

Efficient C-TS422-2023 Pass4sure Dumps Pdf & Passing C-TS422-2023 Exam is No More a Challenging Task

P.S. Free & New C-TS422-2023 dumps are available on Google Drive shared by Exam4Docs: <https://drive.google.com/open?id=1vRUgkMzsXEcgOn2S51hdcGGW7712DUH->

C-TS422-2023 Exam is just a piece of cake if you have prepared for the exam with the helpful of Exam4Docs's exceptional study material. If you are a novice, begin from C-TS422-2023 study guide and revise your learning with the help of testing engine. C-TS422-2023 Exam brain dumps are another superb offer of Exam4Docs that is particularly helpful for those who want to the point and the most relevant content to Pass C-TS422-2023 Exam. With all these products, your success is assured with 100% money back guarantee.

SAP C-TS422-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Master Data in SAP S• 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version.
Topic 2	<ul style="list-style-type: none">• Introduction to SAP S• 4HANA Supply Chain Planning: This part covers the background and motivation for SAP S• 4HANA, its main components, business applications, and user experience strategy.
Topic 3	<ul style="list-style-type: none">• Advanced Planning in SAP S• 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts.
Topic 4	<ul style="list-style-type: none">• Managing Clean Core: This section covers the application of clean core principles to enhance business process agility, reduce adaptation efforts, and drive innovation in ERP systems.
Topic 5	<ul style="list-style-type: none">• Process Orders in SAP S• 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features.

Topic 6	<ul style="list-style-type: none"> • Production Orders in SAP S • 4HANA: This section covers BOM item categorization, order status management, availability checks, routing selection, order type setup, and material handling processes.
Topic 7	<ul style="list-style-type: none"> • Lean Manufacturing in SAP S • 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems.

Quiz 2026 C-TS422-2023: Trustable SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Pass4sure Dumps Pdf

It is not easy for you to make a decision of choosing the C-TS422-2023 prep guide from our company, because there are a lot of study materials about the exam in the market. However, if you decide to buy the C-TS422-2023 test practice files from our company, we are going to tell you that it will be one of the best decisions you have made in recent years. As is known to us, the C-TS422-2023 study braindumps from our company are designed by a lot of famous experts and professors in the field. There is no doubt that the C-TS422-2023 prep guide has the high quality beyond your imagination. Choosing the C-TS422-2023 study braindumps from our company can but prove beneficial to all people. We believe that our products, at all events, worth a trial.

SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q63-Q68):

NEW QUESTION # 63

in your Plant, MRP is activated.

which options do you have to exclude a material from the MRP run?

Note: there are 2 correct answers to this question.

- A. Use a specific MRP type
- B. Use a specific MRP list
- C. Use a specific material group
- D. Use a specific material status

Answer: A,D

Explanation:

You can exclude a material from the MRP run by using a specific material status or a specific MRP type. A material status is a user-defined indicator that can be assigned to a material master record to control the procurement and planning activities for the material. For example, you can define a material status that blocks the material from being planned by MRP. An MRP type is a parameter that defines how a material is planned by MRP. For example, you can use the MRP type ND (No Planning) to exclude the material from the MRP run.

NEW QUESTION # 64

Which master data fields can have an impact on whether MRP creates planned orders or purchase requisitions for a material? Note: There are 2 correct answers to this question.

- A. MRP group
- B. Material type
- C. MRP type
- D. Procurement type

Answer: B,D

Explanation:

In SAP S/4HANA, MRP determines whether to create planned orders (for in-house production) or purchase requisitions (for external procurement) based on specific master data settings in the material master. The procurement type (A), maintained in the MRP 2 view

(field: ProcurementType), is a key determinant. For example, procurement type "E" (In-house production) triggers planned orders, while "F" (External procurement) generates purchase requisitions, and "X" (Both) allows MRP to decide based on additional settings like quotas.

The material type(B), defined during material creation and linked to configuration (Logistics - General > Material Master > Basic Settings > Define Material Types), also influences this decision indirectly. For instance, material types like "FERT" (Finished Goods) are typically produced in-house, favoring planned orders, while "ROH" (Raw Materials) are procured externally, favoring purchase requisitions. MRP type(C) controls whether MRP runs (e.g., "PD" for MRP planning), but it does not directly determine the order type.

MRP group(D) groups materials for planning parameters but does not directly dictate planned orders versus purchase requisitions.

NEW QUESTION # 65

Which of the following processes lead to an entry in the MRP planning file?

Note: There are 2 correct answers to this question.

- A. Changing the delivery address in transportation management
- B. Changing the storage bin in warehouse management
- C. Changing the procurement type in the product master
- D. Changing the stock in inventory management

Answer: C,D

NEW QUESTION # 66

What is a prerequisite for consumption of planned independent requirements to take place for planning strategy 40 (Planning with final assembly)?

- A. A sales order is created.
- B. MRP creates a planned order.
- C. A sales order is delivered.
- D. MRP creates a dependent requirement.

Answer: A

NEW QUESTION # 67

You use planning strategy Finite Scheduling with Reverse and want to allow scheduling in the past. How can you parameterize this in the strategy profile?

- A. Specify a negative opening period.
- B. Specify a negative planning horizon.
- C. Specify a negative PP/DS horizon.
- D. Specify a negative offset time.

Answer: D

Explanation:

In SAP S/4HANA PP/DS, the Finite Scheduling with Reverse strategy (configured in the strategy profile, transaction /SAPAPO/CDPSC11) schedules operations backward from a fixed end date, respecting finite capacity. To allow scheduling in the past (e.g., before today's date):

* Specify a negative offset time(A): In the strategy profile (Detailed Scheduling tab, field: Scheduling Offset), a negative value (e.g., - 2 days) shifts the scheduling reference point into the past. This allows operations to be scheduled before the current date, accommodating scenarios where late planning or historical adjustments are needed, while still respecting capacity constraints. Negative opening period(B) isn't a standard PP/DS parameter-it's a production order term (MRP 2 view) for order start buffers, not scheduling control. Negative planning horizon(C) (Planning Horizon in /SAPAPO /CDPSC11) defines the future planning scope, not past scheduling. Negative PP/DS horizon(D) refers to the PP /DS planning horizon (Customizing), which limits planning scope forward, not backward. This is per SAP's PP/DS scheduling configuration.

NEW QUESTION # 68

.....

What happens when you are happiest? It must be the original question! The hit rate of C-TS422-2023 study materials has been very high for several reasons. Our company has collected the most comprehensive data and hired the most professional experts to organize. They are the most authoritative in this career. At the same time, we are very concerned about social information and will often update the content of our C-TS422-2023 Exam Questions.
