Many students often start to study as the exam is approaching. Time is very valuable to these students, and for them, one extra hour of study may mean 3 points more on the test score. If you are one of these students, then UiPath Test Automation Engineer Professional v1.0 exam tests are your best choice. Because students often purchase materials from the Internet, there is a problem that they need transport time, especially for those students who live in remote areas. When the materials arrive, they may just have a little time to read them before the exam. However, with UiPath-TAEPv1 Exam Questions, you will never encounter such problems, because our materials are distributed to customers through emails.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	• UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 2	• UiPath Test Manager: This section of the exam measures the skills of Test Automation Engineers and focuses on using UiPath Test Manager for managing test lifecycles. It includes actions like defining custom fields, managing access, importing • exporting projects, and documenting manual steps using UiPath Task Capture. It also explains how to analyze test results, handle execution re-runs, manage KPIs, and create defects for failed test cases, along with troubleshooting common errors.:
Topic 3	• Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.
Topic 4	• UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.

Topic 5	• UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 6	• UiPath Studio - Data-driven Testing: This section of the exam measures the skills of RPA Developers and centers around managing test data variations using data-driven testing approaches. It explains how to add test data through queues, activities, or data sources, and how to create reusable test cases based on this data. The section also highlights connecting UiPath Studio projects to Test Manager to enhance traceability and visibility of test progress.

Pass Guaranteed Quiz The Best UiPath-TAEPv1 - UiPath Test Automation Engineer Professional v1.0 Reliable Test Test

There are many businesses in the market who boast about the high quality of their test materials. However, we can pat on the chest confidently to say that the passing rate of students who use our UiPath-TAEPv1 test torrent is between 98% and 99%. If you unfortunately fail to pass the UiPath-TAEPv1 exam, upload your exam certificate and screenshots of the failed scores, and we will immediately give a full refund. Using our UiPath-TAEPv1 Test Questions will not bring you any loss. In addition, the refund process is very simple and will not bring you any trouble. If you have any questions, you can always contact us online or email us. We will reply as soon as possible.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q47-Q52):

NEW QUESTION # 47
Which of the following descriptions matches the concept of Integration Testing?

- A. Individual units are combined and tested as a group. The purpose of this level of testing is to expose faults in the interaction between integrated units.
- B. Validates the complete and fully integrated system. The purpose of a system test is to evaluate the end-to-end system specifications.
- C. Individual units of a system are tested. The purpose is to validate that each unit of the system code performs as expected.
- D. Evaluate the system's compliance with the business requirements and assess whether it is acceptable for delivery.

Answer: A

Explanation:
Integration Testing focuses on testing combined units of a system to ensure they work together correctly. The goal is to detect issues in the interaction between modules or components after they are integrated.

NEW QUESTION # 48
According to the troubleshooting Test Manager tips, what is one of the ways to resolve the following issue?

- A. Duplicate the faulty test case within Studio.
- B. Re-publish the project to Orchestrator.
- C. Unlink the automation in Test Manager.
- D. Re-link the faulty test case to the test set.

Answer: B

Explanation:
The warning message indicates that the test cases were not available in the latest published package version. To resolve this, you need to re-publish the project to Orchestrator to ensure all test cases are included and executable.

NEW QUESTION # 49
Given a Verify activity that has the ContinueOnFailure property set to False, what will the outcome be if the verification performed fails?

- A. Test case execution continues and any subsequent verification is skipped.
- B. Test case execution is stopped and the applications used are closed gracefully.
- C. Test case execution is stopped and any subsequent verification is failed.
- D. Test case execution is stopped and an exception is thrown.

Answer: D

Explanation:
If a Verify activity has ContinueOnFailure set to False and the verification fails, the test case execution stops immediately and an exception is thrown. This ensures that failures are treated as critical and halt further execution.

NEW QUESTION # 50
What are the tasks that can be executed from the UiPath command-line interface (CLI) while creating a CI/CD pipeline?

- A. Asset Job, Package, Test, Help, Version.
- B. Run, Test, Deploy, Pack, Help, Version.
- C. Analyze, Delete, Deploy, Pack.
- D. Job, Run, Deploy, Delete, Analyze.

Answer: B

Explanation:
The UiPath CLI supports several tasks useful for building CI/CD pipelines, including:
These tasks help integrate UiPath automation into automated build and deployment workflows.

NEW QUESTION # 51
When creating a new test set in UiPath Orchestrator, what is the purpose of using a wildcard symbol (*) for the project version?

- A. A validation error will be displayed after clicking on the Next button.
- B. The first project version starting with 1.0. will be used.
- C. The latest project version starting with 1.0. will be used.
- D. Any project version starting with 1.0. will be used.

Answer: C

Explanation:
In UiPath Orchestrator, using a wildcard symbol (*) in the project version (e.g., 1.0.*) means that the latest available version that starts with 1.0. will be used when the test set is executed. This helps ensure the most recent compatible package is always selected.

NEW QUESTION # 52

......

In order to serve you better, we have a complete system for you if you choose us. We have free demo for UiPath-TAEPv1 training materials for you to have a try. If you have decided to buy UiPath-TAEPv1 exam dumps of us, just add them to your cart, and pay for it, our system will send the downloading link and password to you within ten minutes, and if you don't receive, just contact us, we will solve this problem for you as quickly as possible. For UiPath-TAEPv1 Training Materials, we also have after-service, if you have questions about the exam dumps, you can contact us by email.
