

Latest H19-301_V4.0 Study Plan | Valid H19-301_V4.0 Test Simulator

DOWNLOAD the newest Exams4sures H19-301_V4.0 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1W9uWJjl8SMVxISDX2sjVrmp1sPS4S3g>

One of features of H19-301_V4.0 training materials of us is that we can help you pass the exam just one time, and we also pass guarantee and money back guarantee for you fail to pass the exam. You just need to send your failure scanned to us, and we will give you full refund. In addition, H19-301_V4.0 exam dumps contain both questions and answers, which can help you have a quickly check after you finish your practice. We also have online and offline chat service stuff, they possess the professional knowledge about the H19-301_V4.0 Training Materials, if you have any questions just contact us.

About some esoteric points, they illustrate with examples for you. Our H19-301_V4.0 practice materials are the accumulation of professional knowledge worthy practicing and remembering, so you will not regret choosing our H19-301_V4.0 practice materials. The best way to gain success is not cramming, but to master the discipline and regular exam points of question behind the tens of millions of questions. Our H19-301_V4.0 practice materials can remove all your doubts about the exam. If you believe in our products this time, you will enjoy the happiness of success all your life.

Valid H19-301_V4.0 Test Simulator | H19-301_V4.0 New Dumps Sheet

If you buy our H19-301_V4.0 exam questions, we will offer you high quality products and perfect after service just as in the past. We believe our consummate after-sale service system will make our customers feel the most satisfactory. Our company has designed the perfect after sale service system for these people who buy our H19-301_V4.0 practice materials. We can promise that we will provide you with quality products, reasonable price and professional after sale service on our H19-301_V4.0 learning guide.

Huawei HCSA-Presales-IP Network V4.0 Sample Questions (Q80-Q85):

NEW QUESTION # 80

In the NAC solution, which of the following authentication modes does not require users to install any client software and is applicable to scenarios where dumb terminals such as IP phones and printers need to access the network?

- A. 802.1X authentication
- **B. MAC address authentication**
- C. Wireless authentication
- D. Portal authentication

Answer: B

Explanation:

MAC address authentication (also known as MAC bypass authentication) is typically used for non-intelligent endpoints such as printers, IP phones, and IoT devices that cannot run client software or access a portal for login.

The authentication process is completed by identifying the device's MAC address and mapping it to predefined policies in the NAC system.

It does not require client installation or human interaction - making it ideal for "dumb terminals." By contrast, 802.1X and portal authentication require software clients or web-based logins and are designed for user-driven authentication.

#####

NEW QUESTION # 81

From digital to intelligent transformation, data communication networks face new challenges, including wireless networks, video-based applications, rapid growth of AI computing power, migration of critical services to the cloud, and ubiquitous threats.

- **A. True**
- B. False

Answer: A

Explanation:

Huawei identifies the transition from digital to intelligent transformation as a phase where enterprise data communication networks face several new challenges, such as:

High-density wireless connectivity demands

Heavy use of video-based and real-time applications

The exponential growth of AI computing power

Critical workloads moving to public and hybrid cloud platforms

Ever-evolving cybersecurity threats

These are outlined in the context of building 5G-ready networks to address such demands.

NEW QUESTION # 82

Huawei's HiSecEngine firewalls have been listed in the Gartner Magic Quadrant for 12 consecutive years.

- A. True
- **B. False**

Answer: B

Explanation:

Huawei's HiSecEngine firewalls have achieved recognition in the Gartner Magic Quadrant for Network Firewalls, but not for 12 consecutive years. Huawei's presence in this quadrant is more recent, with consistent recognition over the past few years, particularly following the rebranding to HiSecEngine and performance improvements. The "12 consecutive years" claim is inaccurate per Gartner reports.

NEW QUESTION # 83

Which of the following statements is true about Huawei's IoT Wi-Fi APs?

- A. IoT expansion can be implemented through PCIe cards or USB ports.
- **B. The AirEngine 6760R-51 outdoor Wi-Fi 6 AP supports IoT expansion.**
- C. Currently, IoT expansion is only available for RFID and Bluetooth protocols.
- D. Radios used by IoT and Wi-Fi do not transmit on the same channel, so there is no need to consider interference between IoT and Wi-Fi signals.

Answer: B

Explanation:

A: True: The AirEngine 6760R-51, a rugged outdoor Wi-Fi 6 AP, supports IoT expansion via Huawei's IoT cards.

B: False: Huawei IoT expansion is implemented via IoT cards and dedicated expansion modules, not PCIe or USB.

C: False: Huawei supports multiple IoT protocols, including BLE, RFID, Zigbee, and NB-IoT, not just RFID and Bluetooth.

D: False: Although Huawei minimizes interference through smart scheduling, some spectrum overlap may still occur, and co-channel interference is always considered in planning.

NEW QUESTION # 84

Huawei AirEngine APs support the leader AP feature. What forwarding modes does a leader AP support?
(Select all that Apply)

- A. Bridge forwarding
- **B. Tunnel forwarding**
- C. Route forwarding
- **D. Direct forwarding**

Answer: B,D

Explanation:

Huawei AirEngine APs with the leader AP feature are capable of managing Fit APs in small-scale or branch networks. The supported forwarding modes include:

A: Tunnel forwarding: Traffic is encapsulated and sent to the gateway (leader AP or AC) B: Direct forwarding: Traffic exits directly at the AP to reduce latency. Bridge forwarding and route forwarding are not standard forwarding modes in this context. Bridge mode generally applies to Layer 2 switching, and route forwarding pertains to Layer 3 routers, not WLAN forwarding at the AP level.

NEW QUESTION # 85

.....

Our HCSA-Presales-IP Network V4.0 exam questions are totally revised and updated according to the changes in the syllabus and the latest developments in theory and practice. And the study materials are based on the past years of the exam really and industry trends through rigorous analysis and summary. We carefully prepare the H19-301_V4.0 test guide for the purpose of providing high-quality products. All the revision and updating of products can graduate the accurate information about the H19-301_V4.0 Guide Torrent you will get, let the large majority of student be easy to master and simplify the content of important information. Our product H19-301_V4.0 test guide delivers more important information with fewer questions and answers, in order to easy and efficient learning.
