

Professional ADA-C02 Latest Exam Vce bring you Realistic ADA-C02 Real Sheets for Snowflake SnowPro Advanced Administrator ADA-C02

Snowpro Advanced Certifications

It is universally acknowledged that the pass rate is the most persuasive evidence to prove how useful and effective a kind of ADA-C02 practice test is. In terms of our ADA-C02 training materials, the pass rate is one of the aspects that we take so much pride in because according to the statistics from the feedbacks of all of our customers, under the guidance of our ADA-C02 Preparation materials, the pass rate among our customers has reached as high as 98% to 100%, which marks the highest pass rate in the field. So just feel rest assured to buy our ADA-C02 study guide!

Are you still silly to spend much time to prepare for your test but still fail again and again? Do you find that some candidates pass exam easily with Snowflake ADA-C02 exam dumps questions? If your goal is passing exams and obtain certifications our ADA-C02 exam dumps can help you achieve your goal easily, why not choose us? Only dozen of money and 20-35 hours' valid preparation before the test with ADA-C02 Exam Dumps questions will make you clear exam surely. So why are you still wasting so many time to do useless effort?

Snowflake ADA-C02 Exam Questions Are Out: Download And Prepare

[2026]

Our Snowflake ADA-C02 demo products hold the demonstration for our actual products, demos are offered at no cost only for raising your confidence level. Procure the quality of our product in advance, unsighted featured becomes reveal with our ADA-C02 Demo products. Free Private Cloud Monitoring and Operations with demos respond to all kind of worries that customers have in their mind while going for actual purchase.

Snowflake SnowPro Advanced Administrator ADA-C02 Sample Questions (Q54-Q59):

NEW QUESTION # 54

A Snowflake Administrator needs to set up Time Travel for a presentation area that includes facts and dimensions tables, and receives a lot of meaningless and erroneous IoT data. Time Travel is being used as a component of the company's data quality process in which the ingestion pipeline should revert to a known quality data state if any anomalies are detected in the latest load. Data from the past 30 days may have to be retrieved because of latencies in the data acquisition process.

According to best practices, how should these requirements be met? (Choose two.)

- A. Related data should not be placed together in the same schema. Facts and dimension tables should each have their own schemas.
- B. The fact and dimension tables should be cloned together using the same Time Travel options to reduce potential referential integrity issues with the restored data.
- C. The DATA_RETENTION_TIME_IN_DAYS should be kept at the account level and never used for lower level containers (databases and schemas).
- D. Only TRANSIENT tables should be used to ensure referential integrity between the fact and dimension tables.
- E. The fact and dimension tables should have the same DATA_RETENTION_TIME_IN_DAYS.

Answer: B,E

Explanation:

To ensure consistent recovery, fact and dimension tables must have the same DATA_RETENTION_TIME_IN_DAYS, so they can be restored to the same point in time.

Cloning the fact and dimension tables together with consistent Time Travel options ensures data integrity and avoids referential mismatches when reverting to a prior state.

NEW QUESTION # 55

What roles can be used to create network policies within Snowflake accounts? (Choose three.)

- A. Any role that owns the database where the network policy is created
- B. ORGADMIN
- C. Any role with the global permission of CREATE NETWORK POLICY
- D. SYSADMIN
- E. SECURITYADMIN
- F. ACCOUNTADMIN

Answer: B,E,F

Explanation:

SECURITYADMIN, ACCOUNTADMIN, and ORGADMIN roles can create network policies in Snowflake accounts. These roles have the necessary privileges to manage account-level security policies.

NEW QUESTION # 56

MY_TABLE is a table that has not been updated or modified for several days. On 01 January 2021 at 07:01, a user executed a query to update this table. The query ID is '8e5d0ca9-005e-44e6-b858-a8f5b37c5726'. It is now 07:30 on the same day.

Which queries will allow the user to view the historical data that was in the table before this query was executed? (Choose three.)

- A. SELECT * FROM TIME_TRAVEL('MY_TABLE', 2021-01-01 07:00:00);
- B. SELECT * FROM my_table AT(OFFSET => -60*30);
- C. SELECT * FROM my_table PRIOR TO STATEMENT '8e5d0ca9-005e-44e6-b858-a8f5b37c5726';

- D. `SELECT * FROM my_table AT(TIMESTAMP => '2021-01-01 07:00:00':timestamp);`
- E. `SELECT * FROM my_table WITH TIME TRAVEL(OFFSET => -60*30);`
- F. `SELECT * FROM my_table BEFORE(STATEMENT => '8e5d0ca9-005e-44e6-b858-a8f5b37c5726');`

Answer: B,D,F

Explanation:

Use Time Travel to view past table versions: (B) selects the table "as of" 07:00 via `AT(TIMESTAMP => ...)`; (E) selects "as of" 30 minutes earlier via `AT(OFFSET => -60*30)`; (F) selects the state before the specified statement via `BEFORE(STATEMENT => '<query_id>')`.

