Real4dumps enjoys the reputation of a reliable study material provider to those professionals who are keen to meet the challenges of industry and work hard to secure their positions in it. If you are preparing for a Financial-Services-Cloud Certification test, the Financial-Services-Cloud exam dumps from Real4dumps can prove immensely helpful for you in passing your desired Financial-Services-Cloud exam.

To pass the Salesforce FSC Accredited Professional Certification Exam, candidates must demonstrate a thorough understanding of the Salesforce FSC platform, including its features and functionality. They must also show the ability to use the platform to manage clients' accounts, track investments, and provide financial advice. Financial-Services-Cloud exam is challenging and requires candidates to have extensive knowledge of the financial services industry, as well as a solid understanding of Salesforce. However, passing the exam can be a great way for financial services professionals to demonstrate their expertise and gain credibility in the industry.

Salesforce Financial Services Cloud (FSC) Accredited Professional Certification Exam is a multiple-choice exam that consists of 60 questions. Candidates are given 90 minutes to complete the exam, and a passing score of 70% or higher is required to achieve certification. Financial-Services-Cloud Exam can be taken online and is available in multiple languages.

Salesforce Financial-Services-Cloud (FSC) Accredited Professional Certification Exam covers a range of topics related to FSC, including configuring and customizing FSC, managing customer relationships, managing financial products and services, and using FSC for reporting and analytics. Financial-Services-Cloud exam is designed to assess the skills and knowledge of professionals who work with FSC on a daily basis and who are responsible for delivering financial services to clients.

Salesforce Financial Services Cloud (FSC) Accredited Professional Sample Questions (Q105-Q110):

NEW QUESTION # 105

What is the purpose of the ideas community? (2 answers)

- A. To post customer ideas by logging cases on the Ideas tab of the portal
- B. To provide access to articles that answer questions around an idea theme
- C. To comment on and vote for ideas posted by other community members
- D. To invite customers, partners, and employees to submit ideas

Answer: C,D

NEW QUESTION # 106

Lake Tahoe Bank, an existing Salesforce customer, is planning to implement Financial Services Cloud. Their Salesforce Admin is considering whether to use a new Salesforce org or upgrade the existing org. Which three of the considerations below indicate that a new Salesforce org is the better choice?

- A. The bank wants to use this project as an opportunity to retire customization
- B. The bank has limited redesign opportunities for business capabilities.
- C. Existing business capabilities and processes can be redesigned to deliver a higher business impact
- D. Data migration is a big concern. The current org has a large amount of data and the Bank wants to minimize data migration efforts.
- E. The current implementation is using a product-centric view and the bank wants to move to a customer-centric view.

Answer: A,C,E

Explanation:

Explanation

The following considerations indicate that a new Salesforce org is the better choice for implementing Financial Services Cloud: The bank wants to use this project as an opportunity to retire customization. A new org will allow the bank to start fresh and avoid carrying over unnecessary or outdated customization that may conflict with Financial Services Cloud features or best practices. The current implementation is using a product-centric view and the bank wants to move to a customer-centric view. A new org will allow the bank to adopt the Financial Services Cloud data model, which is designed to provide a holistic view of the customer and their relationships, goals, financial accounts, activities, and interactions.

Existing business capabilities and processes can be redesigned to deliver a higher business impact. A new org will allow the bank to leverage the Financial Services Cloud capabilities, such as Action Plans, Relationship Groups, Rollup By Lookup, Service Processes, etc., to optimize their business processes and enhance their customer experience. NEW QUESTION # 107

A Financial Services Cloud (FSC) administrator wants to create a new FSC permission set that includes the Access Interest Tags for Financial Services Cloud permission.

Which two permission sets should be cloned to create this new permission set and give access to interest tags?

- A. FSC Basic permission set
- B. FSC Extension permission set
- C. FSC Standard permission set
- D. FSC Foundations permission set

Answer: B,D

Explanation:

Explanation

The Access Interest Tags for Financial Services Cloud permission is included in two permission sets that are provided by FSC: FSC Foundations permission set: This permission set grants access to the core features of FSC, such as financial accounts, account groups, households, goals, referrals, and interest tags.⁷

FSC Extension permission set: This permission set grants access to additional features of FSC that extend beyond the core

functionality, such as action plans, relationship groups, relationship maps, client tasks, client notes, and interest tags⁸. To create a new FSC permission set that includes the Access Interest Tags for Financial Services Cloud permission, either of these permission sets can be cloned and modified as needed.

NEW QUESTION # 108

Cumulus Insurance has created a Delegated Administrator group for its franchise users to reduce the workload on head office support staff.

Which three functions should be added to the Delegated Administrator group?

- A. Create and manage membership of specified public groups.
- B. Unlock users.
- C. Set organization-wide sharing defaults on custom objects.
- D. Modify permission sets.
- E. Assign or remove permission sets for users in their delegated groups.

Answer: A,B,E

Explanation:

The following functions should be added to the Delegated Administrator group for its franchise users:

Unlock users, which is a function that allows delegated administrators to unlock users who have been locked out due to incorrect login attempts or password expiration.

Assign or remove permission sets for users in their delegated groups, which is a function that allows delegated administrators to grant or revoke additional permissions for users in their delegated groups by using permission sets.

Create and manage membership of specified public groups, which is a function that allows delegated administrators to create public groups for sharing purposes and add or remove users from those groups.

NEW QUESTION # 109

Which Salesforce Financial Services Cloud feature enables financial advisors to track and manage client accounts?

- A. Opportunity management
- B. Financial accounts management
- C. Performance reporting
- D. Client onboarding

Answer: B

Explanation:

Explanation

Financial accounts management is a Salesforce Financial Services Cloud feature that enables financial advisors to track and manage client accounts. A financial account is any account managed by a financial institution, such as a bank, an insurance company, or an investment firm. Financial Services Cloud supports many kinds of financial accounts, such as checking accounts, savings accounts, mortgages, credit cards, investment accounts, insurance policies, and more³. Financial advisors can use Financial Services Cloud to view, create, update, and delete financial accounts for their clients, as well as link them to other objects, such as households, goals, referrals, or opportunities⁴.
