-105 exam questions have helped tens of thousands of candidates successfully pass professional qualification exams, and help them reach the peak of their career. It can be said that JN0-105 test guide is the key to help you open your dream door. We have enough confidence in our products, so we can give a 100% refund guarantee to our customers. JN0-105 Exam Questions promise that if you fail to pass the exam successfully after purchasing our product, we are willing to provide you with a 100% full refund.

The VerifiedDumps Junos, Associate (JNCIA-Junos) (JN0-105) PDF dumps file work with all devices and operating system. You can easily install Junos, Associate (JNCIA-Junos) (JN0-105) exam questions file on your desktop computer, laptop, tabs, and smartphone devices and start Junos, Associate (JNCIA-Junos) (JN0-105) exam dumps preparation without wasting further time. Whereas the other two VerifiedDumps Juniper JN0-105 Practice Test software is concerned, both are the mock Junos, Associate (JNCIA-Junos) (JN0-105) exam that will give you a real-time JN0-105 practice exam environment for preparation.

>> JN0-105 Latest Mock Exam <<

Pass JN0-105 Rate, Test JN0-105 Collection Pdf

It is similar to the JN0-105 desktop-based software, with all the elements of the desktop practice exam. This mock exam can be accessed from any browser and does not require installation. The Junos, Associate (JNCIA-Junos) (JN0-105) questions in the mock test are the same as those in the real exam. And candidates will be able to take the web-based Junos, Associate (JNCIA-Junos) (JN0-105) practice test immediately through any operating system and browsers.

Juniper Junos, Associate (JNCIA-Junos) Sample Questions (Q99-Q104):

NEW QUESTION # 99

Which command displays all IPv6 routes in the default routing instance?

- A. showroute table inet6.1
- B. showroute table inet6.0
- C. showroute table inet.1
- D. showroute table inet.0

Answer: B

Explanation:

In Junos OS, the command to display IPv6 routes in the default routing instance is show route table inet6.0.

The routing table inet6.0 specifically holds IPv6 routes. The command show route table inet.0 is used for IPv4 routes, and inet6.1 or inet.1 (assuming inet.1 is a typo for inet.1) are not standard Junos routing tables for displaying IPv6 routes in the default routing instance.

NEW QUESTION # 100

Which two actions happen when multiple users issue the configure exclusive command to enter configuration mode on a Junos device? (Choose two.)

- A. Other users cannot enter configuration mode.
- B. Other users can enter configuration mode.
- C. The candidate configuration is unlocked.
- D. The candidate configuration is locked.

Answer: A,D

Explanation:

In Junos OS, when a user issues the configure exclusive command, it locks the candidate configuration for that user, preventing other users from making concurrent configuration changes. This exclusive lock ensures that configuration changes are managed in a controlled manner, reducing the risk of conflicting changes. As a result, while one user is in exclusive configuration mode, other users are prevented from entering configuration mode until the lock is released, either by the user committing the changes or exiting configuration mode.

NEW QUESTION # 101

Which two statements are correct about Junos traceoptions? (Choose two.)

- A. Traceoption output, by default, is stored in /var/iog/<file-name>.
- B. Traceoptions are enabled through configuration.
- C. Traceoptions cannot be enabled in a production environment.
- D. Traceoptions are enabled by default.

Answer: A,B

Explanation:

Traceoptions in Junos OS are used for detailed debugging and troubleshooting of protocols and processes within the system. They are not enabled by default due to the potential performance impact and volume of data generated. Instead, traceoptions are enabled through specific configuration settings under the relevant protocol or process hierarchy. This allows administrators to target their troubleshooting efforts and control the scope of logging. By default, the output generated by traceoptions is stored in files located in the /var/log directory, with the file name typically specified in the traceoptions configuration. This structured approach to logging and debugging helps in diagnosing complex issues without overwhelming the system or the administrator with irrelevant data.

NEW QUESTION # 102

Which type of device uses the destination IP address to forward packets?

- A. Layer 2 switch
- B. Layer 3 router
- C. hub
- D. repeater

Answer: B

Explanation:

A Layer 3 router forwards packets based on the destination IP address. It operates at the network layer of the OSI model and uses routing tables to determine the best path for packet delivery. Unlike Layer 2 switches, which forward packets based on MAC addresses, routers handle logical addressing, making them crucial for inter-network communication.

Junos OS Documentation on Routing Fundamentals.

NEW QUESTION # 103

Which advantage is provided by multiple software processes running in the Junos OS?

- A. Each process allocates a fixed amount of CPU resources.
- **B. Each process runs in a protected memory space.**
- C. Each process is started manually to ensure system stability.
- D. Each process dependency can be mapped independently.

Answer: B

Explanation:

In the Junos OS, multiple software processes run independently in their own protected memory spaces. This design ensures that if one process crashes or encounters an issue, it does not affect the other processes running on the system. This architecture enhances the stability and reliability of the network device, as each process operates independently and securely.

NEW QUESTION # 104

.....

The dynamic society prods us to make better. Our services on our Juniper JN0-105 exam questions are also dependable in after-sales part with employees full of favor and genial attitude towards job. So our services around the Juniper JN0-105 Training Materials are perfect considering the needs of exam candidates all-out.
