Microsoft Endpoint Administrator Sample Questions (Q247-Q252):

NEW QUESTION # 247

You have a Microsoft 365 E5 subscription that contains the devices shown in the following table.

□ All the devices are enrolled in Microsoft Intune and have Microsoft 365 Apps for enterprise installed.

On which devices can you use the Cloud Policy service for Microsoft 365 to manage Microsoft 365 Apps for enterprise?

- A. Device1 and Device2 only
- B. Device1, Device2, and Device4 only
- C. Device1, Device2, and Device3 only
- D. Device2 only
- E. Device1, Device2, Device3, and Device4

Answer: E

NEW QUESTION # 248

You need a new conditional access policy that has an assignment for Office 365 Exchange Online.

You need to configure the policy to meet the technical requirements for Group4.

Which two settings should you configure in the policy? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

□

Answer:

Explanation:

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/overview>

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/conditions>

<https://docs.microsoft.com/en-us/intune/device-compliance-get-started>

NEW QUESTION # 249

You have a Microsoft 365 E5 subscription that contains 150 hybrid Azure AD joined Windows devices. All the devices are enrolled in Microsoft Intune. You need to configure Delivery Optimization on the devices to meet the following requirements:

- Allow downloads from the internet and from other computers on the local network.

- Limit the percentage of used bandwidth to 50.

What should you use?

- A. a Microsoft Peer-to-Peer Networking Services Group Policy setting
- B. an Update ring for Windows 10 and later profile
- C. a configuration profile
- D. a Windows Update for Business Group Policy setting

Answer: C

Explanation:

A configuration profile is the correct answer because it allows you to configure Delivery Optimization settings for Windows devices in Intune. You can specify the download mode, bandwidth limit, caching options, and more. A configuration profile is a template that contains one or more settings that you can apply to groups of devices.

NEW QUESTION # 250

Your company has an Azure AD tenant named contoso.com that contains several Windows 10 devices.

When you join new Windows 10 devices to contoso.com, users are prompted to set up a four-digit pin.

You need to ensure that the users are prompted to set up a six-digit pin when they join the Windows 10 devices to contoso.com.

Solution: From the Microsoft Entra admin center, you configure automatic mobile device management (MDM) enrollment. From the Microsoft Intune admin center, you configure the Windows Hello for Business enrollment options.

Does this meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION # 251

You implement the planned changes for Connection1 and Connection2

How many VPN connections will there be for User1 when the user signs in to Device 1 and Device2? To answer select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□ Topic 3, Contoso Ltd,

Overview

Contoso, Ltd, is a consulting company that has a main office in Montreal and two branch offices in Seattle and New York.

Contoso has the users and computers shown in the following table.

□ The company has IT, human resources (HR), legal (LEG), marketing (MKG) and finance (FIN) departments.

Contoso uses Microsoft Store for Business and recently purchased a Microsoft 365 subscription.

The company is opening a new branch office in Phoenix. Most of the users in the Phoenix office will work from home.

Existing Environment

The network contains an Active Directory domain named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

All member servers run Windows Server 2016. All laptops and desktop computers run Windows 10 Enterprise.

The computers are managed by using Microsoft System Center Configuration Manager. The mobile devices are managed by using Microsoft Intune.

The naming convention for the computers is the department acronym, followed by a hyphen, and then four numbers, for example, FIN-6785. All the computers are joined to the on-premises Active Directory domain.

Each department has an organization unit (OU) that contains a child OU named Computers. Each computer account is in the Computers OU of its respective department.

Intune Configuration

□ Requirements

Planned Changes

Contoso plans to implement the following changes:

Provide new computers to the Phoenix office users. The new computers have Windows 10 Pro preinstalled and were purchased already.

Start using a free Microsoft Store for Business app named App1.
