

100% Pass Fortinet - NSE7_SSE_AD-25 - Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator–High Pass-Rate Test Braindumps

All the Fortinet NSE7_SSE_AD-25 questions given in the product are based on actual examination topics. Exam4Free provides three months of free updates if you purchase the NSE7_SSE_AD-25 questions and the content of the examination changes after that. Exam4Free NSE7_SSE_AD-25 PDF Questions: The Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator (NSE7_SSE_AD-25) PDF dumps are suitable for smartphones, tablets, and laptops as well. So you can study actual Fortinet NSE7_SSE_AD-25 questions in PDF easily anywhere. Exam4Free updates Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator (NSE7_SSE_AD-25) PDF dumps timely as per adjustments in the content of the actual NSE7_SSE_AD-25 exam.

We are intent on keeping up with the latest technologies and applying them to the NSE7_SSE_AD-25 exam questions and answers not only on the content but also on the displays. Our customers have benefited from the convenience of state-of-the-art. That is why our pass rate on NSE7_SSE_AD-25 practice quiz is high as 98% to 100%. The data are unique-particular in this career. With our NSE7_SSE_AD-25 exam torrent, you can enjoy the leisure study experience as well as pass the NSE7_SSE_AD-25 exam with success ensured.

NSE7_SSE_AD-25 Test Objectives Pdf, Formal NSE7_SSE_AD-25 Test

I am glad to introduce a secret weapon for all of the candidates to pass the exam as well as get the related certification without any more ado-- our NSE7_SSE_AD-25 study materials. You can only get the most useful and efficient study materials with the most affordable price. With our NSE7_SSE_AD-25 practice test, you only need to spend 20 to 30 hours in preparation since there are all essence contents in our NSE7_SSE_AD-25 Study Materials. What's more, if you need any after service help on our NSE7_SSE_AD-25 exam guide, our after service staffs will always offer the most thoughtful service for you.

Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator Sample Questions (Q77-Q82):

NEW QUESTION # 77

Which statement best describes the Digital Experience Monitor (DEM) feature on FortiSASE?

- A. It gathers all the vulnerability information from all the FortiClient endpoints.
- B. It is used for performing device compliance checks on endpoints.
- C. It monitors the FortiSASE POP health based on ping probes.
- **D. It provides end-to-end network visibility from all the FortiSASE security PoPs to a specific SaaS application.**

Answer: D

Explanation:

The Digital Experience Monitor (DEM) in FortiSASE measures and monitors network performance from the FortiSASE Points of Presence (PoPs) to specific SaaS or cloud applications, helping identify and troubleshoot performance issues across the service path.

NEW QUESTION # 78

An organization wants to block all video and audio application traffic but grant access to videos from CNN. Which application override action must you configure in the Application Control with Inline-CASB?

- **A. Exempt**
- B. Allow
- C. Permit
- D. Pass

Answer: A

Explanation:

To block all video and audio application traffic while granting access to videos from CNN, you need to configure an application override action in the Application Control with Inline-CASB. Here is the step-by-step detailed explanation:

* Application Control Configuration:

* Application Control is used to identify and manage application traffic based on predefined or custom application signatures.

* Inline-CASB (Cloud Access Security Broker) extends these capabilities by allowing more granular control over cloud applications.

* Blocking Video and Audio Applications:

* To block all video and audio application traffic, you can create a policy within Application Control to deny all categories related to video and audio streaming.

* Granting Access to Specific Videos (CNN):

* To allow access to videos from CNN specifically, you must create an override rule within the same Application Control profile.

* The override action "Exempt" ensures that traffic to specified URLs (such as those from CNN) is not subjected to the blocking rules set for other video and audio traffic.

* Configuration Steps:

* Navigate to the Application Control profile in the FortiSASE interface.

* Set the application categories related to video and audio streaming to "Block."

* Add a new override entry for CNN video traffic and set the action to "Exempt." References:

FortiOS 7.6 Administration Guide: Detailed steps on configuring Application Control and Inline-CASB.

Fortinet Training Institute: Provides scenarios and examples of using Application Control with Inline-CASB for specific use cases.

NEW QUESTION # 79

Which policy type is used to control traffic between the FortiClient endpoint to FortiSASE for secure internet access?

- A. thin edge policy
- B. VPN policy
- C. private access policy
- **D. secure web gateway (SWG) policy**

Answer: D

Explanation:

The Secure Web Gateway (SWG) policy is used to control traffic between the FortiClient endpoint and FortiSASE for secure internet access. SWG provides comprehensive web security by enforcing policies that manage and monitor user access to the

internet.

