New ANS-C01 Learning Materials - ANS-C01 Latest Test Discount

If you search for exam materials for your coming exam, you will find that there are so many websites to choose from. And our website is the most reliable one. You can just compare the quality and precision of the ANS-C01 exam questions with ours. Then you will find that our ANS-C01 Study Materials are the best among all the study sources available to you. And we have become a famous brand in this career. You won't regret for your choice.

Amazon AWS Certified Advanced Networking Specialty Exam Sample Questions (Q237-Q242):

NEW QUESTION # 237
The networking team at a company has provisioned a new EC2 instance A by choosing the default security group of the default VPC. The team can ping instance A from other instances in the VPC. These other instances were also created using the default

security group.

The next day, the team launches another instance B by creating a new security group and attaching it to instance B. All other configuration options for instance B are chosen as default. However, the team is not able to ping instance B from other instances in the VPC.

As an AWS Certified Networking Specialist, which of the following would you identify as the root cause of the issue?

Response:

- A. Instance A is in the default security group. The default rules for the default security group allow no inbound traffic from all sources. Instance B is in a new security group. The default rules for a security group that you create allow inbound traffic from all sources
- B. Instance A is in the default security group. The default rules for the default security group allow no inbound traffic from network interfaces (and their associated instances) that are assigned to the same security group. Instance B is in a new security group. The default rules for a security group that you create allow inbound traffic from all sources
- C. Instance A is in the default security group. The default rules for the default security group allow inbound traffic from all sources. Instance B is in a new security group. The default rules for a security group that you create allow no inbound traffic
- D. Instance A is in the default security group. The default rules for the default security group allow inbound traffic from network interfaces (and their associated instances) that are assigned to the same security group. Instance B is in a new security group. The default rules for a security group that you create allow no inbound traffic

Answer: D

NEW QUESTION # 238

A company uses an AWS Direct Connect private VIF with a link aggregation group (LAG) that consists of two 10 Gbps connections. The company's security team has implemented a new requirement for external network connections to provide layer 2 encryption. The company's network team plans to use MACsec support for Direct Connect to meet the new requirement.

Which combination of steps should the network team take to implement this functionality? (Choose three.)

- A. Configure the MACsec encryption mode on each Direct Connect connection that makes up the existing LAG.
- B. Configure the MACsec encryption mode on the existing LAG.
- C. Associate the MACsec Connectivity Association Key (CAK) and the Connection Key Name (CKN) with the new LAG.
- D. Associate the Internet Key Exchange (IKE) with the existing LAG.
- E. Create a new Direct Connect LAG with new circuits and ports that support MACsec.
- F. Configure the MACsec encryption mode on the new LAG.

Answer: C,E,F

NEW QUESTION # 239

Which Amazon Route 53 routing policy would be the most appropriate for gradually migrating an application to AWS?

Response:

- A. Failover
- B. Latency-based
- C. Geolocation
- D. Weighted

Answer: D

NEW QUESTION # 240

Your organization is planning on connecting to AWS. The organization has decided to use a specific Virtual Private Network (VPN) technology for the first phase of the project. You are tasked with implementing the VPN server in a Virtual Private Cloud (VPC) and optimizing it for performance.

What are important considerations for Amazon EC2 VPN performance?

A) The VPN instance should support enhanced networking

B) Because all VPN connections use the Virtual Private Gateway (VGW), it's important to scale the VGW horizontally.

C) IP Security (IPsec) VPNs should use a Network Load Balancer to create a more scalable VPN service

D) Analyze the packet per second and bandwidth limitations

Response:

- A. B & C
- B. A & B
- C. B & D
- D. A & D

Answer: D

NEW QUESTION # 241

A company has two on-premises data centers. The first data center is in the us-east-1 Region. The Second data center is in the us-east-2 Region. Each data center connects to the closest AWS Direct Connect facility.

The company uses Direct Connect connections, transit VIFs, and a single Direct Connect gateway to establish connectivity to VPCs in us-east-1 and us-east-2 from the company's data centers. The company also has private connectivity from a telecommunications provider that connects the first data center to the second data center.

Recently, there have been multiple connection disruptions to the private connectivity between the data centers. The company needs a solution to improve the reliability of the connection between the two data centers.

Which solution will meet these requirements?

- A. Create a new public VIF to both Regions. Enable the Direct Connect SiteLink feature on the new public VIF.
- B. Enable the Direct Connect SiteLink feature on the existing transit VIFS that are attached to the existing Direct Connect gateway.
- C. Create a new Direct Connect gateway. Enable the Direct Connect SiteLink feature on the transit VIF.
  Share the CIDR blocks from the first data center and the second data center with each other.
- D. Enable the Direct Connect SiteLink feature on the existing Direct Connect connections.

Answer: B

NEW QUESTION # 242

......

ANS-C01 Soft test engine can stimulate the real exam environment, so that you can know the procedures of the exam, and your nerves can be relieved. This version can also build up your confidence for the exam. In addition, ANS-C01 exam dumps contain most of knowledge points for the exam, and you can master them as well as improve your ability in the process learning. We also pass guarantee and money back guarantee if you fail to pass the exam, we will return your money if you fail to pass the exam. Free update for ANS-C01 Training Materials is also available, and our system will send you the latest version to your email automatically.

New ANS-C01 Learning Materials: https://www.surepassexams.com/ANS-C01-exam-bootcamp.html

This group of Amazon experts and certified trainers dedicated to the ANS-C01 exam torrent for many years to ensure the accuracy of questions and help you speed up the pace of passing ANS-C01 exam, so their authority and accuracy is undoubted, Get the Amazon New ANS-C01 Learning Materials certification to validate your IT expertise and broaden your network to get more improvement in your career, So your chance of getting success will be increased greatly by our ANS-C01 study questions.

I dispel the faulty belief that negotiations in boardrooms or real estate ANS-C01 deals are fundamentally different from salary negotiations, school and community negotiation, and, yes, negotiations with spouses and kids.

ANS-C01 Test Prep is Effective to Help You Get Amazon Certificate - SurePassExams

Write as though the prospects have already accepted your proposal, This group of Amazon experts and certified trainers dedicated to the ANS-C01 Exam Torrent for many years to ensure the accuracy of questions and help you speed up the pace of passing ANS-C01 exam, so their authority and accuracy is undoubted.

Get the Amazon certification to validate your IT expertise and broaden your network to get more improvement in your career, So your chance of getting success will be increased greatly by our ANS-C01 study questions.

Do not waste your time, The Pass4future designs ANS-C01 desktop-based practice software for desktops, so you can install it from a website and then use it without an internet connection.
