# Test JN0-232 Dump - Valid Test JN0-232 Bootcamp

Generally speaking, JN0-232 certification has become one of the most authoritative voices speaking to us today. Let us make our life easier by learning to choose the proper JN0-232 test answers, pass the exam, obtain the certification, and be the master of your own life, not its salve. There are so many of them that they make you believe that their product is what you are looking for. With one type of JN0-232 Exam study materials are often shown one after another so that you are confused as to which product you should choose.

Actually our JN0-232 study materials cover all those traits and they are your prerequisites for successful future. Providing various and efficient JN0-232 exam preparation with reasonable prices and discounts, satisfy your need with considerate after-sales services and we give back all your refund entirely once you fail the JN0-232 test unluckily. All those features roll into one. They can greatly solve your problem-solving abilities.

Valid Test JN0-232 Bootcamp, Cert JN0-232 Guide

These people who used our products have thought highly of our JN0-232 study materials. If you decide to buy our products and tale it seriously consideration, we can make sure that it will be very easy for you to simply pass your exam and get the JN0-232 certification in a short time. We are also willing to help you achieve your dream. Now give me a chance to show you our JN0-232 Study Materials. You will have no regret spending your valuable time on our introduction. Besides, our JN0-232 study quiz is priced reasonably, so we do not overcharge you at all.

Juniper Security, Associate (JNCIA-SEC) Sample Questions (Q37-Q42):

NEW QUESTION # 37
You are modifying the NAT rule order and you notice that a new NAT rule has been added to the bottom of the list.
In this situation, which command would you use to reorder NAT rules?

- A. up
- B. insert
- C. run
- D. top

Answer: D

Explanation:
In Junos OS, NAT rules are evaluated in top-down order. When a new rule is added, it is placed at the bottom of the rule set by default.
* To move a rule to the top of the rule set, the command is:
* set security nat source rule-set <name> rule <rule-name> top
* Option A (top):Correct. Moves the specified rule to the top of the list.
* Option B (run):Used to execute operational commands, not rule reordering.
* Option C (up):Not valid for reordering NAT rules.

* Option D (insert):Not a supported NAT reordering command in Junos.
Correct Command:top
Reference:Juniper Networks -NAT Rule Evaluation Order and Rule Reordering, Junos OS Security Fundamentals.

NEW QUESTION # 38
You need to capture control plane traffic on a high-end SRX Series device.
How would you accomplish this task?

- A. Start a shell then use the tcpdump tool.
- B. Apply a port mirroring configuration under the edit forwarding options hierarchy.
- C. Apply a firewall filter matching the desired traffic using the sample action.
- D. Configure a packet capture under the edit security datapath-debug capture hierarchy.

Answer: C

Explanation:
On high-end SRX platforms, control-plane (Routing Engine-destined) traffic transits the loopback (lo0) and is best captured by applying afirewall filter on lo0 with the then sample action, together withtraffic samplingunder forwarding-options to write packets to a file.
* sample sends matched control-plane packets to the sampling process, which can record them for analysis.
* datapath-debug capture focuses on data-plane/SPC paths and is not the tool for generic control-plane packet capture.
* tcpdump from shell is not the supported workflow on SRX; the operational command is monitor traffic, but forhigh-endcontrol-plane capture, the recommended and scalable method islo0 filter + sampling.
* Port mirroring mirrors transit data-plane traffic, not RE-destined control-plane packets.
Reference:Juniper Networks - Junos OS Security Fundamentals, "Capturing Control-Plane Traffic (lo0 filters and sampling)."

NEW QUESTION # 39
Which two statements about the null zone on an SRX Series Firewall are correct? (Choose two.)

- A. Traffic rejected by the security policy is sent to the null zone for logging.
- B. Transit interfaces are assigned to the null zone by default.
- C. A logical interface configured in a security zone removes it from the null zone.
- D. The null zone can be configured to accept traffic to or from the SRX Series Firewall.

Answer: B,C

Explanation:
* Default assignment:All logical interfaces are placed in thenull zone by defaultuntil explicitly assigned to a user-defined security zone (Option A is correct).
* Removal from null zone:Once an interface is assigned to a security zone, it is removed from the null zone (Option D is correct).
* No traffic acceptance:The null zone is a discard zone; it cannot be configured to accept any traffic (Option C is incorrect).
* Policy behavior:Traffic rejected by a security policy is dropped according to the policy action. It is not forwarded to the null zone for logging (Option B is incorrect).
Correct Statements:A and D
Reference:Juniper Networks -Security Zones and the Null Zone, Junos OS Security Fundamentals.

NEW QUESTION # 40
Click the Exhibit button.
Which two statements are correct about the content filter shown in the exhibit? (Choose two.)

- A. .exe files will not be allowed to be uploaded over HTTP.
- B. There will be a notice added to the SRX log file about the file being blocked.
- C. There will be an e-mail sent to the user about why the SRX is blocking the file.
- D. .exe files will not be allowed to be downloaded over HTTP.

Answer: B,D

Explanation:

From the exhibit, the content filter configuration is as follows:
* Match Conditions:
* Application:HTTP
* Direction:download
* File-types:exe
* Action:
* block
* notification log
Analysis of Options:
* Option A: Incorrect. The configuration specifies the download direction, not upload. Uploads of .exe files are unaffected.
* Option B: Correct. Because the rule applies to downloads, .exe files will be blocked when users attempt to download them over HTTP.
* Option C: Correct. The notification { log; } statement ensures that an entry will be added to the SRX device's log when the action is triggered.
* Option D: Incorrect. No configuration for sending e-mail notifications is shown in the rule. Only logging is specified.
Correct Statements:B and C
Reference:Juniper Networks -UTM Content Filtering Configuration and Actions, Junos OS Security Fundamentals, Official Course Guide.

NEW QUESTION # 41

Which two statements are correct about unified security policies on SRX Series Firewalls? (Choose two.)

- A. Unified security policies match applications before processing policy statements.
- B. Unified security policies use the application identification (AppID) engine.
- C. Unified security policies can be zone-based or global.
- D. Unified security policies with multiple matches use the most restrictive match.

Answer: B,C

Explanation:
Unified security policies integratetraditional zone-based policieswithapplication-based policies. Their characteristics include:
* Zone-based or global (Option B):Unified policies can be applied as either zone-specific or global policies.
* AppID engine (Option C):They leverage the AppID engine for application identification, enabling fine-grained control at the application layer.
* Policy matching (Option A):Policies are evaluated sequentially like standard security policies; applications are not matched before policy processing.
* Multiple matches (Option D):If multiple policies could match, the first match applies (sequential order), not the "most restrictive."
Correct Statements:B and C Reference:Juniper Networks -Unified Security Policies and AppSecure Integration, Junos OS Security Fundamentals.

NEW QUESTION # 42

......

One thing has to admit, more and more certifications you own, it may bring you more opportunities to obtain better job. This is the reason that we need to recognize the importance of getting the JN0-232 certifications. More qualified certification for our future employment has the effect to be reckoned with, only to have enough qualification certifications to prove their ability, can we win over rivals in the social competition. Therefore, the JN0-232 Guide Torrent can help users pass the qualifying JN0-232 examinations that they are required to participate in faster and more efficiently.