* Secure Web Gateway (SWG) Policy:

* SWG policies are designed to protect users from web-based threats and enforce acceptable use policies.

* These policies control and monitor user traffic to and from the internet, ensuring that security protocols are followed.

* Traffic Control:

* The SWG policy intercepts all web traffic, inspects it, and applies security rules before allowing or blocking access.

* This policy type is crucial for providing secure internet access to users connecting through FortiSASE.

References:

FortiOS 7.6 Administration Guide: Details on configuring and managing SWG policies.

FortiSASE 23.2 Documentation: Explains the role of SWG in securing internet access for endpoints.

NEW QUESTION # 80

An organization must block user attempts to log in to non-company resources while using Microsoft Office 365 to prevent users from accessing unapproved cloud resources.

Which FortiSASE feature can you implement to meet this requirement?

- A. web filter with inline-CASB
- **B. application control with inline-CASB**
- C. data loss prevention (DLP) with Microsoft Purview Information Protection (MPIP)
- D. DNS filter with domain filter

Answer: B

Explanation:

Application control with inline-CASB allows FortiSASE to inspect and control application behavior at a granular level. This enables the organization to block login attempts to personal or non- corporate Microsoft Office 365 accounts, ensuring that only approved cloud resources are accessed.

NEW QUESTION # 81

Refer to the exhibit.

Based on the configuration shown, in which two ways will FortiSASE process sessions that require FortiSandbox inspection?
(Choose two answers)

- **A. All files executed on a USB drive will be sent to FortiSandbox for analysis.**
- **B. Only endpoints assigned a profile for sandbox detection will be processed by the sandbox feature.**
- C. FortiClient quarantines only infected files that FortiSandbox detects as medium level.
- D. All files will be sent to an on-premises FortiSandbox for inspection.

Answer: A,B

Explanation:

The exhibit (image_595357.jpg) illustrates the Sandbox configuration tab within a FortiSASE Endpoint Profile. This profile dictates how the managed FortiClient agent handles suspicious files and interacts with the sandbox service.

* Profile-Based Enforcement: In the FortiSASE architecture, security features are not applied globally by default; they are enabled through specific profiles assigned to endpoints. Therefore, the sandbox inspection and remediation logic will only be active for endpoints that have been assigned a profile where the Sandbox feature is enabled.

* Removable Media Protection: Under the File Submission Options in the exhibit, the setting All Files Executed from Removable Media is toggled on. This ensures that any file executed from a USB drive or other external storage is sent to the FortiSandbox for analysis before being permitted to run on the endpoint.

* Sandbox Mode: The Sandbox Mode is set to FortiSASE, indicating that files are sent to the integrated cloud-native sandbox rather than an on-premises appliance. This makes Option A incorrect.

* Quarantine Threshold: The Remediation Actions show that the Action is set to Quarantine for files meeting the Sandbox Detection Verdict Level of Medium. This acts as a minimum threshold; FortiClient will quarantine files identified as Medium, High, or Malicious. Option B is incorrect because it implies only medium-level files are quarantined, whereas higher-risk levels would also be blocked.

NEW QUESTION # 82

.....

These features have made Exam4Free NSE7_SSE_AD-25 pdf questions format the most reputable prep material for the quick and restrictions-free exam preparation. As laptops, tablets, and smartphones support this Fortinet NSE7_SSE_AD-25 pdf format, you can easily learn from your comfort zone in your free time.

NSE7_SSE_AD-25 Test Objectives Pdf: https://www.exam4free.com/NSE7_SSE_AD-25-valid-dumps.html

With the help of updated exam dumps, you will be able to succeed in the Fortinet NSE7_SSE_AD-25 exam on the first attempt, In order to build up your confidence for NSE7_SSE_AD-25 exam dumps, we are pass guarantee and money back guarantee, if you fail to pass the exam, we will give you full refund, Fortinet NSE7_SSE_AD-25 Test Braindumps We have employed a lot of online workers to help all customers solve their problem, So you do not need to splurge large amount of money on our Fortinet NSE7_SSE_AD-25 learning materials, and we even give discounts back to you as small gift, so you do not worry about squandering money or time, because is impossible.

Upon hearing news that affects them in a positive or negative NSE7_SSE_AD-25 Practice Exams Free manner, people for the most part respond with a discussion or a debate, which can turn heated in the blink of an eye.

The tone and color settings are preset defaults that Camera Raw uses when it opens an image, With the help of updated exam dumps, you will be able to succeed in the Fortinet NSE7_SSE_AD-25 Exam on the first attempt.