NEW QUESTION # 57

A company enabled replication between accounts and is ready to replicate data across regions in the same cloud service provider.

The primary database object is : `PROD_AWS_EAST`. Location : `AWS_EAST`

The secondary database object is : `PROD_AWS_WEST`. Location : `AWS_WEST`

What command and account location is needed to refresh the data?

- A. Location : `AWS_EAST`
Command : `REFRESH DATABASE PROD_AWS_WEST REFRESH;`
- B. Location : `AWS_WEST`
Command : `ALTER DATABASE PROD_AWS_WEST REFRESH;`
- C. Location : `AWS_WEST`
Command : `REFRESH DATABASE PROD_AWS_WEST REFRESH;`
- D. Location : `AWS_EAST`
Command : `ALTER DATABASE PROD_AWS_WEST REFRESH;`

Answer: B

Explanation:

To update a secondary database with changes from its primary, the `ALTER DATABASE <secondary_db> REFRESH;` command must be executed in the secondary account/region. In this case, that means running the command on `PROD_AWS_WEST` in `AWS_WEST`.

NEW QUESTION # 58

A Snowflake customer is experiencing higher costs than anticipated while migrating their data warehouse workloads from on-premises to Snowflake. The migration workloads have been deployed on a single warehouse and are characterized by a large number of small INSERTS rather than bulk loading of large extracts. That single warehouse has been configured as a single cluster, 2XL because there are many parallel INSERTS that are scheduled during nightly loads.

How can the Administrator reduce the costs, while minimizing the overall load times, for migrating data warehouse history?

- A. The warehouse should be kept as a `SMALL` or `XSMALL` and configured as a multi-cluster warehouse to handle the parallel load queries.
- B. The INSERTS should be converted to several tables to avoid contention on large tables that slows down query processing.
- C. There should be another 2XL warehouse deployed to handle a portion of the load queries.
- D. The 2XL warehouse should be changed to 4XL to increase the number of threads available for parallel load queries.

Answer: A

Explanation:

For many small, parallel INSERTS, using a multi-cluster warehouse with smaller size (`SMALL` or `XSMALL`) allows more concurrent queries to run efficiently and reduces costs compared to a single large warehouse. This configuration improves concurrency without unnecessary compute expense.

NEW QUESTION # 59

.....

You can also trust PDFTorrent Snowflake ADA-C02 exam questions and start this journey with complete peace of mind and

satisfaction. The SnowPro Advanced Administrator ADA-C02 practice questions are designed and verified by experienced and qualified SnowPro Advanced Administrator ADA-C02 (ADA-C02) exam experts. They work collectively and put their expertise to ensure the top standard of PDFTorrent Snowflake ADA-C02 Exam Dumps. So we can say that with the PDFTorrent Snowflake ADA-C02 exam questions, you will get everything that you need to learn, prepare and pass the difficult Snowflake ADA-C02 certification exam with good scores.

ADA-C02 Real Sheets: <https://www.pdf torrent.com/ADA-C02-exam-prep-dumps.html>

Our ADA-C02 Real Sheets - SnowPro Advanced Administrator ADA-C02 guide torrent is equipped with time-keeping and simulation test functions, it's of great use to set up a time keeper to help adjust the speed and stay alert to improve efficiency, In order to let you obtain the latest information for ADA-C02 exam braibdumps, we offer you free update for one year after purchasinhg, and the update version will be sent to your email automatically, It is because of our high quality Snowflake ADA-C02 preparation software, PDF files and other relevant products, we have gathered thousands of customers who have successfully passed the Snowflake ADA-C02 in one go.

Each row contains no more than one line of text, As you will learn from this ADA-C02 chapter, many of the connections and related forensic hardware cannot be purchased at a local Staples stationary store if you need something:

Snowflake ADA-C02 Questions - To Pass Exam Easily [2026]

Our SnowPro Advanced Administrator ADA-C02 guide torrent is equipped with time-keeping and simulation PDF ADA-C02 Download test functions, it's of great use to set up a time keeper to help adjust the speed and stay alert to improve efficiency.

In order to let you obtain the latest information for ADA-C02 Exam braibdumps, we offer you free update for one year after purchasinhg, and the update version will be sent to your email automatically.

It is because of our high quality Snowflake ADA-C02 preparation software, PDF files and other relevant products, we have gathered thousands of customers who have successfully passed the Snowflake ADA-C02 in one go.

Our ADA-C02 guide questions can provide statistics report function to help the learners to find weak links and deal with them, Advantages of PDFTorrent SnowPro Advanced training material.
