The pass rate is 98% for Plat-Dev-210 exam materials, you can pass your exam by using Plat-Dev-210 exam materials, otherwise we will give you a refund. In addition, Plat-Dev-210 learning materials have both quality and quantity, and they will be enough for you to pass the exam. You can obtain the download link and password for Plat-Dev-210 Exam Braindumps within ten minutes, so that you can begin your preparation as early as possible. We have online and offline service, and if you have any questions for Plat-Dev-210 exam materials, you can consult us, and we will give you a reply as soon as possible.

## Salesforce Plat-Dev-210 Exam Syllabus Topics:

| Topic   | Details  |
|---------|--|
| Topic 1 | <ul style="list-style-type: none"><li>Integration Procedures: This section measures the skills of an Integration Architect and involves designing and configuring Integration Procedures to automate processes and integrate systems. It requires comparing and contrasting different elements and configurations within Integration Procedures to meet specific use cases. Candidates are also tested on selecting the correct elements and properties to satisfy functional requirements, ensuring seamless data flow and process automation.</li></ul>              |
| Topic 2 | <ul style="list-style-type: none"><li>OmniScripts: This portion of the exam measures the skills of a Business Analyst and focuses on the use of OmniScripts to create dynamic, guided user experiences. It includes comparing and contrasting various OmniScript elements and their configurations to fulfill given use cases. The section also examines the candidate's understanding of the JSON structure that supports OmniScripts, as well as the ability to select appropriate elements and properties to address functional requirements effectively.</li></ul> |
| Topic 3 | <ul style="list-style-type: none"><li>Integrated Troubleshooting and Deployment: This final section measures the skills of a Support Engineer and focuses on identifying and resolving issues within Omnistudio tools. It involves diagnosing errors based on given scenarios and determining where breakdowns occur in the data flow for specific customer issues. This ensures the candidate can effectively troubleshoot, debug, and maintain solutions to ensure optimal performance and reliability.</li></ul>  |

## Dump Plat-Dev-210 Torrent - 100% Pass Quiz 2026 Salesforce Plat-Dev-210: First-grade Free Salesforce Certified Omnistudio Developer Updates

Whole ActualTorrent's pertinence exercises about Salesforce certification Plat-Dev-210 exam is very popular. ActualTorrent's training materials can not only let you obtain IT expertise knowledge and a lot of related experience, but also make you be well prepared for the exam. Although Salesforce Certification Plat-Dev-210 Exam is difficult, through doing ActualTorrent's exercises you will be very confident for the exam. Be assured to choose ActualTorrent efficient exercises right now, and you will do a full preparation for Salesforce certification Plat-Dev-210 exam.

## Salesforce Certified Omnistudio Developer Sample Questions (Q47-Q52):

### NEW QUESTION # 47

A company wants to allow agents to send customers a quote for signature. The quote is a document created using a DocuSign template that has been prefilled with all of the quote details. The document will be emailed to one or more recipients for signature. How should a developer configure this functionality in OmniScript?

- **A. DocuSign Envelope Action**
- B. DocuSign Signature Action
- C. PDF Acwm
- D. Email Action

**Answer: A**

Explanation:

A DocuSign Envelope Action can be used to create and send a document for signature using a DocuSign template. The developer can specify the template ID, recipient details, and prefill data in the action configuration

### NEW QUESTION # 48

A developer is configuring the API URL in an HTTP Action element within an Integration procedure. What is the merge code syntax for passing a Date node from an element named SetValues in the URL?

- A. %SetValues Date
- B. (' Setvalues'] [ 'Date']
- **C. {(SetValues. Date)}**
- D. x%SetValues.Date%

**Answer: C**

Explanation:

The correct syntax for merge codes in Integration Procedure is {(NodeName)}, where NodeName is the name of the JSON node in the data source. The other options are either missing the parentheses or using incorrect symbols.

### NEW QUESTION # 49

A developer needs to retrieve data from an external system that stores policy data. The external system supports REST APIs to access and update the policies. Due to the volume of the policy data and peak hours of hours of business, calls to the REST APIs sometimes take longer than expected to response.

The developer creates an Integration Procedure to retrieve the policy data for use in an OmniScript.

Given the external system's known performance issues, which configuration should be used to implement the call to the external system?

Choose 2 answers

- **A. Check the Chain on Step Check on the HTTP Action in the Integration Procedure**
- B. Configure a Remote action with timeout settings of 120000
- **C. Set the Timeout property on the HTTP Action in the Integration Procedure**
- D. Check the Chainable checkbox on the integration procedure Action in the OmniScript

**Answer: A,C**

Explanation:

Setting the Timeout property on the HTTP Action in the Integration Procedure allows the developer to specify how long to wait for a response from the external system before timing out. Checking the Chain on Step Check on the HTTP Action in the Integration Procedure allows the developer to chain multiple HTTP Actions together and execute them sequentially. Configuring a Remote action with timeout settings of 120000 is not necessary, as it is already done by default in OmniStudio. Checking the Chainable checkbox on the integration procedure Action in the OmniScript has no effect on calling an external system.

### NEW QUESTION # 50

An OmniScript displays data from an API using Integration Procedure, but some of the data is missing. Which two configuration errors could cause this? Choose 2 answers

- A. The JSOW sent from the Integration Procedure Action does not match any of the Original Input for the Integration Procedure
- B. The element name for the missing data does not match the JSON node key in the Integration Procedure Response.
- C. The missing data is trimmed in the Integration Procedure Action Response JSON Path.
- D. The Integration Procedure Preview Input Parameters do not match the JSON sent from the OmniScript.

**Answer: A,B**

Explanation:

The element name for the missing data must match the JSON node key in the Integration Procedure Response, otherwise the data will not be mapped correctly. The JSON sent from the Integration Procedure Action must match one of the Original Input for the Integration Procedure, otherwise the Integration Procedure will not execute properly. The Integration Procedure Preview Input Parameters and the Response JSON Path have no effect on displaying data in OmniScript.

#### NEW QUESTION # 51

Which calculation procedure version in the list would execute on 2/15/2020 at 12:00 PM?

□

- A. Version Number 3
- B. Version Number 1
- C. Version Number 2
- D. Version Number 4

**Answer: D**

Explanation:

the calculation procedure version that would execute on 2/15/2020 at 12:00 PM is the one that has the start date time and end date time that include that date and time, and also has the highest priority among the enabled versions. In this case, only version number 4 meets these criteria, as it has a start date time of 2/1/2020 12:00 AM, an end date time of 4/1/2020 12:00 AM, a priority of 1, and is enabled. The other versions either have a different start or end date time, a lower priority, or are not enabled.

#### NEW QUESTION # 52

.....

In modern society, we are busy every day. So the individual time is limited. The fact is that if you are determined to learn, nothing can stop you! You are lucky enough to come across our Plat-Dev-210 exam materials. Our Plat-Dev-210 study guide can help you improve in the shortest time. Even you do not know anything about the Plat-Dev-210 Exam. It absolutely has no problem. You just need to accept about twenty to thirty hours' guidance of our Plat-Dev-210 learning prep, it is easy for you to take part in the exam.
