PMI Cognitive Project Management in AI (PMI-CPMAI) Sample Questions (Q59-Q64):

NEW QUESTION # 59

Your team has collected petabytes of data for your AI project. As the project lead, you understand this is too much data to use for this iteration of the project.

What is the best course of action to take with this data?

- A. Data integration focused on reducing the number of data sources.
- B. Data selection and attribute pruning to reduce overall size and data complexity.
- C. Careful algorithm selection that reduces the need for data.
- D. Data Deduping to reduce overall size and data complexity.

Answer: B

NEW QUESTION # 60

As an organization building an AI solution for your current customers based in NYC, but with possible plans for future expansion, how should you handle worldwide AI laws and regulations?

- A. Make sure to follow relevant data, privacy, and other important laws as it pertains to NYC
- B. You're too small of an organization to be worried about laws at the moment
- C. Make sure to follow relevant data, privacy, and other important laws as it pertains to the United States
- **D. Make sure to follow relevant data, privacy, and other important laws both in the US and where you're likely to expand to in the coming year**

Answer: D

NEW QUESTION # 61

Your team is working on a new loan decision model that takes a number of factors and data points into consideration and then automatically approves or denies a loan. After a month in operation someone does a review and notices that the system is denying a large number of loans from a certain demographic when all other factors from people in other regions (such as age, salary, and credit score) are the same.

What is most likely happening here?

- A. Data privacy issues leading to data sharing concerns
- B. Nothing is wrong, algorithmic decisions will never be 100%
- C. Generative AI models hallucinating data results
- **D. Biased data sets leading to algorithmic discrimination**

Answer: D

NEW QUESTION # 62

An IT services company is integrating an AI solution to automate its customer service functions. The integration team is facing resistance from the customer's employees. Which action should the project manager perform to manage this risk?

- A. Offer the option to join another team
- B. Conduct all-hands meetings on the benefits
- **C. Implement a gradual phased rollout**
- D. Mandate immediate transition from management

Answer: C

NEW QUESTION # 63

You want to make sure that in your HR hiring system that applicants have the ability to contest the result. In what layer of the Trustworthy AI framework do we address this need?

- A. Ethical AI
- **B. Governed AI**
- C. Transparent AI
- D. Responsible AI
- E. Explainable AI

Answer: B

NEW QUESTION # 64

.....

Another challenge is staying on top of the ever-changing exam content. PMI CPMAI is constantly evolving, and it can be difficult to
