BCS Practitioner Certificate in Business Analysis Practice v5.0 Sample Questions (Q65-Q70):

NEW QUESTION #65

A large mortgage provider has been running a project to develop an equity release product The project has run into difficulty due to a disagreement between two key stakeholders about whether the product should be developed in house or outsourced to a specialist company.

The business analyst on the project. George, has been discussing his role in resolving this problem with his manager. Which of the following descriptions is George's manager LEAST LIKELY to use in describing his role'?

- A. To record the meeting and the resulting decision
- B. To understand and challenge the stakeholders
- C. To negotiate with the stakeholders to reach a resolution
- D. To facilitate the discussion to allow the stakeholders to find a way forward

Answer: C

Explanation:

The role of a business analyst (BA) is to analyse business situations and problems, identify and evaluate potential solutions, and facilitate change within an organisation or project. A BA works with stakeholders at different levels and with different interests and perspectives to understand their needs and expectations and ensure they are met by suitable solutions. Therefore, option C is not likely to be used by George's manager in describing his role as a BA in resolving this problem. To negotiate with stakeholders to reach resolution implies that George has to persuade or compromise with stakeholders to agree on one solution or approach. This is not part of the BA's role, as the BA does not have the authority or responsibility to make decisions or impose solutions on stakeholders. The BA's role is to analyse and evaluate different solutions or approaches objectively and present the findings and recommendations to stakeholders for their consideration and approval. Option A is likely to be used by George's manager in describing his role as a BA in resolving this problem. To understand and challenge the stakeholders means that George has to elicit and validate the stakeholders' views and needs and question their assumptions and rationale. This is part of the BA's role, as the BA has to ensure that the stakeholders' views and needs are clear, consistent, realistic and aligned with the organisation's strategy and objectives. Option B is likely to be used by George's manager in describing his role as a BA in resolving this problem. To facilitate the discussion to allow the stakeholders to find a way forward means that George has to organise and conduct meetings or workshops with stakeholders to explore and evaluate different solutions or approaches and help them reach a consensus or agreement. This is part of the BA's role, as the BA has to enable effective communication and collaboration among stakeholders and help them resolve conflicts or issues. Option D is likely to be used by George's manager in describing his role as a BA in resolving this problem. To record the meeting and the resulting decision means that George has to document and communicate the outcomes and actions of the meeting or workshop with stakeholders and ensure they are understood and accepted by all parties. This is part of the BA's role, as the BA has to ensure that there is a clear and accurate record of what has been discussed and decided by stakeholders and that there is a shared understanding and commitment among them.

NEW QUESTION #66

You have been discussing Paurs recent project with him He explained that he had needed to spend considerable time interviewing stakeholders and was now behind plan You asked him why he didn't use a workshop to avoid delays. Which of the following MIGHT Paul reply'? Select the THREE that apply

- A. The stakeholders were located in different time zones
- B. One stakeholder has a dominant personality
- C. The challenge of organising key stakeholder diaries
- D. A neutral venue was available for stakeholder discussions
- E. Consensus from stakeholders needed to be established

Answer: A,C,D

Explanation:

Explanation

A workshop is a technique for conducting group discussions and activities with stakeholders to elicit, analyse, validate and prioritise their views and needs. It helps to facilitate effective communication and collaboration among stakeholders and resolve conflicts or issues. Therefore, options B, D and E are correct answers, as they are possible reasons why Paul did not use a workshop to avoid delays. They describe different challenges or constraints that may prevent or limit the use of a workshop technique. Option B describes a challenge related to the geographical location of stakeholders. If the stakeholders are located in different time zones, it may be difficult or impractical to arrange a workshop that suits their availability and preferences. Option D describes a challenge related to the availability of stakeholders. If the key stakeholders have busy or conflicting schedules, it may be hard or impossible to organise a workshop that involves all of them at the same time. Option E describes a constraint related to the venue of the workshop. If a neutral venue is available for stakeholder discussions, it may be preferable or necessary to use it instead of a workshop, as it may reduce bias or influence from any stakeholder group. Option A is not a correct answer, as it is not a reason

why Paul did not use a workshop to avoid delays. It describes an issue that may arise during a workshop, but not prevent or limit its use. If one stakeholder has a dominant personality, it may affect the dynamics and outcomes of the workshop, but it can be managed by using appropriate facilitation skills and techniques. Option C is not a correct answer, as it is not a reason why Paul did not use a workshop to avoid delays. It describes an objective that may be achieved by using a workshop, but not prevent or limit its use. If consensus from stakeholders needs to be established, it may be beneficial or essential to use a workshop, as it can help to reach a common understanding and agreement among stakeholders.

NEW QUESTION #67

A business case contains the following in its management summary:

'The recommended option meets the new regulatory requirements. It will ensure our products remain in the marketplace and be the first to receive compliance certification, which will enhance our reputation as the market leader New business policies and processes will be introduced, which may temporarily reduce productivity. The action plan will be communicated to all staff at the next monthly meeting?

Which TWO categories of costs and benefits are described in this extract?

