SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Financial Accounting exam simulators & C_S4CFI_2504 exam torrent

With our software version of our C_S4CFI_2504 guide braindumps, you can practice and test yourself just like you are in a real exam for our C_S4CFI_2504 study materials have the advantage of simulating the real exam. The results of your C_S4CFI_2504 Exam will be analyzed and a statistics will be presented to you. So you can see how you have done and know which kinds of questions of the C_S4CFI_2504 exam are to be learned more.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Financial Accounting Sample Questions (Q74-Q79):

NEW QUESTION # 74

When using the Local SAP S/4HANA Database Schema migration approach, what is the maximum file size?

Note: There are 2 correct answers to this question.

- A. 100 MB per file
- B. 160 MB per file
- C. 160 MB per ZIP file
- D. 100 MB per ZIP file

Answer: B,C

Explanation:

Comprehensive and Detailed in Depth Explanation:

The Local SAP S/4HANA Database Schema approach in the Migration Cockpit uses staging tables to load data, with file size limits defined by SAP to ensure performance and stability.

* Option A (160 MB per file): Correct. Individual files uploaded to staging tables have a maximum size of 160 MB, as per SAP's technical specifications.

* Option B (160 MB per ZIP file): Correct. When files are compressed into ZIP format, the total size limit remains 160 MB, accommodating multiple files within this constraint.

* Option C (100 MB per ZIP file): Incorrect. The limit is 160 MB, not 100 MB, for ZIP files.

* Option D (100 MB per file): Incorrect. The limit for individual files is 160 MB, not 100 MB.

References: SAP S/4HANA Cloud Migration Cockpit Technical Guide, "File Upload Specifications" (SAP Help Portal).

NEW QUESTION # 75

Which tasks are mandatory before you can migrate data for a specific object?

Note: There are 2 correct answers to this question.

- A. All previous migration projects are in the "Finished" status
- B. You select the same migration method previously used for other objects
- C. Predecessor objects have been migrated
- D. Permission to migrate the data has been assigned

Answer: C,D

Explanation:

Comprehensive and Detailed in Depth Explanation:

In the SAP S/4HANA Migration Cockpit, data migration for a specific object requires certain prerequisites to ensure data integrity and system consistency.

* Option A (Predecessor objects have been migrated): This is correct because SAP S/4HANA migration follows a dependency-

driven approach. Predecessor objects (e.g., master data like business partners or G/L accounts) must be migrated first to provide the foundational data required for dependent objects (e.g., transactional data like open items). This ensures referential integrity and prevents errors during the migration process.

* Option D (Permission to migrate the data has been assigned): This is also correct. Migration in SAP S/4HANA Cloud requires proper authorization, typically assigned via roles in the SAP Fiori Launchpad (e.g., the "Data Migration Specialist" role). Without this, users cannot access or execute migration tasks, ensuring security and compliance with governance policies.

* Option B (You select the same migration method previously used for other objects): This is incorrect. The migration method (e.g., file upload, staging tables) can vary by object and project requirements. SAP does not mandate using the same method across all objects.

* Option C (All previous migration projects are in the "Finished" status): This is not a requirement.

While completing prior projects can be a best practice, the Migration Cockpit allows parallel or independent migration projects, provided dependencies are met.

"SAP Activate Methodology for Data Migration."

NEW QUESTION # 76

Which layer of SAP S/4HANA provides a universal language to read and process data across different applications?

- A. SAP HANA
- B. SAP Business Suite
- **C. Core Data Services**
- D. SAP Fiori

Answer: C

Explanation:

Comprehensive and Detailed in Depth Explanation:

Core Data Services (CDS) unify data access in SAP S/4HANA.

* B: Correct. CDS provides a semantic data layer.

References: SAP Help Portal - "Core Data Services."

NEW QUESTION # 77

Which editing options are available in the dunning proposal list?

Note: There are 3 correct answers to this question.

- **A. Edit dunning blocks at account level**
- B. Editing the dunning texts
- C. Change the dunning level of an open item
- **D. Edit dunning blocks at line item level**
- **E. Change the dunning charges**

Answer: A,D,E

Explanation:

Comprehensive and Detailed in Depth Explanation:

The dunning proposal list in SAP S/4HANA Cloud (accessed via the "Manage Dunning" app) allows users to adjust dunning notices before they are finalized.

Option A (Change the dunning charges): Correct. Users can modify dunning fees/charges in the proposal to reflect specific agreements or policies.

Option C (Edit dunning blocks at account level): Correct. Dunning blocks can be set or removed at the customer account level to prevent or allow dunning.

Option D (Edit dunning blocks at line item level): Correct. Blocks can also be adjusted for specific open items, offering granular control.

Option B (Editing the dunning texts): Incorrect. Dunning texts are predefined in configuration (e.g., via "Define Dunning Procedure") and cannot be freely edited in the proposal list.

Option E (Change the dunning level of an open item): Incorrect. Dunning levels are system-calculated based on overdue days and the dunning procedure, not manually editable in the proposal.

Which date determines the period of the asset acquisition?

- Answer: B**

Comprehensive and Detailed in Depth Explanation:

C: Correct. Asset value date determines the period for acquisition posting and depreciation start.

A, B, D: Incorrect. These dates serve other purposes (e.g., document entry).
