# 100% Pass Oracle - High-quality 1z0-1042-24 Authentic Exam Hub

2025 Latest ITExamSimulator 1z0-1042-24 PDF Dumps and 1z0-1042-24 Exam Engine Free Share:
https://drive.google.com/open?id=1cuNPl1xJI1GIbe1mU4xfmCyp-61UAUtq

ITExamSimulator's Oracle Certification 1z0-1042-24 Exam testing exercises is very similar with real exam questions. If you choose ITExamSimulator's testing practice questions and answers, we will provide you with a year of free online update service. ITExamSimulator can 100% guarantee you to pass the exam, if you fail to pass the exam, we will full refund to you.

Oracle 1z0-1042-24 Exam Syllabus Topics:

Topic	Details
Topic 1	• Getting Started with OIC Integrations: This section tests the ability of IT professionals and integration specialists to understand the fundamental components and concepts of Oracle Integration Cloud (OIC). Candidates are expected to describe the key features of OIC integration and explain core integration concepts.
Topic 2	• Using OIC Connections & Adapters: Candidates must demonstrate their ability to create and configure OIC connections, including trigger and invoke connections. They should be familiar with the Connectivity Agent, which facilitates on-premises connectivity to OIC services.
Topic 3	• Creating Scheduled Integrations: In this section of the exam, candidates are evaluated based on their skills in managing scheduled integrations. This includes converting scheduled integrations to app-driven integrations and understanding the scheduling options within the OIC.
Topic 4	• Creating Orchestrated Integrations: This part of the exam evaluates the candidate's skills in creating and managing orchestrated integrations using OIC. Candidates should be able to manage OIC lookups, use the OIC Data Mapper, and incorporate custom JavaScript libraries into their integrations.
Topic 5	• Testing, Monitoring, and Troubleshooting Integrations: This section assesses candidates abilities in testing, monitoring, and troubleshooting integrations within the OIC.

Valid Oracle 1z0-1042-24 Exam Materials - 1z0-1042-24 Valid Exam Tutorial

If you want to get a good job, and if you are not satisfied with your present situation, if you long to have a higher station in life. We

think it is high time for you to try your best to gain the 1z0-1042-24 certification. Having our study materials, it will be very easy for you to get the certification in a short time. If you try purchase our study materials, you will find our 1z0-1042-24 question torrent will be very useful for you. We are confident that you will be attracted to our 1z0-1042-24 guide question.

Oracle Cloud Infrastructure 2024 Application Integration Professional Sample Questions (Q17-Q22):

NEW QUESTION # 17
You have an Oracle Integration (OIC) synchronous integration flow that updates external systems with several invocations. However, several of your OIC integration clients are reporting that they are experiencing timeouts waiting for the response confirmation from this processing. Which is a legitimate strategy to mitigate this issue?

- A. Change the design implementation strategy to an asynchronous flow that provides a separate notification to clients when the processing is complete.
- B. Increase the blocking timeout within the OIC integration settings to allow for extended time.
- C. Change the implementation logic to invoke multiple fine-grained external API calls within a single loop.

Answer: A

Explanation:
Comprehensive and Detailed Explanation:
Timeouts:
* B:True-async flow resolves client wait issues.

NEW QUESTION # 18
You can group one or more Oracle Integration Cloud (OIC) integrations into a single structure called a package. Which statement is not true about OIC packages?

- A. Integrations do not need to be part of a package.
- B. New packages can be created by clicking the Create button on the packages page in the OIC console.
- C. Packages cannot be locked to deny other users access to your integrations.
- D. You can import packages directly from the Oracle Marketplace.
- E. All packages must include at least one integration.
- F. Packages enable you to easily import and export a group of integrations to and from OIC.

Answer: C

NEW QUESTION # 19
You are configuring an ERP Cloud Adapter connection invoke action within an Oracle Integration Cloud (OIC) integration. How many child resources can you select?

- A. 0
- B. 1
- C. 2
- D. Unlimited

Answer: D

Explanation:
Comprehensive and Detailed Explanation:
Child Resources:
* A:True-no fixed limit.

NEW QUESTION # 20
Which operation is NOT supported by an Oracle Integration Cloud (OIC) connection resource configured with FTP Adapter in the Invoke role?

- A. Delete File
- B. Download File
- C. Write File
- D. Read File
- E. Read File in Segments

Answer: E

Explanation:
Comprehensive and Detailed Explanation:
The OIC FTP Adapter in theInvoke rolefacilitates interactions with an FTP server from an integration flow.
Let's break down each operation with exhaustive detail:
* Option A: Write File
* Supported:The FTP Adapter allows writing files to an FTP server. For example, you could use a Stage File action to prepare a CSV file and then invoke the FTP Adapter to write it to a remote directory like /inbound. This is a core capability for outbound file transfers.
* Option B: Read File
* Supported:Reading an entire file from an FTP server is possible in Invoke mode. You specify a file path (e.g., /outbound/data.csv), and the adapter retrieves itscontents, useful for processing complete files in one go, like a daily report.
* Option C: Read File in Segments
* Not Supported (Answer):This operation, which processes large files incrementally (e.g., 100 records at a time), is exclusive to theTrigger roleor Stage File actions, not the Invoke role of the FTP Adapter. In Invoke mode, the adapter doesn't support segmented reading because it's designed for direct, one-shot operations rather than iterative processing. For segmented reads, you'd use a File Adapter in Trigger mode or Stage File with a Connectivity Agent.
* Option D: Delete File
* Supported:Deleting a file on the FTP server (e.g., /archive/oldfile.txt) is a standard Invoke operation, often used for cleanup after processing.
* Option E: Download File
* Supported:Downloading retrieves a file to OIC for further processing, similar to Read File but typically implies storing it locally in the integration flow (e.g., staging it).
Why C is the answer:The Invoke role focuses on discrete actions (write, read, delete, download), not iterative tasks like segmented reading, which requires a polling mechanism better suited to Trigger roles or Stage File actions.
Edge Case:If you need segmented reading from an FTP server, you'd download the file first using Invoke, then use a Stage File action to process it in segments- a workaround, not a direct capability.
Use Case Example:An integration writing a sales report to FTP (A), downloading a log file (E), and deleting an old backup (D) works fine, but attempting to read a 10GB file in segments (C) fails in Invoke mode.

NEW QUESTION # 21

Which statement is valid regarding Oracle Integration Cloud (OIC) Lookups?

- A. Lookup values must include two or more domains associated with the corresponding SaaS applications.
- B. Lookup values are retrieved from a back-end database at runtime.
- C. A custom OIC XPath function is used to retrieve data from Lookups in the data mapper.
- D. You cannot clone an existing lookup if it is being currently referenced in one or more active OIC integrations.

Answer: C

Explanation:
Comprehensive and Detailed Explanation:
OIC Lookups are static mapping tables:
* Option A:False-lookups can be cloned regardless of active references, though updates might require integration reactivation.
* Option B:False-lookups are static, stored in OIC, not dynamically retrieved from databases at runtime.
* Option C:False-no mandatory domain count; lookups can map single or multiple domains as needed.
* Option D:True-the lookupValue XPath function retrieves data from lookups within the mapper, a standard feature.
D reflects OIC's design for efficient data transformation.

NEW QUESTION # 22

......

Being scrupulous in this line over ten years, our experts are background heroes who made the high quality and high accuracy 1z0-1042-24 study quiz. By abstracting most useful content into the 1z0-1042-24 guide materials, they have helped former customers gain success easily and smoothly. We can claim that if you prapare with our 1z0-1042-24 Exam Braindumps for 20 to 30 hours, then you will be confident to pass the exam.