- A. Tangible costs
- B. Intangible benefits
- C. Intangible costs.
- D. Irregular costs
- E. Tangible benefits

Answer: B,C

Explanation:

Explanation

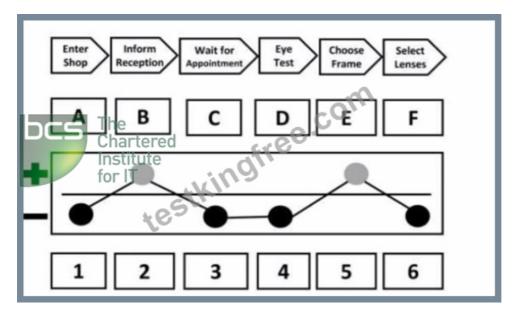

A cost is an expenditure or sacrifice incurred or expected to be incurred as a result of a business change. A benefit is an advantage or improvement that is gained or expected to be gained as a result of a business change. Costs and benefits can be classified as tangible or intangible, depending on whether they can be measured in monetary terms or not. Therefore, options B and D are correct answers, as they describe intangible costs and benefits that are not easily quantified or valued. Intangible costs include the temporary reduction in productivity due to the introduction of new business policies and processes. Intangible benefits include the enhancement of the company's reputation as the market leader due to being the first to receive compliance certification. Option A is not a correct answer, as tangible costs are not described in the extract.

Tangible costs are those that can be measured in monetary terms, such as the cost of purchasing new equipment or hiring new staff. Option C is not a correct answer, as tangible benefits are not described in the extract. Tangible benefits are those that can be measured in monetary terms, such as the increase in revenue or decrease in expenses.

NEW QUESTION #68

The customer journey map below was created for Eyes 4'U. a chain of high street opticians This shows the journey of a person who is 67 years old and retired with a limited pension and active social life What are the MOST LIKELY statements to be in Box F and Box 6?

- A. F pleased appointment ending 6 provide clearer information on options and pricing
- B. F: worry about choosing the wrong frame 6: introduce virtual frame selection technology
- C. F provide clearer information on options and pricing 6 concern at cost
- D. F concern at cost 6 provide clearer information on options and pricing

Answer: D

Explanation:

A customer journey map is a visual representation of the steps and emotions that a customer goes through when interacting with a product or service. It helps to identify the pain points and opportunities for improvement in the customer experience. A customer journey map typically consists of the following elements: stages, actions, thoughts, feelings, touchpoints and opportunities. Therefore, option A is the correct answer, as it matches the elements of the customer journey map for Box F and Box 6. Box F represents the feeling of the customer at the stage of choosing a frame. The feeling is concern at cost, as the customer is worried about the price of the frames and lenses. Box 6 represents the opportunity for improvement at the stage of selecting lenses. The opportunity is to provide clearer information on options and pricing, as this would help the customer to make an informed decision and reduce their anxiety. Option B is not a correct answer, as it does not match the elements of the customer journey map for Box F and Box 6. Box F represents the feeling of the customer, not an opportunity for improvement. Box 6 represents an opportunity for improvement, not a feeling of the customer. Option D is not a correct answer, as it does not match the elements of the customer journey map for Box F and Box 6. Box F represents the feeling of the customer, not an opportunity for improvement. Box 6 represents an opportunity for improvement, not a feeling of the customer, not an opportunity for improvement. Box 6 represents an opportunity for improvement, not a feeling of the customer, not an opportunity for improvement. Box 6 represents an opportunity for improvement, not a feeling of the customer, not an opportunity for improvement. Box 6

NEW QUESTION #69

Alana has identified several issues in a process redesign project she is working on. including the following

- 1) The suggested changes to the business structure will affect our relationships with suppliers.
- 2) The proposed electronic data sharing with our suppliers will raise legal accessibility issues. Which TWO elements of POPIT consider these issues?
 - A. Procedures
 - B. Organisation
 - C. Information and technology
 - D. People
 - E. Processes

Answer: B,C

Explanation:

POPIT is a technique for taking a holistic view when investigating a business situation or problem. It helps to ensure that all aspects and dimensions of a business situation or problem are considered and addressed. POPIT consists of four elements: People, Processes, Organisation and Information and technology. Therefore, options C and D are correct answers, as they are the elements

of POPIT that consider these issues respectively. Option C considers issue 1: The suggested changes to the business structure will affect our relationships with suppliers. Organisation is the element that describes how an organisation is structured and governed internally and externally. It helps to identify who are involved in decision making and authority within an organisation and how an organisation relates to its stakeholders outside its boundaries. Issue 1 relates to organisation, as it involves changes to the business structure that will affect how the organisation interacts with its suppliers, who are external stakeholders. Option D considers issue 2: The proposed electronic data sharing with our suppliers will raise legal accessibility issues. Information and technology is the element that describes how information and data are created, stored, accessed, used and communicated within an organisation using technology systems and tools. It helps to identify what information and data are needed and available for an organisation to perform its activities and processes effectively and efficiently using appropriate technology systems and tools. Issue 2 relates to information and technology, as it involves electronic data sharing with suppliers using technology systems that will raise legal accessibility issues regarding information security and privacy. Option A does not consider any issue in this scenario. People is the element that describes who are involved in performing or supporting the activities and processes within an organisation. It helps to identify what skills, knowledge, attitudes and behaviours are required and exhibited by people within an organisation to perform their roles and responsibilities effectively and efficiently. There is no issue in this scenario that relates to people. Option B does not consider any issue in this scenario. Processes is the element that describes what activities and tasks are performed within an organisation to achieve its objectives and outcomes. It helps to identify how activities and tasks are sequenced, coordinated, controlled and measured within an organisation to ensure quality and consistency. There is no issue in this scenario that relates to processes. Option E is not a valid element of POPIT. Procedures is not an element of POPIT, but a term that refers to the detailed steps or instructions for performing a specific activity or task within a process.
